

2023

**International
Study Guide**

Welcome to Bond University on Australia's Gold Coast

With more than 300 days of sunshine per year, a growing population and limitless opportunities, the Gold Coast has become known as Australia's favourite classroom. Located in the city's geographical centre, Bond University has earned a reputation as Australia's leading university for student experience, and as a home away from home for international students.

As Australia's first private, not-for-profit university, Bond has been modelled on the traditions of the world's best educational institutions to provide a tertiary experience of the highest international standards. Student experience is at the heart of

everything we do - 100 per cent of our tuition fees are reinvested into ensuring our students have access to world-class facilities and study resources, and can learn under the guidance of industry leading academics.

Bond University is recognised as a self-accrediting Australian university by the Tertiary Education Quality and Standards Agency (TEQSA), and our programs for international students are recognised with the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS).

We're #1

- #1 in Australia for student experience 16 years in a row*
- #1 for employer satisfaction in Australia in 2017, 2019 and 2020**
- #1 in Australia for learner engagement*

5 stars in every category†*

The lowest in Australia

* 2022 Good Universities Guide. The Good Universities Guide is a trusted independent consumer guide providing ratings, rankings and comment about all Australian higher education institutions.

** 2020 Quality Indicators for Learning and Teaching (QILT) Employer Satisfaction Survey. QILT is an independent survey by the Australian Government's Department of Education, Skills and Employment.

† 2020-2022 QS Star ratings. QS Stars is a global rating system that provides a detailed overview of a university's excellence, rating educational institutions all over the world. It is internationally recognised as one of a few truly global rating systems.

Your experience

An investment in your education is an investment in yourself. At the end of your Bond journey, you'll be out in the workforce up to a year earlier than your peers at other universities, with the skills, perspective and transformative experiences to help you stand out in your career.

Personalised support.

We provide individualised career development services, personal attention, study support, skills development, and coaching.

A global advantage.

As a world-class Australian university, Bond's international partnerships and alumni network span the globe, with graduates working across all industries.

The fast track.

Propel your career forward faster than your peers at other universities with one of our accelerated undergraduate degrees or our work experience-focused professional master's programs.

A deliberately different way of learning.

Prepare to take on future challenges at one of Australia's most innovative universities. Progressive and adaptable, we understand that everyone's learning journey is unique.

A focus on wellbeing.

At Bond, we're committed to fostering your wellbeing, and provide dedicated services to ensure you have all the support you need.

Immersive experiences.

Take textbooks into the real world with access to an abundance of enriched experiences, including industry placements, international competitions, networking and more.

An investment in your future.

The value of a Bond degree is immeasurable. Emerge from university with the skills and knowledge necessary to skyrocket your earning potential. Plus, our accelerated degrees mean you will save on up to a year's worth of living costs.

Critical skills for a changing world.

Embedded in all of our undergraduate programs, the Core curriculum will ensure you're well-equipped to become a capable individual, effective collaborator, and global citizen.

Your industry engagement and employability.

You'll have multiple opportunities to strengthen your employability ahead of entering the workforce. Take advantage of the Career Development Centre's program and career experts, the Transformer start-up program, and internship opportunities.

The support of a close community.

The friendships and connections you make at Bond will form your lifelong personal and professional networks.

Your professional and personal growth.

Undergraduate students will engage with Beyond Bond, our degree-wide professional development program, which is designed to enhance your graduate employability and create a professional portfolio of evidence.

Vibrant campus life.

Sporting and cultural clubs and societies, as well as student associations, provide opportunities to enrich your student experience and pursue leadership roles.

The Bond University difference

An investment in your education is an investment in your future success. Your time at Bond will enable career-enhancing opportunities, build valuable networks, and allow you to start achieving your career goals faster.

