

Medical Student Supervisor Information

Bond University and Osler Clinical Placements Assessment Software

The Bond University Medical Students clinical assessment will now be taking place electronically with the *Osler Clinical Placements Assessment Software*.

The medical students will request you as their Assessor to complete their clinical assessment online.

Supervisors/Assessors will be set up in two different formats: Guest Assessor and Faculty User Assessor.

Please watch the Medical Student Supervisor instructional video – [click here](#)

As a Guest Assessor: The student will ask the supervisor for their full name and email address, an email will then be sent to register your details and accept the terms and conditions. This is a onetime only setup. The Guest Assessor will then be able to complete the assessment via the link sent in the email from Osler. There is no need to log into any program.

As a Faculty User Assessor: You will be able to view all the assessments on the Bond University Osler website and not have to rely on email links to view assessment.

It is recommended for supervisors assessing a number of students to be set up as a Faculty User Assessor for ease of reviewing numerous assessments. If you would like to be set up as a Faculty User, please contact osler@bond.edu.au and further instructions will be provided.

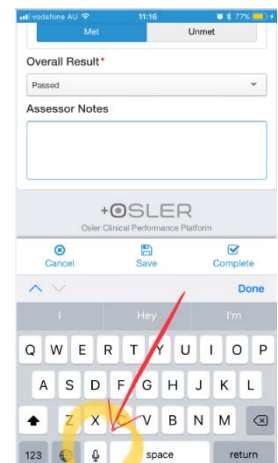

Setting up the App on your phone/tablet for Faculty User Assessors

Download the “Osler Clinical Performance” App via the App Store on Apple/iOS or via Google Play for Android. For instructions [click here](#)

For Bond University staff with bond.edu.au email addresses, please review the Single Sign-on process at the top of the [standard instructions](#) to access your assessment via the Bond University’s ‘Single Sign On’ Page on the App. You will only be required to log in once.

Completing assessment on the App allows you to voice record any comments you wish to make on the assessment – please refer to the screenshot example.

For Osler software related questions please contact osler@bond.edu.au or Odette Smith on 0420 928 125, and for assessment related questions please contact MED-Placements@bond.edu.au.

Please note: Internet Explorer (IE) does not support the Osler Technology website, please use other platforms such as Google Chrome, FireFox/Mozilla, etc.
