The information published in this document is correct at the time of printing. However, all programs are subject to review by the Academic Senate of the University and the University reserves the right to change its program offerings and subjects without notice.

Students may also wish to choose subjects from the Counselling (COUN) Criminology (CRIM) or Behaviour Management (BVMT) suite of subjects.

The full list of subjects can be found via the Subject Search on the Bond University Website.

NOTE: It is strongly recommended that students complete PSYC11 subjects first, followed by PSYC12 then PSYC13 in the order that the degree sequencer stipulates. Any diversion from this recommended sequence will result in students not acquiring the necessary levels of knowledge to successfully complete the degree. Any awarding of advanced standing/credit will have the potential to reduce the number of subjects available to enrol in during some semesters, however, this is not a reason to divert from the degree sequencer for the reasons outlined.

The information published in this document is correct at the time of printing. However, all programs are subject to review by the Academic Senate of the University and the University reserves the right to change its program offerings and subjects without notice.