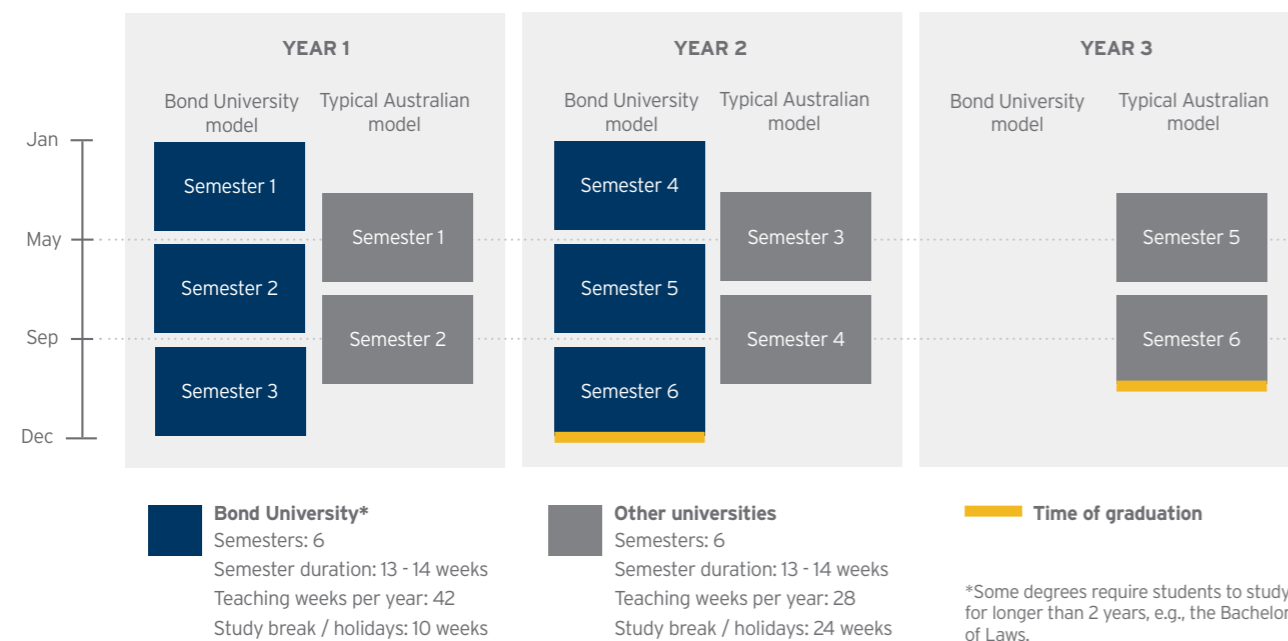

Accelerated degrees

At Bond, you can complete your degree and start your career sooner than at a traditional university. Our teaching calendar includes three semesters per year instead of the usual two, allowing you to enter the workforce quicker than at other universities. With semesters starting in January, May and September, you could complete a combined degree, or an undergraduate and postgraduate degree, in less time than it would take to complete a single degree at another university.

