

2025

**Undergraduate
Guide**

CHAPTER 1:

Your experience

We exist for you.

Not for profit, and not to conform...

But to spark your passion and fuel your ambition.

To mentor you, support you, inspire you,
and bring out your best.

This guide has been created just for you, as you take
the first step towards a standout university experience.

Stand out at Bond

We offer a deliberately different approach to university learning. It's not only about what you learn in your program – it's who you learn from, who you learn with, and how you learn. At Bond, you will have access to enriching learning experiences designed to help you find your passion, develop your knowledge, build your skills, and stand out in your future career.

Invest in your success

Bond's accelerated, three-semester-per-year timetable means you can complete your degree and start earning an income up to one year ahead of your peers. You can access FEE-HELP, an interest-free Australian government loan, to help you with your tuition fees.

Accelerate your progress **Page 16**

Learn about FEE-HELP **Page 70**

Degrees with a difference

Gain future-ready skills while you study innovative programs, develop your employability skills in the Beyond Bond program, and become a capable individual, effective collaborator and global citizen through Bond's unique Core Curriculum.

Explore programs **Page 20**

Discover Core Curriculum and Beyond Bond **Page 17**

Personal support at every step

Our small class sizes and student-to-teacher ratio – the smallest of any university in Australia at 11:1 – mean you'll be mentored by your academics and develop invaluable networks. You will also enjoy the support of Bond's extensive academic and student wellbeing support services, from assistance with your studies to lifelong career guidance.

Connect with industry

Take advantage of the Career Development Centre's services and career experts, the Transformer start-up program, and an array of internship and industry placement opportunities.

Discover the Bond difference **Page 9**

Prepare for a global career

Broaden your perspective with international internships, study tours, competitions, exchange opportunities, and a global alumni network that spans more than 130 countries.

Explore global experiences **Page 10**

Build your network

On campus, you will study alongside students from more than 90 countries. You can participate in an array of sporting and cultural clubs and societies, as well as student associations, providing opportunities to enrich your student experience, and pursue leadership roles.

Explore life on campus **Page 74**

Bondy

[bond-ee]

noun

1. A student or graduate of Bond University.
2. Someone who stands out at university, and after they graduate.
3. A member of an unbreakable, global, lifelong community.

