PROGRAM INFORMATION

The healthcare landscape is changing and challenging the way we currently engage with healthcare services. The population is living longer with complex and chronic conditions, and many people have increasing expectations of healthcare and technology.

The traditional, siloed approach to healthcare is becoming increasingly ineffective and inefficient in meeting patients' needs and desires. We require a flexible health workforce that engages in lifelong learning, is technologically savvy, understands research evidence and is able to develop different models and systems of care. We are all being challenged to upskill and prepare ourselves to lead the changes required. Health leaders who think differently can learn to thrive in an environment of disruption and create positive change.

The Master of Healthcare Innovations is offered full time over 3 semesters (one year), or part time over multiple semesters. The program is delivered to small cohorts via intensive workshops supported by blended and online learning approaches, limiting on-campus attendance requirements and ensuring flexibility to cater for interstate or international students, and those balancing studies with work and family commitments.

SUBJECT INFORMATION

Capstone Option: Master of Healthcare Innovation students are able to choose either HPER72-300 (20cp) or HPER72-301 (10cp) and HPER72-302 (10cp) depending on if they are studying part time or full time.

Structure

Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students' lack of prior knowledge. Please check for all requirements on your subject outline prior to enrolment.

Available	Code	Title	Assumed Knowledge	Requisite
You must complete the following required subjects:				
J	HPER71-110	Evidence Based Practice and Policy		
S	HPER71-111	Health Systems: Australia and International		
J/M	HPER71-112	Knowledge Translation in Healthcare		
M	HPER71-114	Educating the Health Workforce		
J	HPER71-119	Leading Innovation in Healthcare		
Capstone Option		Select either HPER72-300 or HPER72-301 and HPER72-302		
J/M/S	HPER72-300	Capstone Project (20CP)		Anti_HPER72-301, Anti_HPER72-302
J/M/S	HPER72-301	Capstone Project A (10CP)		Anti_HPER72-300
J/M/S	HPER72-302	Capstone Project B (10CP)		Anti_HPER72-300
Directed Electives 5		Choose five subjects from the following options.		
M/S	ENFB71-104	Entrepreneurship and Innovation		
M	HPER71-116	Planetary Health		
S	HPER71-117	Sustainable Healthcare		
J	HPER71-118	Translational Simulation in Healthcare		
J/S	MGMT71-326	Project Innovation and Change		
M/S	BMBA71-301	Data Analytics for Decision Making		
J/M/S	MGMT71-104	Managing People
