Available J M S	Program Overview	Cricos 063115A	Version 7
The Master of Accounting program comprises 120 credit points of Required Subjects, totalling 120 credit points across four semesters. The program provides comprehensive study in accounting, auditing, taxation, financial reporting, accounting information systems, business law, economics, finance, sustainability, and data analytics, preparing graduates for professional accounting careers.			
Assumed Knowledge			
Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students' lack of prior knowledge. Please check for all requirements on your subject outline prior to enrolment.			
Opportunities			
Students may have the opportunity to participate in an international study tour experience or internship as a general elective. Those interested should consult an Enrolment Officer in Student Assist for guidance and to check eligibility requirements (e.g., GPA, language proficiency, prerequisites).			
Additional Notes
