As the **Capital of Europe**, Brussels is the ideal place for students of varying interests and major areas of study to enrich their academic experience.

Brussels is an important international location as it is home to the European institutions, NATO, and numerous international organisations and multinational companies. Located in the heart of Europe, the College offers a truly unique educational experience with excellent learning and networking opportunities which enable students to gain knowledge, skills, and experience, preparing them to play an active and leading role in the globalised world. The city is bilingual, with French and Dutch (Flemish) as official languages and cosmopolitan, as many different cultures live together and where different languages can be heard on each street. This liveliness and international flair is, of course, intimately related to its role as the crossroads of Europe.
