International
Study Guide

CANADA

Welcome to Bond University on Australia's Gold Coast

With more than 300 days of sunshine per year, a growing population and limitless opportunities, the Gold Coast has become known as Australia's favourite classroom. Located in the city's geographical centre, Bond University has earned a reputation as Australia's leading university for student experience, and as a home away from home for international students.

As Australia's first private, not-for-profit university, Bond has been modelled on the traditions of the world's best educational institutions to provide a tertiary experience of the highest international standards. Student experience is at the heart of

everything we do - 100 per cent of our tuition fees are reinvested into ensuring our students have access to world-class facilities and study resources, and can learn under the guidance of industry leading academics.

Bond University is recognised as a self-accrediting Australian university by the Tertiary Education Quality and Standards Agency (TEQSA), and our programs for international students are recognised with the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS).

We're #1

#1 in Australia for student experience 16 years in a row*
#1 for employer satisfaction in Australia in 2017, 2019 and 2020**
#1 in Australia for learner engagement*

5 stars in every category†*

* 2022 Good Universities Guide. The Good Universities Guide is a trusted independent consumer guide providing ratings, rankings and comment about all Australian higher education institutions.

** 2020 Quality Indicators for Learning and Teaching (QILT) Employer Satisfaction Survey. QILT is an independent survey by the Australian Government's Department of Education, Skills and Employment.

† 2020-2022 QS Star ratings. QS Stars is a global rating system that provides a detailed overview of a university's excellence, rating educational institutions all over the world. It is internationally recognised as one of a few truly global rating systems.

Your experience

An investment in your education is an investment in yourself. At the end of your Bond journey, you'll be out in the workforce up to a year earlier than your peers at other universities, with the skills, perspective, and transformative experiences to help you stand out in your career.

Personalised support.

We provide individualised career development services, personal attention, study support, skills development, and coaching.

The global advantage.

As a world-class Australian university, Bond's international partnerships and alumni network span the globe, with graduates working across all industries.

The fast track.

Propel your career forward faster than your peers at other universities with one of our accelerated undergraduate degrees or our work experience-focused professional master's programs.

A deliberately different way of learning.

Prepare to take on future challenges at one of Australia's most innovative universities. Progressive and adaptable, we understand that everyone's learning journey is unique.

A focus on wellbeing.

At Bond, we're committed to fostering your wellbeing, and provide dedicated services to ensure you have all the support you need.

Critical skills for a changing world.

Embedded in all of our undergraduate programs, the Core curriculum will ensure you're well-equipped to become a capable individual, effective collaborator, and global citizen.

Your industry engagement and employability.

You'll have multiple opportunities to strengthen your employability ahead of entering the workforce. Take advantage of the Career Development Centre's program and career experts, the Transformer start-up program, and internship opportunities.

Immersive experiences.

Take textbooks into the real world with access to an abundance of enriched experiences, including industry placements, international competitions, networking and more.

The support of a close community.

The friendships and connections you make at Bond will form your lifelong personal and professional networks.

Your professional and personal growth.

Undergraduate students will engage with Beyond Bond, our degree-wide professional development program, which is designed to enhance your graduate employability and create a professional portfolio of evidence.

An investment in your future.

The value of a Bond degree is immeasurable. Emerge from university with the skills and knowledge necessary to skyrocket your earning potential. Plus, our accelerated degrees mean you will save on up to a year's worth of living costs.

Vibrant campus life.

Sporting and cultural clubs and societies, as well as student associations, provide opportunities to enrich your student experience and pursue leadership roles.

The Bond University difference

An investment in your education is an investment in your future success. Your time at Bond will enable career-enhancing opportunities, build valuable networks, and allow you to start achieving your career goals faster.

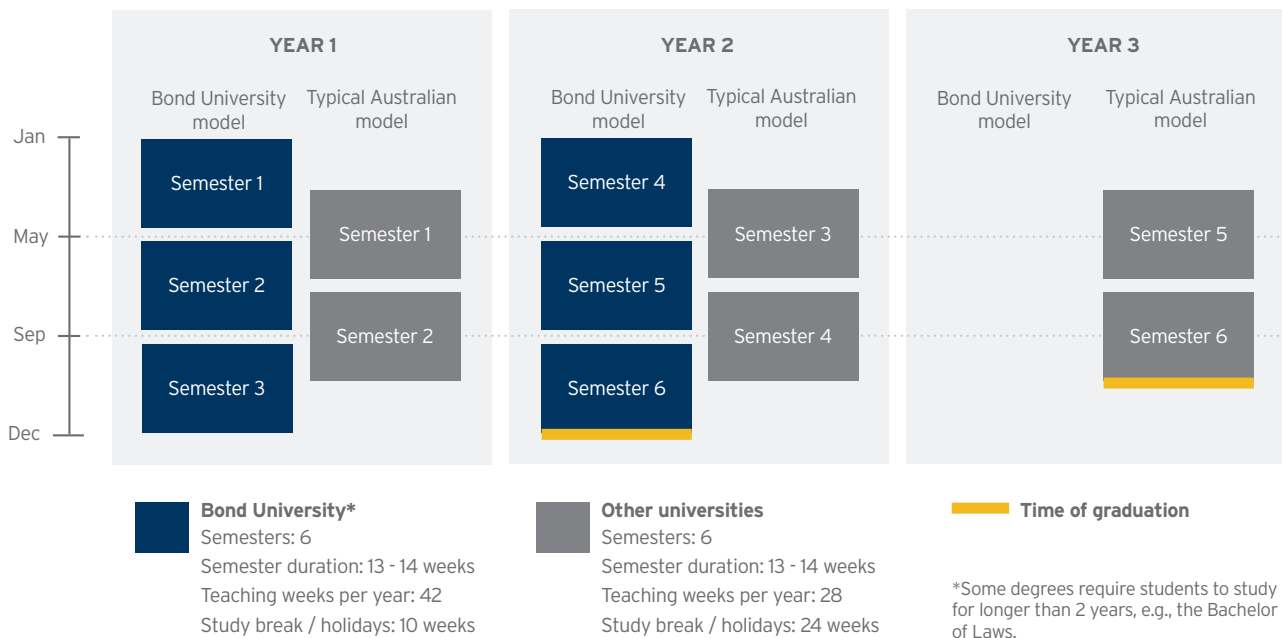

Accelerated degrees

At Bond, you can complete your degree and start your career sooner than at a traditional university. Our teaching calendar includes three semesters per year instead of the usual two, allowing you to enter the workforce quicker than at other universities. With semesters starting in January, May and September, you could complete a combined degree, or an undergraduate and postgraduate degree, in less time than it would take to complete a single degree at another university.

