As a general rule, word limits are exclusive of footnotes, and footnotes should contain only references.

3.2. The student will meet regularly with a Faculty academic during the semester to finalise a topic, determine methodology and discuss progress. The Faculty academic will act as supervisor as well as examiner.

3.3. A student enrolled in a BBS Bachelor program may substitute up to two elective subjects with two Individual Study subjects, provided that approval is granted by the Associate Dean Learning and Teaching, or delegate, based upon the following criteria:

   a) An approved Faculty academic must be prepared to supervise the student on an agreed topic within their area of expertise and the topic should be a discrete area of inquiry not covered in previous studies by that student.

   b) The student will normally be required to have a 65% (or above) average in BBS subjects and to have completed a minimum of 50% of subjects mandatory to their program.

   c) There is no subject offered or intended to be offered within the term of the expected length of the student's program that would adequately satisfy the topic area of the individual study.
