

## GP INTEGRATED HEALTH SYSTEM PLACEMENTS

This is an integrated student placement between General Practice, hospital and structured learning opportunities to focus on Child, Women or Mental Health care.

### Placement overview

**Supervision:** 2 days per week over 7 weeks as per agreed days. Total of 14 days. There is the opportunity to host a student for up to 6 rotations a year.

**Eligible for PIP payment:** 2 days per week for a 7-week rotation is eligible for \$5600 PIP payment.

Each student is provided with a PIP form before commencement of placement. This is completed and signed by the student and the practice at the completion of the placement block and you can then submit the form for payment. For more information [click here](#)

**Agreements:** Your Student Placement Agreement is direct with Bond University. This gives the practice assurance that student placements are covered by Bond Insurance. A signed agreement will be completed prior to placements commencing.

**Schedules:** As placement days need to fit both the GP and the hospital, rosters need to be set in advance. Although there is limited flexibility, we will always try to accommodate your needs.

## Bond Academic Supervisors

Each student will be allocated a Bond Academic Supervisor to provide support to the student and to help with the integration of placement experiences to meet learning objectives.

The Bond academic supervisor will be available to support you by providing information about learning objectives for the placement, facilitating communication between you and hospital clinical supervisors and other Bond Medical Program staff.

## CPD points

As a GP supervisor with Bond University, we'll not only support you to achieve **30 CPD points** annually - **we'll take care of registering your points for you**

### What you can claim