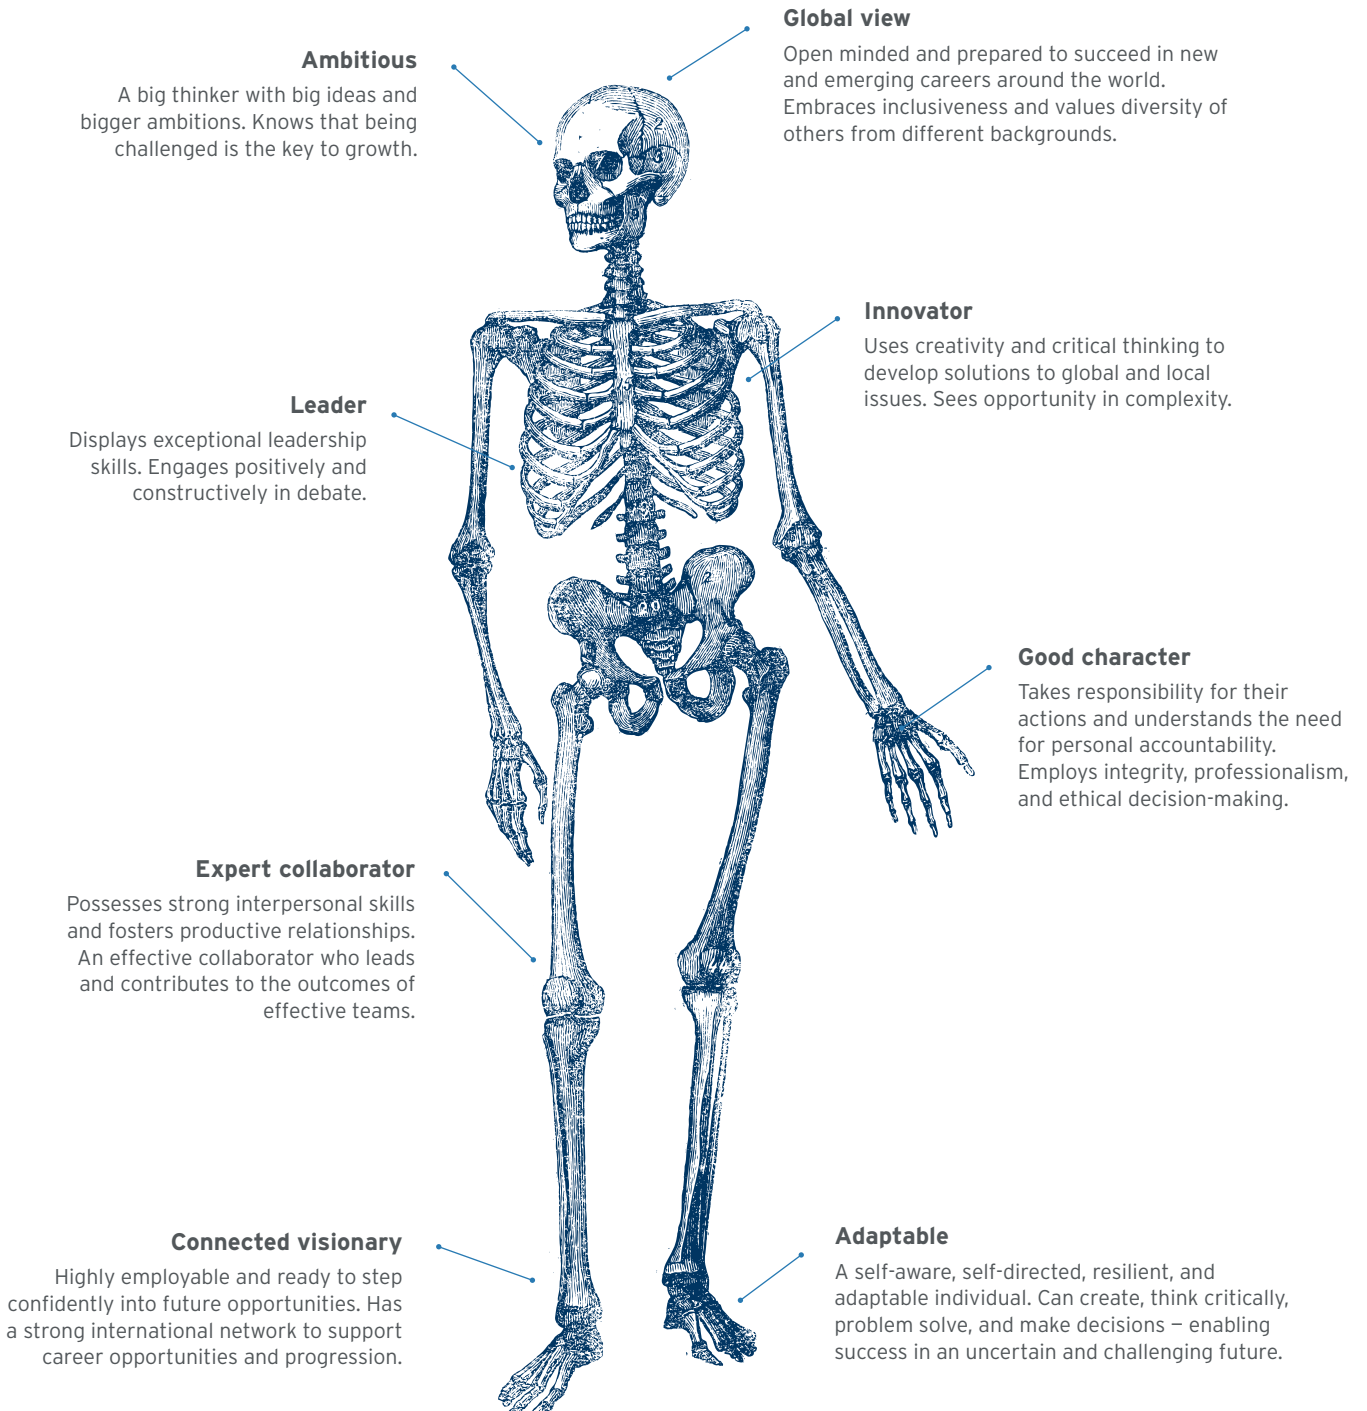

Figure 1.1 Anatomy of a Bondy

Immerse yourself in an area of interest and take a unique subject like Gold Coast Surf, Culture and Storytelling.

