Available J | M | S	Program Overview	Cricos 077989B	Version 5

The Master of Finance (Professional) program comprises 60 credit points of Required Subjects, 40 credit points of Finance Options, 20 credit points of Postgraduate General Electives and a 45 credit point Professional Option (Professional Portfolio or Professional Development), totalling 165 credit points across five semesters. The program provides advanced study in finance, financial applications and analysis, corporate finance, portfolio analysis and investments, financial institutions and risk management, and international finance, while tailoring their studies through finance option subjects and postgraduate electives and incorporating an extended professional experience component designed to enhance employability, workplace readiness, and professional accounting practice.

Assumed Knowledge

Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students' lack of prior knowledge. Please check for all requirements on your subject outline prior to enrolment.

Opportunities

Additional Notes

*Please note that the Professional Portfolio or Professional Development subject is a 20-week, 45-credit point subject and is taken in the last semester of the program once all other coursework subjects have been completed. The Career Development Centre will provide assistance in choosing the relevant professional subject prior to your last semester.
