OTHER PRESENTATIONS

BOND BUSINESS SCHOOL BIG DATA SHOWCASE
Business Links: Big Data - Possibilities, Processes and Pitfalls
Professor Steven Stern took us on a tour of modern ‘Big Data’ ideas and issues. He will discuss his research on sampling theory and design, as well as showcase applications of his work in sports science and medicine.

BUSINESS LINKS: THE CHANGING NATURE OF VOLATILITY AND THE MARKET FEAR INDEX (VIX)
Dr Michael O’Neill presented an overview of the latest research using big data to help answer the question of whether VIX reflects market fundamentals and whether VIX products in fact predict the direction of the VIX.