Read the story

Why Bond?

There are many reasons students from all over Australia choose Bond University. Here are just four of them.

Young but mighty[†]

We're ranked in the top 50 young universities worldwide

We're #1

#1 in Australia for undergraduate student experience, 17 years in a row*

#1 in Australia for learner engagement, student support, learning resources, teaching quality, and skills development*

5 stars across the board[^]

Teaching

Internationalisation

Employability

Facilities

Academic development

Inclusiveness

Medicine

Personal support along the way*

Australia's lowest student-to-teacher ratio of 11:1

* 2023 Good Universities Guide. The Good Universities Guide is a trusted independent consumer guide providing ratings, rankings and comments about all Australian higher education institutions.

** 2020 Quality Indicators for Learning and Teaching (QILT) Employer Satisfaction Survey. QILT is an independent survey by the Australian Government's Department of Education, Skills and Employment.

[^] 2023 - 2026 QS Star ratings. QS Stars is a global rating system that provides a detailed overview of a university's excellence, rating educational institutions all over the world. It is internationally recognised as one of a few truly global rating systems.

CHAPTER 2:

Your home

When you study at Bond, you become part of a vibrant, connected, and supportive community. Ask any Bondy and they'll tell you that they consider Bond their second home. So, welcome! Take a look around.

Limitless, a 6.5-metre-tall sculpture commemorating Bond's 30th anniversary, lists the names of Bond's first 26,000 graduates.

Discover a deliberately different experience

Bond has earned an unmatched reputation for its unique student experience, underpinned by personalised attention in the classroom and in every aspect of life on campus.

It starts from the moment you arrive on campus, with a full calendar of information sessions and social activities at Orientation Week.

Once your classes are underway, you may also find some of our student support and wellbeing services helpful, such as the Academic Skills Centre, Career Development Centre, accessibility and inclusion support, and medical and counselling services.

There are many ways to get involved in university life through our active on-campus clubs and societies, and you'll find opportunities to take on leadership roles, committee positions and volunteering experiences which will help you stand out to future employers.

At home in the heart of the Gold Coast

The Gold Coast is one of the fastest-growing cities in the nation, and the sixth largest. Here, we enjoy an average of 300 days of sunshine per year, an average temperature of 29 degrees, and an incredible natural backdrop extending from world-famous beaches to idyllic hinterland rainforest.

Bond is located in Robina, the geographical heart of the Gold Coast. With public transport links from campus, you are within easy reach of everything the city has to offer, including shopping, dining and entertainment, as well as study and career opportunities.

Explore the city:
bond.edu.au/life-at-bond/life-on-gold-coast

Your gateway to global opportunities

The world is spectacularly vast, and so are the opportunities you will have to see it during your time at Bond.

You don't have to take a gap year or time out from your degree to see the world – from international industry partnerships and placements to exchange programs, study tours and international competitions, there are a breadth of opportunities to explore at Bond.

On campus, Bond is home to a truly global community. Staff and students from more than 90 different countries call Bond University home, and our alumni network includes more than 33,000 alumni located in more than 130 countries.

Take a study tour

From Hong Kong to Silicon Valley to the Solomon Islands, many programs include study tour opportunities to develop real-world global experience.

Go on exchange

Take advantage of more than 80 exchange partnerships in 24 countries.

Participate in international competitions

Take part in Model United Nations conferences in Japan or New York, or even compete at the International Criminal Court Moot in The Hague.

Take advantage of a global alumni network

As a Bondy, you will join our active alumni network of more than 33,000 graduates across 130 countries.

Alissa Woods

Bachelor of International Relations /
Bachelor of Laws
New Colombo Plan scholar

Seoul, South Korea

"Getting to know the Korean culture has opened my eyes to the cultural similarities and differences Australia has with other countries in our geopolitical neighbourhood. I completed language training, an internship with Herbert Smith Freehills, a semester of study at Yonsei University, and so much more."