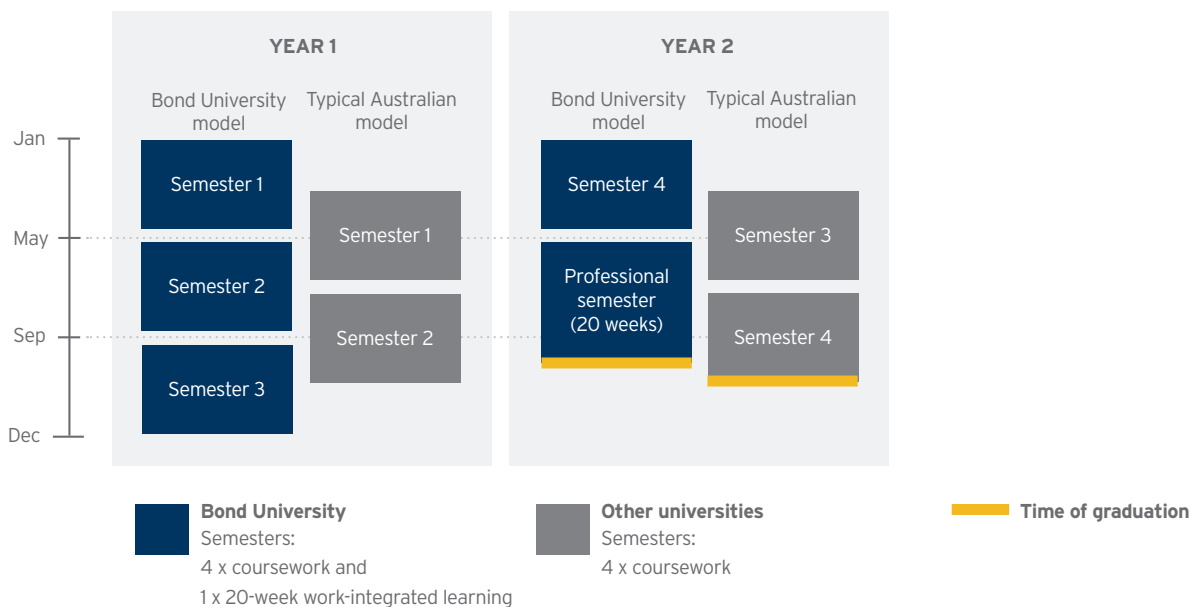

Programs tailored to international students

In addition to our accelerated programs, we also offer a range of two-year 'professional' master's programs. Designed for students who would like to gain work experience in Australia after they graduate, these unique master's degrees incorporate a 20-week professional experience element, and permit international students to apply for an extended three or four-year post-study work visa.

Minimum bachelor degree study time at Bond compared with other universities

Master (Professional) degrees at Bond compared with other universities

Personal attention

Bond's student-to-teacher ratio is one of the lowest in Australia, which means you will enjoy personalised support and attention throughout your studies. You will have unmatched access to your teaching assistants, who will actively mentor your progress, as well as personalised career and academic support to help you succeed in your studies and plan for your career after graduation.

Individual support

A key part of the Bond University difference is the personal support you will receive at every step along the way. At Bond, you will never get lost in the crowd - you will have access to an abundance of opportunities and our extensive support services, including the Academic Skills Centre and Career Development Centre.

Developing key employability skills

Bond graduates stand out both at university and in their future careers. In addition to Bond's extensive career development support, the development of key skills is embedded into every Bond University degree. Our undergraduate degrees include three Core curriculum subjects, plus the Beyond Bond professional development program, which collectively teach invaluable skills you will take with you throughout your professional life.

bond.edu.au/employability

Entrepreneurship and the Transformer program

At Bond, we focus on developing adaptive, tech-savvy and future-focused graduates with a strong entrepreneurial streak. Bond also offers a free co-curricular program called Transformer, which brings students together from all disciplines to collaborate on projects and bring big business ideas to life. Working in teams, Transformer participants have access to industry experts, mentors, workshops and a 24/7 co-working space.

Joshua Derko

JURIS DOCTOR.

"My advice for future Bond students is to take advantage of everything Bond has to offer. There are great programs, great guest lectures, great clubs - we spent two years indoors, so get out there and enjoy Bond's beautiful campus."

Lisa Bonin

ASSISTANT PROFESSOR AND DIRECTOR,
CANADIAN LAW PROGRAM.

“As a former litigator with a leading national law firm in Canada, I really appreciate Bond’s integrated practical skills curriculum. For our Canadian students, the focus on skills continues through into our Canadian courses and really prepares these students for their return to Canada.

“We support our Canadian students in their transition back to Canada, providing information sessions and resources dedicated to the admissions process after graduation, as well as relevant work experience and clinical opportunities. Although we are halfway around the world, our students can still feel connected to the Canadian legal system and profession.”

Dr Wayne Hing

HEAD OF PROGRAM, PHYSIOTHERAPY.

“Students interested in studying physiotherapy at Bond can expect to receive a well-rounded and eclectic educational experience, and to graduate with a range of skills that include business management, research, and clinical practice.

“Physiotherapy at Bond stands out because of its graduate entry pathways, accelerated timetable, and of course, the University’s beautiful location on the Gold Coast!”

