Selection Criteria

Post-Doctoral Research Fellow
Institute of Evidence-Based Healthcare

Essential Criteria:

- A PhD in a health-related field and equivalent research experience.
- Demonstrated expertise in the design, conduct and analysis of primary research studies.
- Demonstrated experience conducting systematic reviews and/or other evidence synthesis methodologies.
- Emerging track record of high-quality research outputs, including publications in peer-reviewed journals.
- Strong analytical and writing skills.
- Ability to work independently and within a multidisciplinary team.
- Demonstrated ability to deliver research projects to agreed timelines and milestones, including preparing ethics applications and reports.

Desirable Criteria

- Understanding of evidence-based practice, shared decision making, implementation research, clinical trials, sustainable healthcare, and/or health services research
- Knowledge of and experience in how emerging technologies, including artificial intelligence, can support clinical decision-making