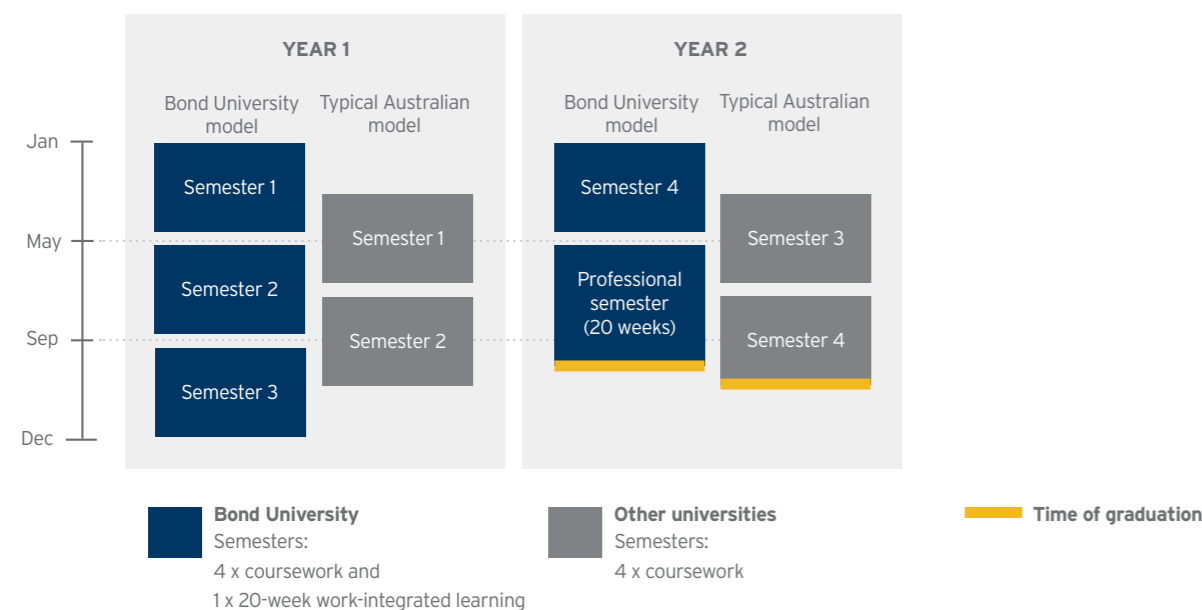

Programs tailored to international students

In addition to our accelerated programs, we also offer a range of two-year 'professional' master's programs. Designed for students who would like to gain work experience in Australia after they graduate, these unique master's degrees incorporate a 20-week professional experience element, and permit international students to apply for an extended three or four-year post-study work visa.

Minimum bachelor degree study time at Bond compared with other universities

Master (Professional) degrees at Bond compared with other universities

Personal attention

Bond's student-to-teacher ratio is one of the lowest in Australia, which means you will enjoy personalised support and attention throughout your studies. You will have unmatched access to your lecturers and tutors, who will actively mentor your progress, as well as personalised career and academic support to help you succeed in your studies and plan for your career after graduation.

Individual support

A key part of the Bond University difference is the personal support you will receive at every step along the way. At Bond, you will never get lost in the crowd - you will have access to an abundance of opportunities and our extensive support services, including the Academic Skills Centre and Career Development Centre.

Entrepreneurship and the Transformer program

At Bond, we focus on developing adaptive, tech-savvy and future-focused graduates with a strong entrepreneurial streak. Bond offers a free co-curricular program called Transformer, which brings students together from all disciplines to collaborate on projects and bring big business ideas to life. Working in teams, Transformer participants have access to industry experts, mentors, workshops and a 24/7 co-working space.

Developing key employability skills

Bond graduates stand out both at university and in their future careers. In addition to Bond's extensive career development support, the development of key skills is embedded into every Bond University degree. Our undergraduate degrees include three Core curriculum subjects, plus the Beyond Bond professional development program, which collectively teach invaluable skills you will take with you throughout your professional life.

Oscar Friedman Caceres

PERU, BACHELOR OF PSYCHOLOGICAL SCIENCE.

"The experience you receive at Bond, not only socially but academically, is much greater than larger universities that may see you as just another number. As an international student, I have access to personalised support, like help with my assignments and internship placements - all the things I wouldn't have had access to at another university, but are available at Bond because of our small class sizes.

Being president of the Esports Club at Bond has been a highlight of my time here, and a complete honour. It has helped me to make connections at Bond and with other universities in the esports league."

Building a better business with bots

What started in the guest bedroom of Neeti Mehta Shukla's house has now become a \$US6.8 billion robotic process automation (RPA) company.

Ms Shukla graduated with an MBA from Bond in 1997 and launched her company, Automation Anywhere, with her husband in 2003. Within minutes they already had their first customer. Now, Automation Anywhere has its global headquarters in San Jose, California and a client list including ANZ Bank, University of Melbourne, Dell, Sprint and more. It has also deployed over 2.8 million bots to support some of the world's largest enterprises.

The company allows users to create custom software bots with Automation Anywhere technology that automates manual, repetitive business and IT processes. The bots, which utilise artificial intelligence (AI) and machine learning, can be configured to perform tasks assigned and controlled by the user.

The headquarters are a long way from Bond University, but Ms Shukla keeps the university close to her heart. She's even a member of the Bond Business School Advisory Board.