Katura Halleday

Bachelor of Laws /
Bachelor of International Relations
Vice Chancellor's scholar

London, UK

"During my studies I've had the chance to travel to 10 countries and now have friends from all over the world. Being in another part of the world doesn't just open you up to new cultures, it also gives you an opportunity to network with other people in your field and gain a new, more worldly perspective."

Sport is in our DNA

Sport and education are entwined at Bond University. We have a strong sporting tradition and are proud to provide opportunities for students to participate in sport at a social, competitive, or elite level.

Take advantage of the Bond University Sports Centre

The University's multi-million-dollar Sports Centre incorporates a state-of-the-art gymnasium, TRX Suspension Training Studio, boxing circuit training room, and a regular timetable of group exercise classes.

Outside, the Aquatic Centre includes a 50m Olympic-size heated swimming pool and a FINA-rated 10-lane, 25m pool. The campus also features extensive outdoor sporting facilities including rugby and AFL fields, 3 x 3 courts, and tennis courts, as well as indoor facilities for basketball, netball, esports, futsal, badminton, volleyball, cricket, and squash.

Access to the Sports Centre, group exercise classes, outdoor and indoor sporting facilities, and Aquatic Centre is included as part of the Student Services and Amenities Fee, making it free for all current fee-paying students.

Join one of our sport clubs

Joining a sporting club is a great way to meet new friends, and Bond has more than 20 to choose from. Competing under the Bond Bull Sharks banner, you'll have the opportunity to compete in competitions such as the UniSport Nationals.

Compete in high performance sports

Bond has key high performance sports including swimming, rugby, rugby sevens (men and women), AFL (men and women), tennis, netball, equestrian, and esports. Our world-class coaching, facilities, and partnerships ensure we can compete at the highest level both nationally and internationally. Bond student athletes have competed at the Olympic and international levels – in fact, at the 2020 Olympic Games in Tokyo, Bond University athletes took home a total of five medals, including two golds.

Get involved in Esports

A recent addition to Bond's high-performance sports facilities is the state-of-the-art Esports Hub. Devoted to competitive video gaming, the Esports Hub is equipped with 12 high performance gaming machines, a training and coaching facility for analysis and strategy, and the ability to stream to an audience from Bond's 500-seat theatre.

Discover the Bond Elite Sport Program

Bond University is a member of the Australian Institute of Sport's Elite Athlete Education Network (EAEN), which provides flexible study loads and considerations for athletes at the very top of their sport. Athletes competing at a state, national, or international level in their chosen sport are invited to apply to the Bond Elite Sport Program.

bond.edu.au/elite-sport-program

Get involved in sports research

The Bond Institute of Health & Sport is a world-class teaching and training centre which regularly hosts international athletes and professional teams. Specialist training and preparation facilities at the Institute's High Performance Training Centre include a strength and conditioning gym and training facility, 25m indoor lap pool, temperature-controlled recovery pools, oxygen-regulated altitude training room, and sports science laboratories. The Institute is also used extensively by students studying exercise and sports science, physiotherapy, occupational therapy, and nutrition and dietetic practice.

In 2023, a multi-million-dollar expansion of the Bond Institute of Health & Sport was completed, providing even more space and top-notch facilities to train the allied health professionals of tomorrow.

CHAPTER 3:

