GENERAL INFORMATION					
NA					
PROGRAM INFORMATION					
The Graduate Diploma in Healthcare will be awarded to those students who have accumulated a minimum of eighty credit points (80CPS) within the Master of Healthcare Innovations. Students will have developed professional knowledge of health systems, evidence based practice, and organisational behaviour. Professionals will learn to use design thinking and problem-solving strategies to lead, educate, and influence colleagues and healthcare users toward improving and innovating healthcare practice.					
SUBJECT INFORMATION					
Capstone Option: Graduate Diploma in Healthcare Innovation students are able to choose either HPER72-300 (20cp) or HPER72-301 (10cp) and HPER72-302 (10cp) depending on if they are studying part time or full time. HPER72-300, HPER72-301 and HPER72-302 are offered in all three Semesters.					
HPER71-112: Is offered in both the January and May semesters.					
HPER71-118 Assumed knowledge: A minimum of one year of work experience in a clinical or quality improvement role within any healthcare setting, including hospitals or community care.

Structure				
Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students' lack of prior knowledge. Please check for all requirements on your subject outline prior to enrolment.
