Assumed Knowledge							
Assumed knowledge is the minimum level of knowledge of a subject area that students are assumed to have acquired through previous study. It is the responsibility of students to ensure they meet the assumed knowledge expectations of a specified subject. Students who do not possess this prior knowledge are strongly recommended against enrolling and do so at their own risk. No concessions will be made for students’ lack of prior knowledge. Please check for all requirements on your subject outline prior to enrolment.							
Opportunities							
Students may have the opportunity to participate in an international study tour experience or internship using a general elective. Those interested should consult their BBT Program Coordinator for guidance and to check eligibility requirements (e.g., GPA, language proficiency, prerequisites).							
Additional Notes							
The program is taught in English, with options to undertake some subjects in Japanese, reflecting its international orientation and partnership with Business Breakthrough University. Graduates emerge with advanced professional skills, a strong global mindset, and the ability to lead responsibly, ethically, and innovatively across diverse organisational contexts.
