GENERAL INFORMATION The Doctor of Physiotherapy program offers an innovative problem- and case-based learning model of physiotherapy education to prepare entry-level physiotherapists for their roles and responsibilities as first-contact practitioners. The program integrates the clinical, pathological, and related basic sciences with the physiotherapy knowledge, skills, and professional behaviours and attitudes required to examine, diagnose and treat physiotherapy clients. The Doctor of Physiotherapy assists students to progressively develop and apply their knowledge, skills, and professional attitudes and behaviours to undertake physiotherapy practice and places a strong emphasis on clinical experiential learning with up to 1400 hours of learning in a clinical environment. Clinical practice experiences are designed to produce work-ready, entry-level graduates who are competent to practice across the lifespan in a range of environments and settings. Variable experiences across the lifespan are sought in a range of clinical settings. These will include acute care (such as general cardiorespiratory and orthopaedics), inpatient or outpatient rehabilitation, and musculoskeletal outpatients (such as hospital outpatients or private practice). Students may also have the opportunity to experience a diverse clinical setting in line with their interests, such as paediatrics, women’s/men’s health, specialist acute care services, sports, and rural, remote, or international placements, dependent on placement availability.					
PROGRAM INFORMATION The Bond University Doctor of Physiotherapy program has been accredited as an entry-level program by the Australian Physiotherapy Council and is listed as an approved program of study by the Physiotherapy Board of Australia.					
SUBJECT INFORMATION NA					

CC-63034		Doctor of Physiotherapy		
Version	6	Cricos Code: 111801K		
Total Subjects	19	Total Credit Points	240	
Structure	19 Required Subjects			
Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students’ lack of prior knowledge. Please check for all requirements on your subject outline prior to enrolment.				
Available	Code	Title	Assumed Knowledge	Requisite
You must complete the following required subjects:				
M	PHTY71-401	Foundations of Physiotherapy		
M	PHTY71-402	Physiotherapy: Musculoskeletal 1		
S	PHTY71-403	Physiotherapy: Cardiorespiratory		PHTY71-401, PHTY71-402
S	PHTY71-404	Physiotherapy: Musculoskeletal 2		PHTY71-401, PHTY71-402
S	PHTY71-405	Physiotherapy: Neurological and Rehabilitation		PHTY71-401, PHTY71-402
J	PHTY71-406	Transition to Professional Practice		PHTY71-401, PHTY71-402, PHTY71-403, PHTY71-404, PHTY71-405