Live in a city of innovation and opportunity

The Gold Coast has quickly established itself as a hub for entrepreneurship and innovation, leading the way and growing constantly. More people on the Gold Coast own and run their own businesses than any other city in Australia, with the region attracting some of the world's best and brightest minds.

A diverse industry landscape

The Gold Coast offers a multifaceted and broad business landscape with strong employment opportunities across many sectors. Bond's dedicated Career Development Centre provides access to industry connections that will help you make the most of our growing professional opportunities.

A global community

Bond students hail from more than 90 countries around the world. The city is welcoming and diverse, with almost one in three residents having been born overseas. At Bond, you will join students from all corners of the globe and gain an international perspective on study and work.

Entrepreneurship opportunities

There are numerous opportunities for you to develop your entrepreneurship skills and nurture your ideas, both right here at Bond, and on the Gold Coast. Participate in the University's Transformer program, major in Entrepreneurship and Innovation, and participate in networking opportunities, competitions and initiatives to broaden your entrepreneurial skill set.

Be eligible for a post-study work visa

While it is Australia's sixth largest city, the Gold Coast is classified as a regional city for migration purposes. This means that you may be eligible for an extended, three-year post-study work visa after graduation if you complete a bachelor's degree, or a four-year post-study work visa if you complete a master's by coursework.

Be a standout graduate

What you do at university has never been more important in preparing you to succeed in your career. In an increasingly competitive job market, it's no longer about what you learn in the classroom – enhancing your employability is an essential part of the university experience.

Unmatched access to opportunities

At Bond, personal attention is at the core of our student experience. This means you will have unrivalled access to the array of services, initiatives, and experiences on offer. Unlike larger universities, where these opportunities are only available to a select few, every student at Bond can take advantage of an array of experiences that will set them up for success after graduation.

Our business students learn from entrepreneurs and start-ups in Silicon Valley, while law students argue mooted cases in Hong Kong, Beijing, Canada, or even Queensland's own Supreme Court. Sports science students can work with elite athletes and professional teams from all over the world, and our interns travel to incredible cities like Washington, D.C., Paris, London, and New York.

Personalised career guidance

As a Bond student, you will have lifelong access to a variety of career development services through our Career Development Centre. Our team of dedicated career professionals can help you with a full suite of services, from preparing your resumé and helping you hone your interview skills, to providing you with networking opportunities and putting you in contact with industry professionals.

Industry placements

The Career Development Centre can also assist with brokering work placements within your chosen industry. Through an industry placement, you will gain valuable experience with leading Australian and international employers, and contacts you will take into your professional life. We'll help you source placement opportunities, guiding you through the application process and supporting you during this experience and beyond.

Life at Bond

As Australia's leading university for student experience, life at Bond is diverse and vibrant. The experiences you have and the friends you make will stay with you for a lifetime. Beyond the classroom, there are many ways to get involved in the Bond community.

Get to know your classmates at Orientation

Your first days at Bond will be spent at Orientation, which consists of an exciting program of academic and social activities where you will meet other students and get to know Bond's campus.

Join a range of clubs and societies

Bond offers a wide collection of clubs and societies that are organised and run by students, for students. Many of our Canadian students choose to join clubs such as the Canadian Law Students' Association and the Bond Ball Hockey Club, just to name a few.

Attend on-campus events

There's always something happening on campus! Whatever your interests, you can participate in a programme of events held regularly on campus and facilitated by our student clubs and societies, including the Bond University Student Association (BUSA).

Be part of our strong sporting tradition

At Bond, sport is in our DNA. We have a strong sporting tradition on campus, with students competing at the highest elite levels - as well as in more casual sporting competitions. Bond is also proud to have partnerships with international sporting organisations like the World Surf League and the Chiefs Esports Club. Even if you aren't a competing athlete, you will have free access to our state-of-the-art Sports Centre and sporting facilities as a current Bond student.

Discover diverse dining and entertainment

There are a collection of cafés and restaurants on campus that cater to a range of dietary requirements, including the provision of Halal meat and vegetarian options. Our main on-campus restaurant, Lakeside, features rotating menus inspired by international cuisines.

Get personalised support

Studying in a new country is a big transition, and we're here to help you every step of the way. As an international student, you will have the full support of the University behind you. Whether you need assistance enrolling in your subjects, help with your study skills or assignments through the Academic Skills Centre, or a hand with personal or advocacy support, we have a range of services entirely dedicated to assisting you.

An inclusive community

Australia, the Gold Coast and Bond University all provide multicultural, inclusive and welcoming environments. As a Bond student, you will join an open student community where you will be encouraged to meet and network with both likeminded and diverse students. You will also be supported through a number of cultural and religious clubs and societies, and have access to a multifaith prayer room on campus.

Living on the Gold Coast

The Gold Coast is one of the best places in the world to live and study - and Bond is located right at its centre. It's a diverse and vibrant community filled with opportunity, and endless cultural, sport and leisure activities to enjoy. With public transport linking you to the very best the Gold Coast has to offer, you can finish class and be on the beach within minutes.

Discover an unmatched lifestyle

The Gold Coast is recognised as Australia's favourite classroom for a reason. Not only will you get to experience the nation's culture, education, and lifestyle, but the cost of living on the Gold Coast is more affordable than other, larger cities in Australia. Please note the Australian Government's Department of Home Affairs requires international students to have access to a minimum of AUD \$21,041 per year to fund their living expenses.

Accommodation

Bond is located in a residential neighbourhood with a wide range of on-campus and off-campus accommodation options within easy walking distance of all University study and recreational facilities. We also offer dedicated accommodation support staff who are able to connect you with local accommodation options and assist you in finding a place to live. Explore the full range of accommodation options and find the one that suits you best:

- On-campus housing
- Homestay
- Share accommodation
- Off-campus housing
- Couples and family accommodation

Learn more at bond.edu.au/accommodation.

