GENERAL INFORMATION					
<p>You are registered into Beyond Bond which is a practical, activity-based program that extends across the duration of all undergraduate degrees.</p> <p>Students may choose to take either a six subject major (60cps) from the pre-defined major OR a four subject minor (40cps) from the pre-defined minors plus two general electives or HSM identified subjects OR six (6) general university elective subjects OR take four (4) identified (HSM) subjects plus two (2) general university electives</p>					
PROGRAM INFORMATION					
<p>The Bond University Bachelor of Exercise and Sports Performance equips you with comprehensive knowledge and applied skills in health, fitness and sport performance. You will gain a comprehensive understanding of the basic and applied sciences as they apply to personal and community health and fitness, and sport performance at all levels. Focusing on real-world learning, this program is delivered by award-winning teaching staff through significant practical experience and authentic assessment to maximise employment outcomes for graduates. This program allows you the flexibility to tailor your studies to your interests and career aspirations by choosing from a range of subdisciplines, including biomechanics; exercise testing, prescription and delivery; or physiology and biochemistry of exercise, as well as electives in entrepreneurship and innovation, sport management, and tourism and events management.</p> <p>This program is primarily delivered at the Bond Institute of Health and Sport where you will gain high-quality and practical learning experiences through our National Strength and Conditioning Association-accredited High-Performance Training Centre. These facilities provide sports science testing, training and recovery services to state, national and international athletes and teams. You will also gain industry accreditations in Strength and Conditioning as well as Sport First Aid. The program prepares graduates for exciting career opportunities in exercise and sports performance including strength and conditioning as well as providing an accelerated undergraduate pathway to graduate-entry studies including physiotherapy, occupational therapy, nutrition and dietetic practice, and high-performance sports science.</p>

Structure				

Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students' lack of prior knowledge.
