GENERAL INFORMATION

PROGRAM INFORMATION

This Graduate Diploma program is designed to build on undergraduate studies in the health and related sciences to develop specialist knowledge, skills and attitudes relating to human nutrition and health. Successful graduates from this Graduate Diploma program are well-placed to progress to further studies via the Master of Nutrition and Dietetic Practice to become qualified as a dietitian and receive full credit for subjects studied in this program. This program is a useful pre-medical program for graduates with ambitions to enter post-graduate medical programs, as a pathway into postgraduate specialisation in nutrition or for internationally-educated dietitians requiring professional updates before applying for Australian qualification recognition.

SUBJECT INFORMATION

CC-63040 Graduate Diploma in Nutrition

Version	5				
Total Subjects	Total Credit Points	80	Cricos Code	079258K	
Structure					

Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students' lack of prior knowledge. Please check for all requirements on your subject outline prior to enrolment.

Available	Code	Title	Assumed Knowledge	Requisite
You must complete the following required subjects:				
M	NUTR71-100	Nutrition and Food Science		
M	NUTR71-101	Nutrition Assessment and Diagnosis		
M	NUTR71-102	Nutrition Communication and Behaviour		
M	NUTR71-103	Nutrition Issues and Priorities		
S	NUTR71-104	Acute Clinical Dietetics	NUTR71-100, NUTR71-103	NUTR71-101, NUTR71-102
S	NUTR71-105	Nutrition and Chronic Disease Management	NUTR71-100, NUTR71-101, NUTR71-102, NUTR71-103
