

Our VISION

Using evidence to make a meaningful difference to the future health and performance of individuals, communities and health economies

Our VALUES

- Integrity
- Innovation
- Translation
- Collaboration

Research Strategic Plan 2019-2022

PROGRAMS

01 Focus on excellence in evidence-based, consumer-driven prevention, treatment and recovery research focusing on innovative and sustainable health care

02 Build on our existing and emerging areas of research excellence

PRACTICE

03 Translate our research findings to deliver meaningful whole-of-life health and performance benefits for individuals, communities and health economies

04 Foster a strong, collaborative and supportive culture of research excellence

PEOPLE

05 Attract, recognise, reward and retain our research staff and students

06 Empower, support and enable our researchers to build capacity and collaboration through innovation

PROFILE/
PARTNERSHIPS

07 Develop strong, mutually beneficial, multi- and/or interdisciplinary partnerships and collaborations

08 Actively engage with the community to understand health and intervention needs and relevant outcomes
