## PROGRAM INFORMATION

The Master of Finance course is a quantitatively rigorous program which integrates innovative subjects that highlight the Bond Business School's excellence in experiential and case-based teaching. The classes combine theoretical knowledge in Finance with practical insights delivered through case studies and guest lectures. Session building is encouraged through group projects and communication skills are enhanced through class presentations. The Bond MBA is a generalist management program. Designed to blend industry-relevant research with practical applications and challenges, the intended learning outcomes are centred on the three pillars of leadership, global business and entrepreneurship, developing graduates who can think critically and strategically in this context.

## SUBJECT INFORMATION

## ASSUMED KNOWLEDGE

Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students' lack of prior knowledge. Please check for all requirements on your subject outline prior to enrolment.

## OPPORTUNITES

Students may have the opportunity to participate in an international study tour experience or internship as a general elective. Those interested should consult an Enrolment Officer in Student Assist for guidance and to check eligibility requirements (e.g., GPA, language proficiency, prerequisites).
