GENERAL INFORMATION

Bond's Master of Occupational Therapy program has full accreditation with the Occupational Therapy Board of Australia. Our graduates are eligible to apply for registration with the Occupational Therapy Board of Australia and will be graduating from a program that is recognised by the World Federation of Occupational Therapists.

PROGRAM INFORMATION

Bond University's Master of Occupational Therapy program is designed to produce highly competitive graduates with comprehensive clinical skills as well as possessing a solid business acumen and research experience. It is the first Occupational Therapy Masters in Australia to offer you the opportunity to complete a clinical research project or undertake business electives in preparation for a career in private practice. You will engage in research training before specialising in one of two elective pathways: Clinically-focused Research Pathway – the clinically focused research pathway culminates in an individual research project that may be eligible for publication. This pathway prepares you for entry into higher research degrees and careers in research and academia, as well as bolstering research networks; or Business-focused Research Pathway – enables you to undertake business electives that will enable you to undertake management roles, and better prepare you to work in the growing private sector. The pathway culminates in an industry research project where you will apply both research and business skills. You will be taught by academics and industry staff who are current practicing clinicians with up to date industry knowledge.

Master of Occupational Therapy

Version **2** Masters Extended

Total Subjects **240** Cricos Code **090670E**

Structure

Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students' lack of prior knowledge.

Available	Code	Title	Assumed Knowledge	Requisite
You must complete the following required subjects:				
M/S	OCTY71-100	Foundations of Occupational Therapy		
M/S	OCTY71-103	Enabling Environments: A Systems Approach