Your degree

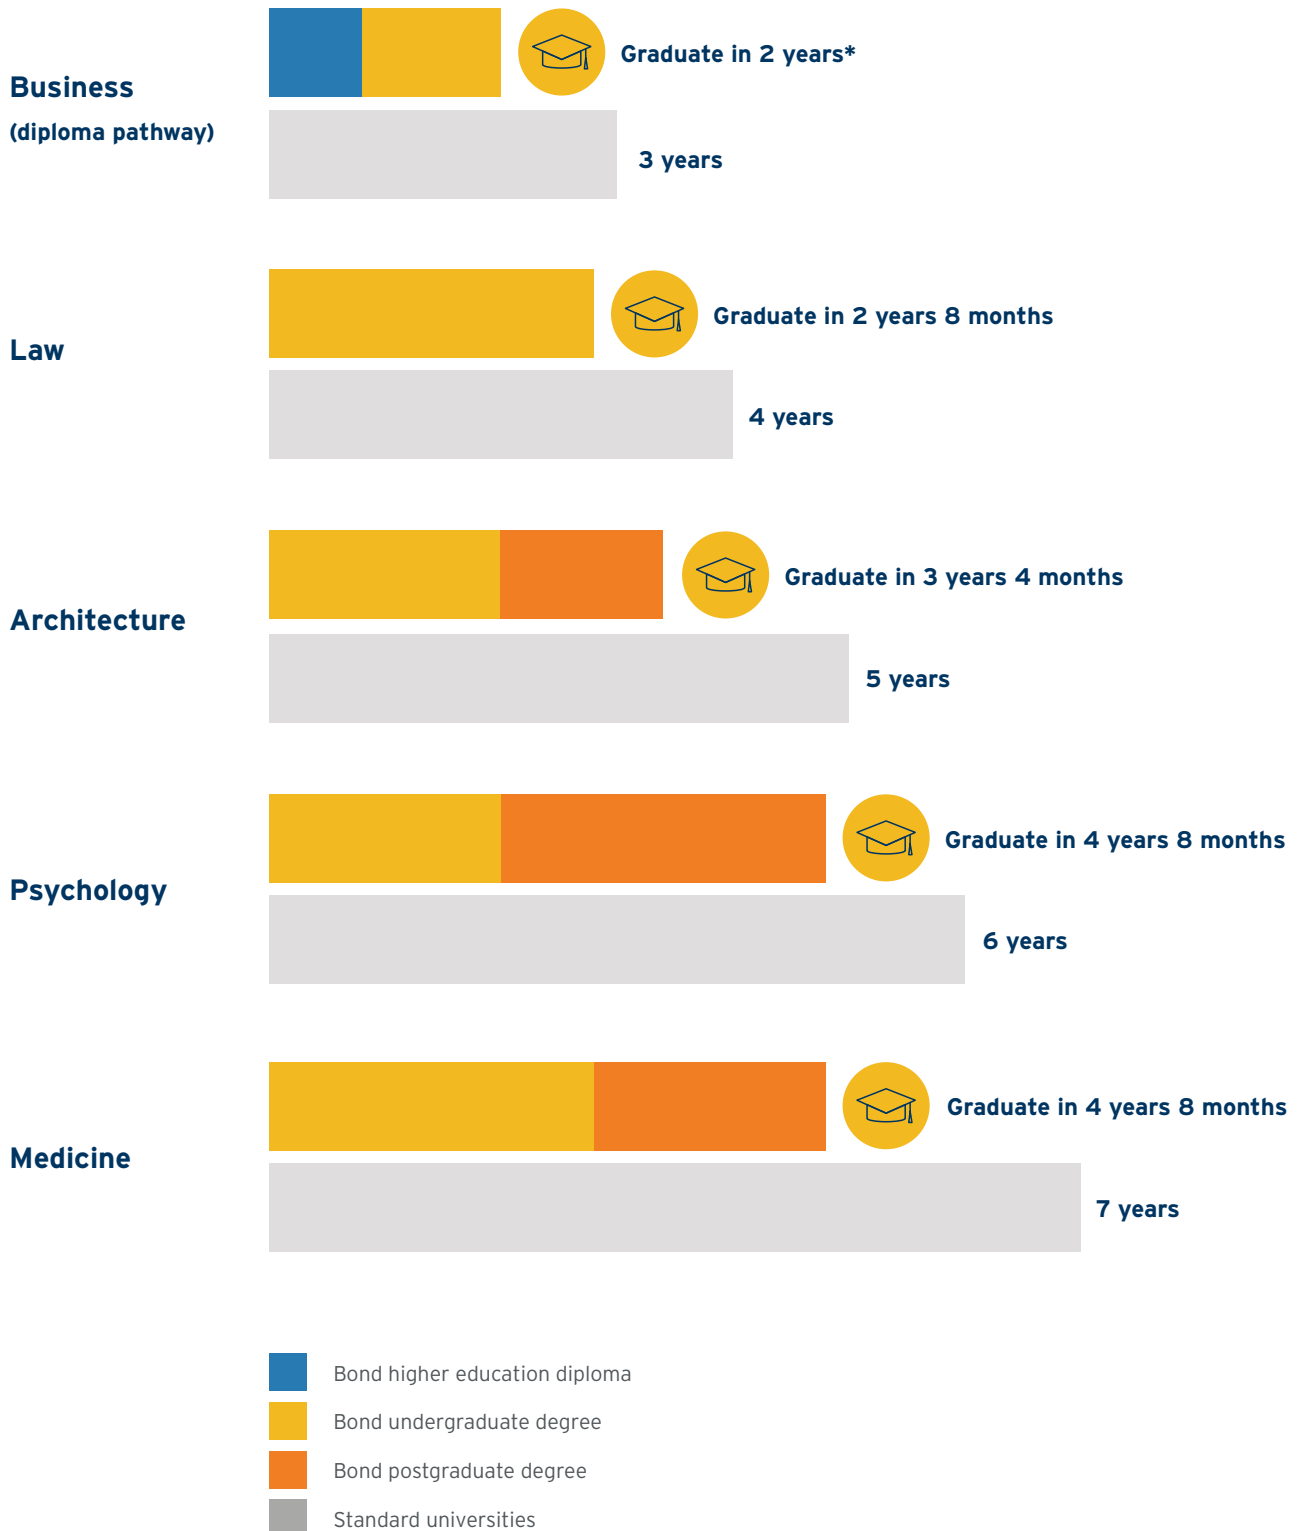

An investment in your education is an investment in your future – and in yourself. During your time at Bond, the experiences you have inside and outside of the classroom will put you on the path to success, wherever your career and passion may take you.

Accelerated success

Bond's accelerated, three-semester-per-year timetable means you'll finish your degree sooner and be earning an income up to a year ahead of graduates from other universities. Our accelerated degree structure has opened the doors to exceptional career opportunities for many of our high-flying alumni, enabling them to enter the workforce sooner and fast-track their first promotion. In fact, many of our alumni have achieved director, CEO, and partnership status within 10 years of graduating from Bond.

* All program durations are indicative of a full-time study load, and may differ based on your degree schedule. Study pathways shown represent a combination of undergraduate and postgraduate studies for specific career pathways and study options. Please visit the specific program page for more information at bond.edu.au/program or contact us via bond.edu.au/contact

Unique to Bond

To help students prepare for their careers, every undergraduate Bond student completes a degree-wide professional development program and a unique core curriculum, embedded into their degree.

Bond's Core Curriculum and Beyond Bond program will help you develop your capabilities, discover your passions, enhance your skills, and stand out in a competitive career environment.