Getting around the Gold Coast

By train

Trains operate from the Gold Coast to Brisbane, servicing Brisbane Airport and the central Brisbane CBD (downtown). There are two stations close to Bond University, located at Robina and Varsity Lakes.

By bus

Regular bus services operate from in front of the University to the main shopping, residential and tourist areas on the Gold Coast.

Walking from campus

There are shops, a small supermarket, cafes, restaurants, and facilities located just outside our campus at nearby Varsity Lakes.

Getting to Bond University

From Gold Coast Airport

30-minute drive with bus connections or direct airport transfers available.

From Brisbane Airport

One-hour drive with direct airport transfers available. The Airtrain also leaves from Brisbane Airport train stations every 15-30 minutes and stops at all Gold Coast stations.

Pathways to Bond University

If you don't meet the minimum entry requirements for your chosen degree, Bond offers a range of pathways through Bond University College to help you achieve the necessary academic results.

Our pathway programs are delivered on campus by Bond University College, and consist of academic and English preparation programs designed to get you ready for your chosen degree. Integrated with the rest of the University, Bond University College programs offer students additional support in small class environments. Bond University College students have full access to the same on-campus resources and facilities as other students and are welcomed as valuable members of our community from day one.

Successful completion of a Bond University College program will permit entry into a related Bond University undergraduate degree with varying credit awarded*. For most study areas, the time to completion from a diploma to a bachelor's program is the same, due to the foundational knowledge you will have built.

For more information on admissions pathways, please refer to bond.edu.au/pathways.

*Not applicable to all bachelor level programs.

Admission pathways

Higher education diplomas

Duration: 8 months (2 semesters)

Starting: January, May, September

Our diploma-level studies provide a pathway for students who do not meet the academic or English language requirements for direct entry into their chosen bachelor's degree, or who would prefer to start their university journey in a more supportive environment. Successful completion of your diploma qualifies you for entry into a Bond bachelor's degree with varying credit.

Double degree programs

If one qualification isn't enough, a double degree provides an excellent way to build on your studies and develop either broad or specialist knowledge. You'll be able to complete two complementary degrees in the time it takes to finish just one at other universities.

A double degree is simply two degrees that are pre-approved to be undertaken concurrently, such as the Bachelor of Arts / Bachelor of Laws. At the undergraduate level, the majority of our combined programs pair law or business with another discipline, and are completed in anywhere between 2 years, 8 months and 3 years, 8 months. We also offer double degrees at the postgraduate level, with combined qualifications with the MBA or Master of Project Management and an array of complementary postgraduate programs.

Explore double degrees at bond.edu.au/program.

Combined undergraduate and postgraduate programs

Providing a seamless pathway from your undergraduate studies into a career-ready master's degree in occupational therapy, physiotherapy, or nutrition and dietetic practice, Bond University offers undergraduate programs that upon completion, transition directly into postgraduate studies once all offer conditions are met.

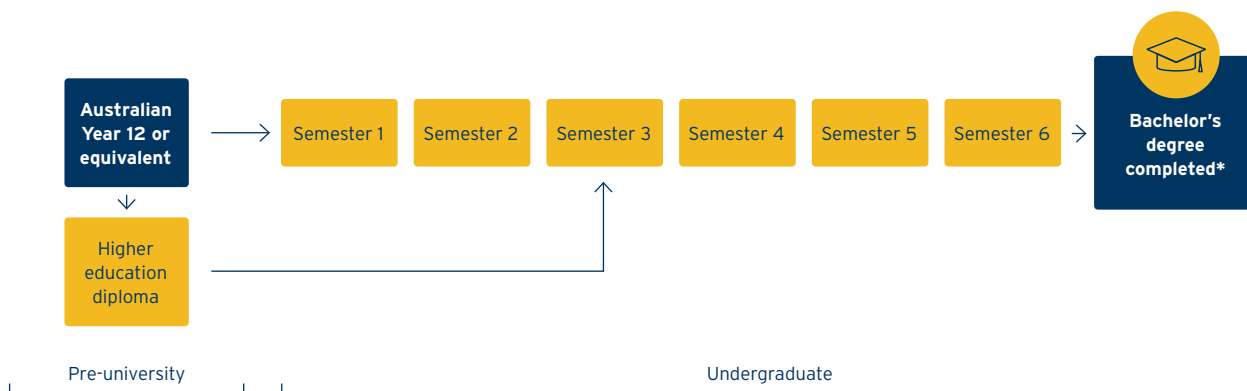

Examples of this include:

- Bachelor of Biomedical Science and Master of Nutrition and Dietetic Practice
- Bachelor of Exercise and Sports Science and Doctor of Physiotherapy
- Bachelor of Exercise and Sports Science and Master of Nutrition and Dietetic Practice
- Bachelor of Health Sciences and Master of Nutrition and Dietetic Practice
- Bachelor of Health Sciences and Master of Occupational Therapy

This provides students with the flexibility to either streamline their university studies at Bond, commencing at the undergraduate level and going directly into their postgraduate degree upon completion of a bachelor's program, or to articulate directly into a master's program with an approved undergraduate degree from another international or Australian institution.

Learn more at bond.edu.au/program.

Pathways to Bond University

* The average Bond University undergraduate program can be completed in two years, but this may be longer for some areas of study.

Jackson Silvester-Lee

BACHELOR OF EXERCISE AND SPORTS SCIENCE.

"Bond University gave me the chance to bring my own ambitions to life. The staff have been there every step of the way for me to achieve my dreams of playing rugby and becoming an innovative strength and conditioning coach.

"I am where I want to be because of my studies at Bond, and I will continue to strive for more because they have shown me that limits are only an illusion that are to be pushed aside to unlock one's true potential. No matter how big your goals are, the staff at Bond will be there to guide you."

Shivam Rishi

BACHELOR OF LAWS.

"When I was researching where to study, I quickly learned that at Bond, I wouldn't be just another number - Bond offers small class sizes where you have access to valuable face time with your professors, all of whom you know by name and can approach for further guidance.