"The education, professors and courses were so impactful and also really diverse. I had the time of my life. All the friends I made there have been for life, and we still keep in touch and meet when we can," says Ms Shukla.

"It was a good combination of education that stretched my boundaries and allowed me to get the best from the world."

Neeti's full story at alumni.bond.edu.au/arch27

Live in a city of innovation and opportunity

The Gold Coast has quickly established itself as a hub for entrepreneurship and innovation, leading the way nationally, and growing constantly. More people on the Gold Coast own and run their own businesses than any other city in Australia, with the region attracting some of the world's best and brightest minds.

A diverse industry landscape

The Gold Coast offers a multifaceted and broad business landscape with strong employment opportunities across many sectors. Bond's dedicated Career Development Centre provides access to industry connections that will help you make the most of our growing professional opportunities.

A global community

Bond students hail from more than 90 countries around the world. The city is welcoming and diverse, with almost one in three residents having been born overseas. At Bond, you will join students from all corners of the globe and gain an international perspective on study and work.

Entrepreneurship opportunities

There are numerous opportunities for you to develop your entrepreneurship skills and nurture your ideas, both right here at Bond, and on the Gold Coast. Participate in the University's Transformer program, major in Entrepreneurship and Innovation, and participate in networking opportunities, competitions and initiatives to broaden your entrepreneurial skill set.

Be eligible for a post-study work visa

While it is Australia's sixth largest city, the Gold Coast is classified as a regional city for migration purposes. This means that you may be eligible for an extended, three-year post-study work visa after graduation if you complete a bachelor's degree, or a four-year post-study work visa if you complete a master's by coursework.

Be a standout graduate

What you do at university has never been more important in preparing you to succeed in your career. In an increasingly competitive job market, it's no longer solely about what you learn in the classroom - enhancing your employability is an equally essential part of the university experience.

Unmatched access to opportunities

At Bond, personal attention is at the core of our student experience. This means you will have unrivalled access to the array of services, initiatives and experiences on offer. Unlike larger universities, where these opportunities are only available to a select few, every student at Bond can take advantage of an array of opportunities that will set them up for success after graduation.

Personalised career guidance

As a Bond student, you will have lifelong access to a variety of career development services through our Career Development Centre. Our team of dedicated career professionals can help you with everything from preparing your resumé and helping you hone your interview skills, to providing you with networking opportunities and putting you in contact with industry professionals.

Industry placements

The Career Development Centre can also assist with brokering work placements within your chosen industry. Through an industry placement, you will gain valuable experience with leading Australian and international employers, and contacts you will take into your professional life. We'll help you source relevant opportunities, guiding you throughout the application process, your placement and beyond.

Life at Bond

As Australia's leading university for student experience, life at Bond is diverse and vibrant. The experiences you have and the friends you make will stay with you for a lifetime.

Beyond the classroom, there are many ways to get involved in the Bond community.

Get to know your classmates at Orientation

Your first days at Bond will be spent at Orientation, which consists of an exciting program of academic and social activities where you will meet other students and get to know Bond's campus.

Join a range of clubs and societies

Bond offers a wide collection of clubs and societies that are organised and run by students, for students. Our clubs and societies are based around a number of interest areas, from cultural clubs and societies, to sporting teams, academic groups and more.

Attend on-campus events

There's always something happening on campus! Whatever your interests, you can participate in a program of events held regularly on campus and facilitated by student clubs and societies like the Bond University Student Association (BUSA).

Be part of our strong sporting tradition

At Bond, sport is in our DNA. We have a strong sporting tradition on campus, with students competing at the highest elite levels - as well as in more casual sporting competitions. Bond is also proud to have partnerships with international sporting organisations like the World Surf League and the Chiefs Esports Club. Even if you aren't a competing athlete, you will have free access to our state-of-the-art Sports Centre and surrounding facilities as a current Bond student.

Discover diverse dining and entertainment

There are a collection of cafés and restaurants on campus that cater to a range of dietary requirements, including the provision of Halal meat, and vegetarian options. Our main on-campus restaurant, Lakeside, features rotating menus inspired by international cuisines.

