GENERAL INFORMATION

Bond's Master of Occupational Therapy program has full accreditation with the Occupational Therapy Board of Australia. Our graduates are eligible to apply for registration with the Occupational Therapy Board of Australia and will be graduating from a program that is recognised by the World Federation of Occupational Therapists.

PROGRAM INFORMATION

Bond University's Master of Occupational Therapy program is designed to produce highly competitive graduates with comprehensive clinical skills as well as possessing a solid business acumen and research experience. It is the first Occupational Therapy Masters in Australia to offer you the opportunity to complete a clinical research project or undertake business electives in preparation for a career in private practice. You will engage in either the Clinically-focused Research Pathway or Business-focused Research Pathway. The Clinically-focused Research Pathway prepares you for entry into higher research degrees and careers in research and academia, as well as bolstering research networks and culminates in an individual research project that may be eligible for publication. The Business-focused Research Pathway enables you to undertake business electives that will enable you to undertake management roles, and better prepare you to work in the growing private sector. The pathway culminates in an industry research project where you will apply both research and business skills. You will be taught by academics and industry staff who are current practising clinicians with up to date industry knowledge.

SUBJECT INFORMATION

Additional notes for the May intake: Semester 1 (May 2025) students may choose either MGMT71-104 Managing People or HPER71-114 Educating the Health Workforce.

<p>Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students' lack of prior knowledge. Please check for all requirements on your subject outline prior to enrolment.</p>