"Coming from Canada, another reason I chose Bond is because of its specialised Canadian law courses. It was important to me to attend a university that would help me get certified if I decided to practice in Canada. Bond has a long history of offering Canadian law courses that assist with accreditation exams back in Canada, and ultimately, these have distinctly prepared me for my future career as an international commercial lawyer."

Transformation degrees

Bond University's four Transformation degrees combine specialist studies in either digital, health, legal or entrepreneurial transformation with critical thinking, an innovative core of transdisciplinary subjects, and industry or community-based learning.

Developed in response to feedback from industry partners, our Transformation degrees cater to the new and emerging jobs of the fourth industrial revolution - jobs that are not supported by traditional approaches.

Through these degrees, students explore sustainable futures and global challenges, and participate in design studios and industry placements, enabling them to take on the challenges of the unknown.

Students work directly with some of country's most exciting organisations and innovative business leaders, who, along with world-class teachers, will help them to transform both themselves and the future of work.

Learn more: bond.edu.au/transformation-degrees.

Featured undergraduate programs

Bachelor of Laws	Duration	Commencing	IELTS or equivalent	Total course fee (AUD)*
CRICOS course code 093922K	8 semesters (2 years 8 months)	Jan, May, Sep	7.0 (6.5)	\$172,800

Program description

- The Bachelor of Laws is designed to equip you for a career in the legal profession, corporate sector, or government sector.
- Bond's unique integrated Legal Skills and Professionalism Program is embedded within the Bachelor of Laws and focuses on core legal skills essential to the practice of law. These include legal writing and drafting, oral communication and advocacy, legal ethics and professionalism, legal research and reasoning, and dispute resolution and collaboration.
- The program combines small class sizes, excellent teaching, and the Legal Skills and Professionalism Program to provide an exciting and challenging learning experience that prepares you practically for a legal career.
- Bond's showcase moot court incorporates technology used in real courtrooms around the world. It is fully equipped with video conferencing facilities, wireless networking, and video streaming.
- Bond offers students opportunities to gain practical experience through law clinic placements, providing a professional advantage when entering legal practice.

Program structure

The Bachelor of Laws comprises 32 subjects:

University Core subjects (3)

Three Bond Core subjects plus one compulsory not-for-credit component.

Compulsory law subjects (17)

- Legal Foundations A
- Legal Foundations B
- Foundations of Private Law
- Foundations of Public and Criminal Law
- Contract Law A
- Tort Law
- Criminal Law
- Property Law A
- Constitutional Law
- Contract Law B
- Property Law B
- Corporate Law
- Equity
- Administrative Law
- Evidence
- Civil Dispute Resolution
- Legal Profession

Law electives (7)

Students must choose undergraduate law electives from the Faculty of Law's offerings. Please visit bond.edu.au/law-degrees for more details.

Students may choose to complete an optional law specialisation in one of the following areas:

- Canadian Law and Practice
- Climate Law
- Contemporary Legal Issues

- Corporate and Commercial Law
- International and Comparative Law
- Legal Practice
- Legal Transformation

To be eligible for a law specialisation, students must complete a minimum of four of their law electives (40 credit points) within one of the above areas. Eligible students will receive a specialisation certificate upon completion of their program.

General electives (5)

Students must also choose five general electives from any Faculty at Bond University.

A range of double degrees are on offer with the Bachelor of Laws, with the most popular being:

- Bachelor of Biomedical Science / Bachelor of Laws (CRICOS 093911B)
- Bachelor of Business / Bachelor of Laws (CRICOS 093909G)
- Bachelor of Commerce / Bachelor of Laws (CRICOS 093908G)
- Bachelor of International Relations / Bachelor of Laws (CRICOS 093916G)

Career outcomes

- The Bachelor of Laws prepares you to pursue careers in both the public and private sectors, in positions such as associate lawyer, assistant crown attorney, in-house counsel, or judicial clerk.
- The Bachelor of Laws is an approved degree for the purposes of admission to legal practice in all Australian jurisdictions, in conjunction with further study (Graduate Diploma in Legal Practice) or a traineeship (articling).
- The Bachelor of Laws may also be used to apply for admission in Canada.
- You are recommended to seek advice from the relevant admitting body in your state or territory in Australia, or province in Canada, to confirm requirements or necessary additional study for admission.

Entry requirements

Successful completion of Australian Year 12 or equivalent (see page 26) with a minimum score of ATAR 85, OP 8, IB 30 or equivalent. Students must also meet the University's minimum entry requirements.

Pathways

The Diploma of Legal Studies provides pathways to the Bachelor of Laws for those who do not meet the entry requirements.

CRICOS course code 080641D	6 semesters (2 years)	Jan	7.0 (7.0)	\$129,600

Program description

Exercise and sports science students at Bond University gain the knowledge needed to thrive in any number of athletic or sporting environments, including skills in health, fitness and athletic performance, anatomy, physiology, biomechanics, exercise physiology, motor learning and control, exercise and sport psychology, and exercise prescription and planning.

Students are exposed to real-world learning experiences through practical opportunities, and network-building with valuable industry contacts through work placements, group research projects, internships, and event volunteering opportunities.

Program structure

The Bachelor of Exercise and Sports Science comprises 23 subjects, including three compulsory Core subjects. Students must follow the below subject structure:

Semester 1

- Critical Thinking and Communication
- Foundations of Exercise and Sports Science
- Principles of Human Structure and Function
- Chemistry for Living Systems

Semester 2

- Collaboration Teams and Leadership
- Functional Anatomy
- Human Organ Systems 1
- Biochemistry of Exercise and Sport

Semester 3

- Biomechanics of Exercise and Sport
- Motor Control and Learning in Exercise and Sport
- Sport, Health and Exercise Psychology
- Physiology and Biochemistry of Exercise and Sport

Semester 4

- Responsibility, Integrity and Civic Discourse
- Health Research Methods
- Exercise Testing, Prescription and Delivery
- Introduction to Professional Practice in Exercise and Sport Science

Semester 5

- Advanced Physiology and Biochemistry of Exercise and Sport
- Advanced Biomechanics of Exercise and Sport
- Advanced Exercise Testing, Prescription and Delivery
- Behaviour Change to Enhance Health

Semester 6

- Sport and Exercise Nutrition
- Professional Practice & Practicum (Capstone Project)
- Exercise and Sport for Lifelong Health

Entry requirements

Successful completion of Australian Year 12 or equivalent (see page 26) with successful completion of English, and the equivalent of Mathematics A and one of: Physical Education, Biology, Chemistry, Physics, Science 21, or equivalent. Students must also meet the University's minimum entry requirements (see page 26).