Get personalised support

Studying in a new country is a big transition, and we're here to help you every step of the way. As an international student, you will have the full support of the University behind you. Whether you need assistance enrolling in your subjects, help with your study skills or assignments through the Academic Skills Centre, or a hand with personal or advocacy support, we have a range of services entirely dedicated to assisting you.

An inclusive community

Australia, the Gold Coast and Bond University all provide multicultural, inclusive and welcoming environments. As a Bond student, you will join an open student community where you will be encouraged to meet and network with both likeminded and diverse students. You will also be supported through a number of religious clubs and societies and have access to a multifaith prayer room on campus.

Living on the Gold Coast

The Gold Coast is one of the best places in the world to live and study - and Bond is located right at its centre. It's a diverse and vibrant community filled with opportunity, and endless cultural, sport and leisure activities to enjoy. With public transport linking you to the very best the Gold Coast has to offer, you can finish class and be on the beach within minutes.

Discover an unmatched lifestyle

The Gold Coast is recognised as Australia's favourite classroom for a reason. Not only will you discover the best of the nation's culture, education, and lifestyle, but the cost of living on the Gold Coast is more affordable than other, larger cities in Australia. Please note the Australian Government's Department of Home Affairs requires international students to have access to a minimum of AUD \$21,041 per year to fund their living expenses.

Accommodation

Bond is located in a residential neighbourhood with a wide range of on-campus and off-campus accommodation options within easy walking distance of all University study and recreational facilities. We also offer dedicated accommodation support staff who are able to connect you with local accommodation options and assist you with finding a place to live. Explore the full range of accommodation options and find the one that suits you best:

- On-campus housing
- Homestay
- Share accommodation
- Off-campus housing
- Couples and family accommodation

Pathways to Bond University

If you don't meet the minimum entry requirements for your chosen degree, Bond offers a range of pathways through Bond University College to help you achieve the necessary academic results.

Our pathway programs are delivered on campus by Bond University College, and consist of academic and English preparation programs designed to get you ready for your chosen degree. Integrated with the rest of the University, Bond University College programs offer students additional support in small class environments. Bond University College students have full access to the same on-campus resources and facilities as other students, and are welcomed as valuable members of our community from day one.

Successful completion of a Bond University College program will permit entry into a related Bond University undergraduate degree with varying credit awarded*. For most study areas, the time to completion from a diploma to a bachelor's program is the same, due to the foundational knowledge you build during your diploma. Once your diploma is complete, you will enter your bachelor's program in Semester 3, which ensures you can still graduate ahead of your peers at standard universities.

Through Bond University College, we also offer the Foundation Program to help non-native speakers meet our English language requirements, and the Diploma Preparation Program to enhance your academic skills ahead of undertaking a diploma.

For more information on admissions pathways, please refer to bond.edu.au/pathways.

* Not applicable to all bachelor level programs.

Admission pathways

Higher education diplomas

Duration: 8 months (2 semesters)
Starting: January, May, September

Our diploma-level studies provide a pathway for students who do not meet the academic or English language requirements for direct entry into their chosen bachelor's degree, or who would prefer to start their university journey in a more supportive environment. Successful completion of your diploma qualifies you for entry into a Bond bachelor's degree with varying credit.

Diploma Preparation Program

CRICOS course code 0101445
Duration: 4 months (1 semester)
Starting: January, May, September

The Diploma Preparation Program has been specifically designed for students to pathway into Bond University diploma programs. You will develop the core skills necessary for academic success, delivered by experienced and supportive teachers in small, personalised classes. The three subjects covered in this one-semester program are:

- Academic Communication Skills
- Applied Academic Communication Skills
- Digital Literacy

Foundation Program

CRICOS course code 063151G
Duration: 8 months (2 semesters)
Starting: January, May, September

The Bond University College Foundation Program provides a pathway for international students to pursue undergraduate studies. Students learn core academic and English language skills, as well as the independent learning skills required for entry into an undergraduate program at Bond University.

