FACULTY OF LAW

Monday, 29 June 2026

In the spirit of reconciliation, Bond University acknowledges the Traditional Owners and Custodians of the land on which the University now stands. The Kombumerri people have walked and cared for this land and wildlife for thousands of years, and their descendants maintain spiritual connection and traditions. We thank them for sharing their cultures, spiritualities and ways of living with the land and wildlife in this place we all now call home. We pay respect to Elders past, present and emerging.

## Executive Dean's Message

As Executive Dean of the Faculty of Law, I am delighted to formally congratulate all of our award recipients. Every semester we recognise the achievements of the Faculty's best students: those who have excelled academically, those who have participated in our law clinics and student editor programs, and those who have represented our Faculty in mooting and other competitions. Bond Law attracts some of the brightest students from across Australia and around the world. All of the students who are receiving an award this semester for academic performance, participation, or representation have had to work extremely hard to earn those awards, and they are the best this Faculty has to offer. Congratulations.

It is both a challenging and an exciting time to be a law student and a future legal professional. Disruptive technologies such as generative AI are prompting deep reflection upon the future roles and responsibilities of lawyers and law teachers, and driving changes in law school teaching and assessment practices. As always, economic conditions are creating both pressing challenges and unexpected opportunities for law graduates. Meanwhile, the Faculty remains committed to providing the best law student learning experience in the country, ensuring our on-campus community is thriving, and supporting an ever increasing range of extracurricular opportunities and social events that threaten to distract us all from our work and studies. Despite these challenging conditions and tempting distractions, the winners tonight have persevered with their studies and prevailed, demonstrating their impressive fortitude, resilience, and focus. Well done!

This semester, we will once again be celebrating these awards with an event on campus. I look forward to seeing you all at Awards Night.

## Connection

by Abelee Stanley  
Diploma of Arts (CRICOS 010729) /  
Bachelor of Social Science (CRICOS 063082E)

"This artwork represents my connection with the land and sea. On my mums side, I'm Aboriginal, this is shown through the green section that represents the land of my grandparents tribes - Burangum and Birra Gubba tribe and the land on where I grew up - Murgon/Cherbourg. I painted the land as I remembered when I was a child, the greenery constantly surrounding us and the many water holes. The blue section was painted to represent my Torres Strait Islander (TSI) heritage on my fathers side, where the sea is a significant factor in the TSI culture. The sea and islands surrounding Thursday Island were the most memorable moments and what I thought would best represent my culture. The middle section represents four main groups of people in my life who have impacted my involvement in my culture, have helped foster my cultural identity through these relationships by strengthening my connection. These groups of people are my family on my Aboriginal side, my family on my Torres Strait Island side, the Nymobil Centre and the students I've met through University, and students I attended high school with."