Pathways

The Diploma of Health Sciences provides a pathway to the Bachelor of Exercise and Sports Science for those who do not meet the entry requirements.

Professional recognition

This program is fully accredited with Exercise & Sports Science Australia (ESSA), and its subjects align with ESSA's Exercise Science Standards. Graduates of Bond's Bachelor of Exercise and Sports Science will be recognised in industry after registering as an Accredited Exercise Scientist (AES).

Career outcomes

The Bachelor of Exercise and Sports Science equips graduates to work across a number of health and fitness contexts, in roles such as:

- Accredited exercise scientist
- Strength and conditioning coach
- Athletic or sport program coordinator
- Health and fitness consultant

Successful completion of this degree also provides graduates with a pathway into Bond's postgraduate physiotherapy, occupational therapy, and nutrition and dietetic practice degrees.

The Bachelor of Exercise and Sports Performance is also available, and serves as a pathway to many of Bond's postgraduate professional health science courses.

More information can be found at bond.edu.au/program.

Professional master's programs

Our professional master's programs have been designed specifically for international students, to provide you with the knowledge, skills and experience necessary to excel in the Australian business landscape. Completed over 92 weeks with a 20-week work-integrated learning component in the final semester, professional master's degrees at Bond combine accelerated study with a strong focus on industry readiness.

Professional programs are available across a broad array of postgraduate study areas, including accounting, actuarial science, architecture, business, business data analytics, city planning, communication, construction practice, criminology, finance, international hotel and tourism, project management, sport management, and valuation and property development.

Learn more at bond.edu.au/program.

Sarah Ashley Marko

MASTER OF NUTRITION AND DIETETIC PRACTICE.

"Bond has prepared me for the future in ways that I didn't expect. I've developed the knowledge and skills required to excel in my field, but beyond this, I've developed leadership skills that stem from the opportunities a small cohort brings. The individualised support I've received from professors has helped me not only to recognise my strengths, but to build on them - making a world of difference to how prepared I feel as I embark on my career."

Featured postgraduate programs

Doctor of Physiotherapy	Duration	Commencing	IELTS or equivalent	Total course fee (AUD)*
CRICOS course code 075478G	6 semesters (2 years)	May	7.0 (7.0)	\$151,680

Program description

Bond's celebrated Doctor of Physiotherapy prepares entry-level physiotherapists for their roles and responsibilities as first-contact practitioners.

The Doctor of Physiotherapy provides students with over 1,200 hours of clinical placement to broaden their knowledge and skill level ahead of entering a fast-paced clinical setting.

The program integrates clinical, pathological, and related sciences with the specialist knowledge, skills and professional behaviours required to examine, diagnose, and treat physiotherapy clients.

Program structure

The Doctor of Physiotherapy comprises 20 subjects:

Foundation subjects (19)

- Foundations of Physiotherapy
- Physiotherapy: Musculoskeletal 1
- Physiotherapy: Cardiorespiratory
- Physiotherapy: Musculoskeletal 2
- Physiotherapy: Neurological and Rehabilitation
- Transition to Professional Practice
- Physiotherapy: Clinical Practice Unit 1
- Physiotherapy: Clinical Practice Unit 2
- Physiotherapy: Clinical Practice Unit 3
- Health Research: Literacy, Planning and Design
- Healthcare: Leadership, Management and Advocacy
- Community Physiotherapy Across the Lifespan
- Physiotherapy: Clinical Practice Unit 4
- Maximising Human Potential and Performance
- Evidence Based Practice Research 1
- Physiotherapy: Clinical Practice Unit 5
- Physiotherapy: Clinical Practice Unit 6
- The Work Ready Physiotherapist
- Evidence Based Practice Research 2

Elective subject (1)

Students must also complete one of the following elective subjects:

- Physiotherapy: Clinical Internship
- Physiotherapy: Innovation and Global Practice

Industry recognition

The Doctor of Physiotherapy program is accredited as an entry-level program by the Australian Physiotherapy Council, and is listed as an approved program of study by the Physiotherapy Board of Australia.

Entry requirements

A degree in exercise and sports science or other related degree (e.g., kinesiology) from a recognised institution with a cumulative GPA 2.0 / 4.0 or 5.0 / 7.0 or better.

Evidence of the following tertiary subject prerequisites:

- Two semesters of human anatomy
- Two semesters of human physiology
- One semester of biomechanics
- One semester of research design / statistics
- One semester of physiology of exercise

Successful performance at a selection interview is also a prerequisite for entry.

Career outcomes

The Doctor of Physiotherapy is designed to produce work-ready graduates who are competent to practice in a range of environments and settings, including:

Specialty fields

- Orthopaedics
- Cardiorespiratory
- Musculoskeletal and sports
- Neurological
- Pediatrics

Rehabilitation

- Neurological and orthogeriatric rehabilitation
- Community rehabilitation
- Occupational rehabilitation
- Musculoskeletal and orthopaedic rehabilitation

Research and academia

To progress to potential career options in research organisations and academia, you will need to pursue further postgraduate study. Upon completion, you will be equipped to work in both public and private sectors across the fascinating fields of research or academic teaching.

Learn more about research degrees at bond.edu.au/program.

*2023 estimated total fees.