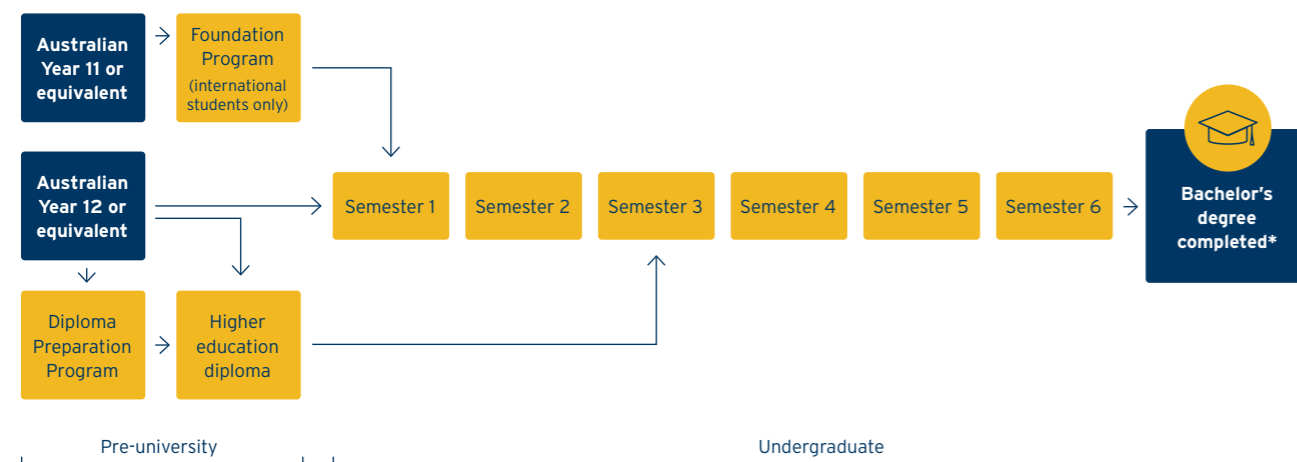

English

CRICOS course code 103878M
Duration: Up to 7 study periods

The English program is designed to improve your English language skills to enter university. Offered in 10-week blocks, the subjects are designed to increase English language proficiency and develop academic skills, digital literacies and intercultural competence in preparation for university study.

A 4 week subject is available for students seeking to improve their English skills in one sub-skill only; for example, speaking. The program provides a personalised teaching approach in a supportive environment with dedicated student support. English students can access the same support services, leisure, library and IT services available to all Bond University students.

Pathways to Bond University

* The average Bond University undergraduate program can be completed in two years, but this may be longer for some areas of study.

Eimi Waki

JAPAN, BACHELOR OF SPORT MANAGEMENT.

"Bond's small classes have allowed me to interact closely with my classmates and lecturers, and the accelerated program structure mirrors a fast-paced work environment, which has improved my organisational and time management skills. One of my highlights at Bond has been applying what I have learnt in lectures to real life scenarios.

As I live on campus, I have had so many opportunities to meet new people and develop lifelong friendships. Easy access to on-campus facilities is also a plus!"

Double degree programs

If one qualification isn't enough, a double degree provides an excellent way to build on your studies and develop either broad or specialist knowledge. You'll be able to complete two complementary degrees in the time it takes to finish just one at other universities. A double degree is simply two degrees that are pre-approved to be undertaken concurrently, such as the Bachelor of Arts / Bachelor of Laws. At the undergraduate level, the majority of our combined programs pair law or business with another discipline, and are completed in anywhere between 2 years, 8 months and 3 years, 8 months. We also offer double degrees at the postgraduate level, with combined qualifications with the MBA or Master of Project Management and an array of complementary postgraduate programs.

Explore double degrees at bond.edu.au/program.

