Available J | S	Program Overview	Cricos TBA	Version 1

The Master of Business Administration comprises 100 credit points of Required Subjects and 20 credit points of Directed MBA Electives, totalling 120 credit points over three semesters. The program develops advanced capabilities in leadership, strategic thinking, decision-making, finance, marketing, digital transformation, organisational change, innovation, and the future of work through an intensive block-teaching MBA curriculum designed to prepare graduates for senior leadership and management roles in complex organisational environments.

Assumed Knowledge

Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students' lack of prior knowledge. Please check for all requirements on your subject outline prior to enrolment.

Opportunities

Students may have the opportunity to participate in an international study tour experience or internship using a general elective. Those interested should consult their MBA Program Coordinator for guidance and to check eligibility requirements (e.g., GPA, language proficiency, prerequisites).