Exclusive to Bond, these initiatives ensure that the skills you need for study and career success are right at your fingertips.

Your degree decoded

Need a little help figuring out some of the terminology used in this guide? Here's a handy glossary to help you unlock your next steps.

Undergraduate

Applicants who have not previously studied at university will enrol in an undergraduate degree. For most students, this is a bachelor's degree or diploma program, which will be dependent on your qualifications and results from previous study.

Entry requirements

Admission to a bachelor's degree is based on Year 12 academic results (ATAR, IB or equivalent) or on the completion of a recognised pathway program. In 2020, the Australian Tertiary Admissions Rank (ATAR) replaced the Overall Position (OP) as the primary tertiary admissions factor for Queensland Year 12 students.

Bachelor's degrees

A bachelor's degree is an undergraduate award of 24 subjects which is commonly the entry qualification required for many professions or further study. Most subjects have a value of 10 credit points (cps). Some subjects may only be worth 5cps, where others may be worth 20cps if they involve a major industry project or thesis.

Ultimately, the value of successfully completed subjects will need to total 240cps for a standard bachelor's degree. Exceptions include the Bachelor of Laws and the Medical Program[^].

Prerequisites

Some Bond University programs require students to have completed specific subjects, known as prerequisites, to be eligible for entry. These may have been completed in high school or a pathway program such as a diploma. Please refer to individual program listings for more information.