Combined undergraduate and postgraduate programs

Providing a seamless pathway from your undergraduate studies into a career-ready master's degree in occupational therapy, physiotherapy, nutrition and dietetic practice or medicine, Bond University offers undergraduate programs that upon completion, transition directly into postgraduate studies. Examples of this include:

- Bachelor of Biomedical Science and Master of Nutrition and Dietetic Practice
- Bachelor of Exercise and Sports Science and Doctor of Physiotherapy
- Bachelor of Exercise and Sports Science and Master of Nutrition and Dietetic Practice
- Bachelor of Health Sciences and Master of Nutrition and Dietetic Practice
- Bachelor of Health Sciences and Master of Occupational Therapy
- Medical Program (made up of the Bachelor of Medical Studies and the Doctor of Medicine) via the Bachelor of Biomedical Sciences pathway

This provides students with the flexibility to either streamline their university studies at Bond, commencing at the undergraduate level and going directly into their postgraduate degree upon completion of a bachelor's program, or to articulate directly into a master's program with an approved undergraduate degree from another international or Australian institution.

Learn more at bond.edu.au/program.

Professor Steve Stern PhD, MSci, BSc

PROFESSOR OF DATA SCIENCE.
CUSTODIAN OF THE DUCKWORTH-LEWIS-STERN
(DLS) SYSTEM.

"I don't teach facts, I teach ideas. I'm not interested in my students regurgitating facts and theories about stats; I want them to understand the real reasons behind data analysis methods and understand how and when analytic techniques should, and more importantly shouldn't, be used.

Data analysis is the skill of the future. If you know how to understand and analyse data, there is no industry or career in the world you can't be involved in somehow."

Rowena Yan Low

HONG KONG, MASTER OF OCCUPATIONAL THERAPY.

"My study experience at Bond has been great so far. The lecturers are really helpful and approachable - I know I can always stop and chat with them, and feel really comfortable doing so. They are also very willing to spend time meeting us face to face to discuss assignments, rather than just communicating via email.

This makes the study environment at Bond far more relaxed than a traditional university, which in turn, makes me more motivated to attend my classes! The facilities at Bond are also another standout part of attending university here - from the gym and the pool, to our learning facilities, even through to the free on-campus parking."

Fernanda Parnenzini

ARGENTINA, MASTER OF ARCHITECTURE.

"Bond University is a really exciting place to learn about architecture. The working and learning spaces are inspiring, and the creative atmosphere makes you push yourself to do better. I really like the small class sizes and opportunity for one-on-one feedback from world-renowned architects. Bond's global approach also really stands out to me - for instance, I had the opportunity to work on a project in Singapore and meet with students and architects from Singapore."

Professor Alan Patching

PROJECT DIRECTOR OF SYDNEY OLYMPIC STADIUM. DIRECTOR OF INDUSTRY ENGAGEMENT.

"It's hard to imagine a better time to pursue a career in the construction, property and planning fields. The market is currently very strong, and with the Brisbane Olympics just ten years away, I strongly suspect these sectors will continue with vigour, and that will translate to ongoing opportunity for employment and rewarding careers."

Bond's programs are delivered by experienced academics, many with substantial practical experience, which means students can be assured of cutting-edge information based on the very latest research and industry findings."

Professional master's programs

Our professional master's programs have been designed specifically for international students, to provide you with the knowledge, skills and experience necessary to excel in the Australian business landscape. Completed over 92 weeks with a 20-week work-integrated learning component in the final semester, professional master's degrees at Bond combine accelerated study with a strong focus on industry readiness.

Professional programs are available across a broad array of postgraduate study areas, including accounting, architecture, business, business data analytics, city planning, communication, construction practice, criminology, finance, international hotel and tourism management, project management, sport management, sustainable environments and planning, and valuation and property development.

English language requirements

In addition to academic entry requirements, all Bond degrees have specific English language requirements, which can be met in a variety of ways. These include approved English language tests, the successful completion of education in English, or the completion of a Bond University College English Language program. Explore more at bond.edu.au/english-language-requirements.