Juris Doctor	Duration	Commencing	IELTS or equivalent	Total course fee (AUD)*
CRICOS course code 093923J	6 semesters (2 years)	Jan, May, Sep	6.5 (6.0)	\$131,120

Program description

The Juris Doctor prepares you to become a legal professional in the corporate, private, public, and not-for-profit sectors, both in Australia and overseas.

Bond offers students opportunities to gain practical experience through law clinic placements, providing a professional advantage when entering legal practice.

Bond's unique Legal Skills and Professionalism Program is embedded within the Juris Doctor and focuses on core legal skills essential to the practice of law, such as legal writing and drafting, oral communication and advocacy, legal ethics and professionalism, legal research and reasoning, and dispute resolution and collaboration.

Bond's showcase moot court incorporates technology used in real courtrooms around the world. It is fully equipped with video conferencing facilities, wireless networking, and video streaming.

Our graduates are working in top tier law firms throughout Australia, Canada, the USA, and China.

Program structure

The Juris Doctor comprises 24 subjects:

Compulsory law subjects (17)

- Legal Foundations A
- Legal Foundations B
- Foundations of Private Law
- Foundations of Public and Criminal Law
- Contract Law A
- Tort Law
- Criminal Law
- Property Law A
- Constitutional Law
- Contract Law B
- Property Law B
- Corporate Law
- Equity
- Administrative Law
- Evidence
- Civil Dispute Resolution
- Legal Profession

Law electives (7)

Students must choose postgraduate law electives from the Faculty of Law's offerings. Please visit bond.edu.au/law-degrees for more details. Students may choose to complete an optional law specialisation in one of the following areas:

- Canadian Law and Practice
- Corporate and Commercial Law and Practice
- Dispute Resolution
- International Business and Finance Law
- Legal Innovation and Technology
- Legal Practice

To be eligible for a law specialisation, students must complete a minimum of four of their law electives (40 credit points) within one of the above areas. Eligible students will receive a specialisation certificate at the completion of their program.

Entry requirements

Completion of an Australian or Canadian bachelor's degree or equivalent.

Career outcomes

The Juris Doctor is an approved degree for the purposes of admission as a legal practitioner in all Australian jurisdictions, in conjunction with further study (Graduate Diploma in Legal Practice) or a traineeship (articling).

The Juris Doctor may be used to apply for admission in Canada. It is recommended that you seek advice from the relevant admitting body in your province to confirm requirements and any additional study.

The Juris Doctor prepares graduates for roles in the private and public sectors, such as associate lawyer, assistant crown attorney, in-house counsel, judicial clerk, academic, or business leader.

Featured postgraduate programs

Master of Occupational Therapy	Duration	Commencing	IELTS or equivalent	Total course fee (AUD)*
CRICOS course code 106625H	6 semesters (2 years)	May, Sep	7.0 (7.0)	\$140,640

Program description

The Master of Occupational Therapy is designed to produce highly competitive graduates with comprehensive clinical skills, solid business acumen, and extensive research experience.

Taught in the world-class Bond Institute of Health and Sport, students have access to state-of-the-art occupational facilities, including simulated living spaces and an ergonomic workspace.

Students can choose from two streams with either a business or research focus. Where the research focus equips graduates for careers in research or academia, the business pathway builds the necessary knowledge and attitudes for success in management roles or within the private sector.

The Master of Occupational Therapy culminates in an individual research project that may be eligible for publication.

Program structure

The Master of Occupational Therapy comprises 20 subjects:

Foundation subjects (18)

- Foundations of Occupational Therapy
- Health Conditions and Multidisciplinary Management
- Neuroscience for Health Professionals
- Enabling Environments: A Systems Approach
- Engage: In Occupation
- Enable: Occupational Performance
- Occupational Therapy Roles and Responsibilities
- Evidence Based Practice for Health Professionals
- Occupational Therapy: Work
- Occupational Therapy: Learn, Play, Connect
- Occupational Therapy: Independence and Participation
- The New Global Occupational Therapist
- Promoting the Occupational Health and Well-being of Communities
- The Occupational Therapy Professional: Practice, Standards and Quality
- Health Research Design and Planning
- Professional Practice in Occupational Therapy I
- Professional Practice in Occupational Therapy II
- Managing People OR Educating the Health Workforce

Specialisation subjects (2)

Students in the research stream will complete:

- Health Professional Research Internship A
- Health Professional Research Internship B

Students in the business stream will complete:

- Capstone Research Project

Choice of one subject from the below elective options:

- Health Systems: Australia and International
- Knowledge Translation in Healthcare
- Accounting Principles
- Principles of Economics
- Entrepreneurship and Innovation
- Fundamentals of Finance
- Marketing Fundamentals

Career outcomes

Graduates work in a broad range of contexts and settings, including as an occupational therapist in:

- Public and private hospitals, across neonatal care, paediatrics, post-operative care, and rehabilitation
- Organisations working with physically impaired clients
- Organisations working with people recovering from a mental illness
- Mental health services
- Community health centres
- Rehabilitation facilities
- Community or facility-based aged care
- Workplace health and safety organisations or roles (including injury prevention, rehabilitation and return to work)
- Primary, secondary and tertiary education
- Research

The Master of Occupational Therapy also prepares graduates for entry into higher degree research and careers in research and academia, as well as bolstering research networks.

Professional recognition

The Master of Occupational Therapy program has full accreditation with the Occupational Therapy Board of Australia.

Our graduates are eligible to apply for registration with the Occupational Therapy Board of Australia, and graduate from a program that is recognised by the World Federation of Occupational Therapists.

The program has been granted Candidacy Status by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA).

Bond's Master of Occupational Therapy is the first program to achieve candidacy in Australia, and the second outside of the United States.

Entry requirements

A degree in health sciences or a related discipline with a minimum GPA of 1.0 / 4.0 or 4.0 / 7.0, and the equivalent of one semester of anatomy, one semester of physiology and two semesters of behavioural science (for example, psychology or sociology).

*2023 estimated total fees.

