SELECTION CRITERIA
Faculty of Business
Assistant Professor of Statistics and/or Actuarial Science (Position Reference: #BUS1574)

We are seeking to appoint one or two Assistant Professors in Statistics, ideally with familiarity with Actuarial Science. Assistant Professor is equivalent to Level B or Level C.

Applicants are required to demonstrate:
- A PhD in Statistics or Actuarial Science.
- A strong track record of excellence in teaching at the both undergraduate and postgraduate levels in statistics or actuarial science. Ability to teach in both statistics and actuarial science is highly valued.
- Strong research training and skills.
- A demonstrated record of successful research and publication in statistics or actuarial science.
- Willingness and ability to contribute to research and outreach via the Centre for Actuarial and Financial Big Data Analytics.
- A willingness to engage in departmental, faculty, and university service as well as curriculum development.
- High quality interpersonal and communication skills, and demonstrated commitment to teamwork and collegiality.
- A willingness to engage with the broader community, such as industry, professional associations, and/or schools.

The following attributes are highly regarded:
- Associate membership of the Actuaries Institute or demonstrated commitment to attaining this qualification.
- Knowledge of blended learning.
- Links/involvement/experience with industry.
