Research Information in Pure

Core data
- Persons
  - Bond staff
- Organisations
  - Bond Faculties / Centres of Research
- External Persons
  - any persons affiliated with external organisations
- External Organisations
  - universities, government departments, funders, private-sector collaborators, etc.
- Projects
  - snapshot of research effort in one place. Links to grants, research outputs, impacts and other activities.

Data types
- Publication data
- Research Output / Publications
  - journal articles, books and book chapters, conference contributions, non-traditional outputs, etc.
- Journals
  - information on journal, open access status, author rights and field of research codes.
- Publishers
  - information including name, country and metrics.
- Researcher activity data
- Activities
  - eg. presentations, engagements, editorial work visiting external institutions, hosting visitors, etc.
- Events
  - record attendances and related research outputs for conferences, workshops, symposiums, etc.
- Impacts
  - describe impact of research on society using qualitative/quantitative narrative and evidence.
- Press / Media
  - press clippings from a media monitoring service based on research outputs. Contains links if available.
- Prizes
  - honorary awards and other distinctions
- Grant data
- Applications
  - submitted by Researchers, signed off by Faculty and checked by Central Admin before being submitted to the Funder. Includes copies of all docs submitted.
- Ethical Reviews
  - stores information about applications and approvals.
- Awards
  - post-award grant management. Includes contracts, milestones, and financial information.
- Milestones
  - act as a to-do list for key academic or administrative milestones, and financial information.
- Budgets
  - continuously updated and include latest available data on actual expenditures from FinanceOne.

Access and support
- Pure: pure.bond.edu.au/admin
- If you need help please contact Research Services: research_systems@bond.edu.au
- Phone: 07 559 51320

Searching
- Global search
  - The search field located in the top right corner allows you to search all content you can access. Icons show the type of content. Click View all at the bottom to expand the list.

Content-specific search and “My content” filter
- To search only one type of content, select the category from the left menu, and use the search field.
- An automatic “My content” filter limits the display to only show content you’re associated with or content you can edit. Change this to see a broader set of results.

Filtering
- In a list, filters can be set to narrow down to certain characteristics, eg. a specific type of output or time period.
- Filter configurations can be saved and reused as needed.

Sorting and list views
- Content lists can be sorted according to different criteria depending on the type of content.
- These are displayed in descending or ascending order. The black arrows in the indicate direction of sort. To reverse the order select the same option again.

Quick Reference Chart

Core navigation
- Left menu
  - Navigate between different types of content in Pure. Click ☰ to hide/show the menu
- Top menu
  - Groups content into sections: • Research Outputs • Activities • Events • Impacts • Press/Media • Awards

Pure uses pop-up windows!
- When you click a record in Pure, it opens in a new pop-up window. In some browsers you can change this so it opens in a new tab.
- Your browser may subtly alert you if it blocks a pop-up. Click this icon/message and change the setting to Always allow Pop-ups from Pure.

Built-in help
- Pure has plenty of built-in help and support. Click the 📭 symbol when entering records for in-line help.
- Hover over "Help and support" to display quick links.

Common Questions and Quick reference guides (QRGs)
- 1-2 page summaries of the most common Pure tasks and common questions specific to Bond. Find these support docs at: bond.edu.au/pure
