

Assistant Professor (A or B) or Senior Teaching Fellow in Speech Pathology

Faculty of Health Sciences and Medicine

Selection Criteria

To be successful in the role of **Senior Teaching Fellow**, you will have:

1. A Master's degree or equivalent professional experience in Speech Pathology or a related field, with interest in undertaking doctoral studies highly regarded, and membership with, or eligibility for membership with, Speech Pathology Australia
2. Demonstrated experience in higher education in delivering high quality speech pathology-related curriculum, simulation activities, student placement education or scholarship outputs with impactful outcomes
3. An understanding of contemporary approaches to learning and teaching, including delivery through new technologies
4. Strong interpersonal and communication skills, with the capacity to work collaboratively and effectively with students, academic and professional colleagues, and industry or clinical partners, particularly in the context of establishing a new discipline

To be successful in the role of **Assistant Professor**, you will have:

1. A doctoral qualification, or significant progress toward completion of doctoral studies, in Speech Pathology or a related field, and membership with, or eligibility for membership with, Speech Pathology Australia
2. Significant experience in working independently to design, coordinate and/or deliver high quality speech pathology-related curriculum and/or work-integrated learning (WIL) activities (including placement education)
3. Growing or established scholarship and/or research profile including quality publications and the capacity to attract relevant funding and experience supervising Honours or HDR students
4. Demonstrated leadership capability, including the ability to mentor less experienced staff and engage actively in academic service, governance and professional activities within and beyond the University
5. Strong interpersonal and communication skills, with the ability to support student learning, mentor academic colleagues, and engage productively with industry and professional partners