International English Language Testing System (IELTS) Academic	Test of English as a Foreign Language internet-Based Test (TOEFL iBT)	Pearson Test of English (PTE) Academic
IELTS 7.0 (no subscore less than 7.0)	TOEFL iBT 94 (no scores below 27 in Writing, 23 in Speaking, and 24 in Reading and Listening)	PTE 65 (no Communicative Scores below 65)
IELTS 7.0 (no subscore less than 6.5)	TOEFL iBT 94 (no scores below 24 in Writing, and 20 in Speaking, Reading and Listening)	PTE 65 (no Communicative Scores below 58)
IELTS 6.5 (no subscore less than 6.0)	TOEFL iBT 79 (no scores below 21 in Writing, 18 in Speaking, and 16 in Reading and Listening)	PTE 58 (no Communicative Scores below 50)
IELTS 6.0 (no subscore less than 5.5)	TOEFL iBT 60 (no scores below 19 in Writing, 16 in Speaking, and 10 in Reading and Listening)	PTE 50 (no Communicative Scores below 42)
IELTS 5.5 (no subscore less than 5.0)	TOEFL iBT 50 (no scores below 16 in Writing, 14 in Speaking, 7 in Reading and 6 in Listening)	PTE 42 (no Communicative Scores below 36)
IELTS 5.0 (no subscore less than 4.5)	TOEFL iBT 40 (no score below 14 in Writing)	PTE 36 (no score below 36 for Writing and 32 for Speaking, Reading and Listening)

Scholarships

Bond offers a number of part-fee scholarships and bursaries to high achieving international students for undergraduate, postgraduate and research degrees. Applicants will need to demonstrate outstanding academic ability, strong leadership skills, and community engagement. We award scholarships three times per year, around two months before the semester starts. To apply for a scholarship, you will first need to apply for your chosen program.

International Undergraduate Excellence Scholarship

Eligibility: Awarded to high academic achievers who are applying to study at an undergraduate level. Scholarships are awarded on the basis of academic excellence.

Value: 50 per cent tuition remission

International Stand Out Scholarship

Eligibility: Awarded to standout students who are applying to study at an undergraduate or postgraduate level. Scholarships are awarded on the basis of academic merit.

Value: 25 per cent tuition remission

International Leadership Scholarship

Eligibility: Awarded to undergraduate and postgraduate students with outstanding leadership experience and community involvement. Scholarships are awarded on the basis of academic merit and evidence of excellent leadership and community achievements.

Value: Recipients of the International Leadership Scholarship receive an AUD \$10,000 tuition remission, paid in two equal AUD \$5,000 instalments in the recipient's first two semesters of study.

Explore all scholarships:

bond.edu.au/scholarships

* The International Stand Out Scholarship and International Leadership Scholarship are only available to students from certain countries. For more information, visit bond.edu.au/scholarships.

How to apply

1

Select your program

Choose the program that best fits your interests and future goals. Explore our full range of programs at bond.edu.au/search-program.

2

Complete your application

Applications for most Bond programs can be lodged at any time, direct to Bond through our online application portal. There is no application fee. Be sure to submit all required documents, which may include academic transcripts, your passport and your English language proficiency test results.

3

Submit your application

You can submit your application directly or via an agent. You or your agent will receive an email from Bond to confirm your application was successfully submitted.

4

Consider applying for scholarships

Once your program application is complete, you can apply for any scholarships you may be eligible for through our online application portal.

5

Receive your Letter of Offer

The application review process will normally take around two weeks, providing all supporting documentation has been submitted. If your application is successful, you or your agent will receive an email from us containing your official offer.

6

Accept your offer

To accept your offer, log into our online application system and accept, and then pay the required fees as listed on your offer. If you applied via an agent, please contact them to find out how to accept your offer and pay.

7

Get ready to start

As the semester approaches, we'll be in touch with details for your Orientation - your official welcome to Bond University. The Orientation experience features an exciting program of social activities where you can relax and meet people, and get ready for university life.

Jorund Smidt Opheim

NORWAY, BACHELOR OF FILM AND TELEVISION.

"I chose Bond because I wanted to see and experience a completely different part of the world than Norway, where I'm from. It was especially important that I found a school that had both a great social and educational environment. Bond stood out to me as a university that would give me the perfect balance, and since arriving on campus, that has been proven to me time and time again.

It was also inspiring to learn that one of Norway's biggest filmmakers, Tommy Wirkola, went to Bond. To see that someone from the same tiny corner of the world as me has taken a similar path and succeeded was extremely inspiring, and solidified Bond as the best choice for me."