Master of Nutrition and Dietetic Practice

	Duration	Commencing	IELTS or equivalent	Total course fee (AUD)*
CRICOS course code 105326E	6 semesters (2 years)	May	7.0 (6.5)	\$109,680

Program description

This program allows students interested in health and nutrition to choose the area of nutrition they want to specialise in, while focusing on practical placement, communication, and international engagement.

Strong emphasis is placed on developing skilled and knowledgeable practitioners with extensive preparation in evidence-based dietetic practice and nutrition research.

Throughout the Master of Nutrition and Dietetic Practice, students have the opportunity to explore global nutrition issues through an overseas internship or a domestic placement exploring Indigenous nutrition considerations.

Program structure

The Master of Nutrition and Dietetic Practice comprises 21 subjects. Please note that program structures will vary for each student, dependent on when their individual placements occur. The below is an example program structure.

Students must complete all of the following subjects:

Semester 1

- Nutrition and Food Science
- Nutrition Assessment and Diagnosis
- Nutrition Communication and Behaviour
- Nutrition Issues and Priorities

Semester 2

- Acute Clinical Dietetics
- Food Service Dietetics
- Nutrition and Chronic Disease Management
- Public Health Nutrition Practice

Semester 3

- Transition to Professional Practice
- Applied Clinical Dietetics
- Evidence-Based Practice for Health Professionals
- Professional Placement Internship: Community and Public Health Nutrition
- Professional Placement Internship: Medical Nutrition Therapy 1

Semester 4

- Health Research Design and Planning
- Professional Placement Internship: Food Service Management
- Professional Placement Internship: Medical Nutrition Therapy 2
- Sports Nutrition

Semester 5

- Management and Leadership for Nutrition Professionals
- Nutrition Research Internship 1

Semester 6

- Nutrition Research Internship 2
- International Nutrition Practice

Professional recognition

This program currently has full accreditation with Dietitians Australia (DA). Graduates of this program are eligible to become DA members with dietetics qualifications, and to join the Accredited Practising Dietitian (APD) Program.

The program is also accredited as a Foreign Dietitian Education Program (FDE) by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND).

Bond's Master of Nutrition and Dietetic Practice is the only Australian master's program of its kind to be accredited in the United States.

Career outcomes

Graduates of the Master of Nutrition and Dietetic Practice will emerge with a broad global skill set with applications in:

- Clinical dietetics in hospitals and outpatient facilities
- Private practice
- Food service management
- Corporate health and wellness
- Sports nutrition
- Nutrition communications and media
- The food industry
- Culinary nutrition
- Nutrition in childcare, schools, and aged care facilities
- Community and public health nutrition, both in Australia and globally
- Nutrition and dietetic research

Entry requirements

An undergraduate degree in health science or other related degree with a minimum GPA of 1.0 / 4.0 or 4.0 / 7.0. Students must also show evidence of successful completion of at least two biochemistry subjects at second year level where first year chemistry is a prerequisite of these subjects, and two physiology subjects, also at second year level.

Eligible undergraduate programs at Bond University include:

- Bachelor of Biomedical Science (CRICOS 063085B)
- Bachelor of Exercise and Sports Science (CRICOS 080641D)
- Bachelor of Health Sciences (CRICOS 063068C)

*2023 estimated total fees.

All other degrees	24

* Bond also accepts curricula from US high school SATs, ACTs and Advanced Placement (AP).

Postgraduate entry requirements

Postgraduate entry varies by program, but is dependent on successful completion of a recognised undergraduate qualification. Some programs may require a higher GPA or completion of a degree in a related study area.

For more information, visit bond.edu.au/program and select your program of choice to explore its admissions requirements.

Financial aid and scholarships

Bond offers a number of part-fee scholarships and bursaries to high achieving international students for undergraduate and research degrees, including the International Undergraduate Excellence Scholarship for academic high achievers. Scholarships are awarded throughout the year. To apply for a scholarship, you will first need to apply for your chosen program.

Scholarship information can be found at bond.edu.au/scholarships.

Help from home

Many countries offer their citizens scholarships, grants or another form of student loan for overseas study. For the most up-to-date advice, go to your country's government website. Postgraduate and research funding may also be available through your home university, your employer or professional organisations in your country or region.

Canada Student Loans Program

In Canada, the federal and provincial governments jointly administer student financial assistance through the Canada Student Loans Program, which includes federal student loans (called Canada student loans) and provincial student loans. Bond University is a recognised institution in the Canada Student Loans Program. The Canada Student Loans Program provides interest-free loans for Canadian citizens or permanent residents enrolled in at least 60 per cent of a full-time study load.

Bank loans or lines of credit

Major Canadian banks offer limited lines of credit to help students pay their tuition fees. This option normally only covers a portion of the cost associated with attending university abroad. Some of Canada's major banks have specific loans designed for students, which can be negotiated on a case-by-case basis. Banks with these kinds of schemes include the Bank of Montreal, CIBC, RBC Royal Bank, Scotiabank, and TD Canada Trust.

How to apply

1

Select your program

Choose the program that best fits your interests and future goals. Explore our full range of programs at bond.edu.au/program.

2

Complete your application

Applications for most Bond programs can be lodged at any time, direct to Bond through our online application portal. There is no application fee. Be sure to submit all required documents, which may include academic transcripts, your passport, and your English language proficiency test results.

3

Submit your application

You can submit your application directly or via an agent. You or your agent will receive an email from Bond to confirm your application was successfully submitted.

4

Receive your Letter of Offer

The application review process will normally take around two weeks, providing all supporting documentation has been submitted. If your application is successful, you or your agent will receive an email from us containing your official offer.

5

Accept your offer

To accept your offer, log into our online application system and accept, and then pay the required fees as listed on your offer. If you applied via an agent, please contact them to find out how to accept your offer and pay.

6

Get ready to start

As the semester approaches, we'll be in touch with details for your Orientation - your official welcome to Bond University. The Orientation experience features an exciting program of social activities where you can relax and meet people, and get ready for university life.
