**GENERAL INFORMATION**  
Data analytics has become one of the highest growth areas of academic and commercial practice. With applications in nearly all aspects of quantitative endeavours and information management, a skillset in analytics, statistical and machine learning is highly valued and sought after. As such, there is a high demand for pathways for developing data analytics skills, both as a primary and a professional transition education pathway.

<b>BN-13131</b>		<b>Graduate Certificate in Data Analytics</b>			
Version	1				
Total Subjects	4	Total Credit Points	40	Cricos Code	0100103
Structure	2 Alternate Analytic optionsnate		2 Alternate Financial optionsnate		

**Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students' lack of prior knowledge.**

Available	Code	Title	Assumed Knowledge	Requisite
<b>You must complete the following required subjects:</b>				
	Alt. Analytics	Choose two subjects from the Analytic options.		
J/S	DTSC71-300	Infrastructure for Data Analytics and Big Data	STAT71-112 & DTSC71-200