Combined degrees

Bond's accelerated schedule inspires many students to undertake a combined degree – also known as a double degree.

Bachelor of Laws combinations are particularly popular, with the Bachelor of Business / Bachelor of Laws taking just 3 years and 8 months (11 semesters) to complete.

This is just another reason why Bond graduates stand out from the crowd – you could graduate with two degrees in the same time it takes others to complete one.

Academic pathways

If your ATAR does not meet the entry requirements for your chosen program, or you choose not to get an ATAR, there are alternative ways to open the door to university study, including preparation programs and higher education diplomas offered by Bond University College. These programs can help you satisfy the academic requirements you need to then progress into a related bachelor's degree. Successful completion of a Bond University higher education diploma program guarantees entry into the third semester of a related bachelor's degree.

Diplomas

Diplomas are non-degree offerings offered in practical and occupational fields of study. A diploma can also be completed as a pathway for students who do not meet the academic requirements for direct entry into their chosen bachelor's degree.

Bond University College

All of our higher education diplomas, as well as the Diploma Preparation Program, English program and Bond University College Foundation program are delivered by Bond University College. Located at our main campus and fully integrated with the rest of the University, Bond College provides a supportive learning environment where students are afforded extra tutorial time and academic assistance to prepare them for a full degree.

Consecutive degrees

To be accredited to practise in some professions, you may need to complete both an undergraduate and postgraduate program. These careers include architecture, psychology, physiotherapy, occupational therapy, and nutrition and dietetic practice. Bond's accelerated programs enable you to complete both degrees and get accredited much sooner than at other universities.

Majors, minors and double majors

A major is a cluster of six subjects selected from one area of specialisation, a minor is four subjects, and a double major is 12 subjects. Depending on your program, a major, minor or double major can provide an opportunity to pursue a complementary interest area.

Foundation subjects and electives

Each degree will comprise a specified number of compulsory foundation subjects, and a certain number of electives.

In many cases, electives can be chosen from any faculty, which enables you to design your degree to suit your individual career ambitions or personal interests.

[^] The Medical Program is comprised of two sequential degrees - the Bachelor of Medical Studies and the Doctor of Medicine. Applications for the Medical Program must be lodged through QTAC.

Zara Baxby

LAW AND COMMERCE STUDENT.
SYDNEYSIDER. FUTURE CHANGE-MAKER.

During my time at Bond I have...

Immersed myself in campus life – from netball to volleyball, to the Bond Investment Group and the Law Student Association.

After graduation I want to...

Progress my career internationally and create meaningful societal change.

My advice to new Bondies is...

Get involved in everything!

→ Actuarial science and data analytics

For the number crunchers and interpreters. For those who don't want to just find the pattern, but find meaning within it.

~ Diploma programs provide an admission pathway for a number of our bachelor's degrees. Please refer to page 74 for more details.

* Entrance scores are only indicative and are subject to change for 2024 entry. Applicants will require a comparable score to be considered for admission into our bachelor's programs. Applicants who do not meet this minimum entry score will instead be considered for admission into a Bond University College pathway program. In addition to our minimum admission requirements, some of our bachelor's programs may require a higher minimum entry score, the successful completion of subject prerequisites, and/or additional selection criteria relevant to that specific program. 'IB' refers to a score granted upon completion of the International Baccalaureate (IB) Diploma program.

** Students with a minimum ATAR of 65 may be considered for admission based on the merit of their portfolio.

° Prerequisites are required for entry into these programs. Please refer to individual program listings for details.

^ The Medical Program is comprised of two sequential degrees - the Bachelor of Medical Studies and the Doctor of Medicine. Applications for the Medical Program must be lodged through the Queensland Tertiary Admissions Centre (QTAC).

Actuarial science and data analytics

For the number crunchers and interpreters. For those who don't want to just find the pattern, but find meaning within it.

Thomas Hauck

ELITE SWIMMER. RESEARCH ASSISTANT. BACHELOR OF ACTUARIAL SCIENCE STUDENT.

I chose to study Actuarial Science because...

I have always enjoyed maths and problem solving, so I knew I wanted to apply those skills in my career. For me, actuarial science provides the perfect mixture of these skills and practical applications.

At Bond I have been able to...

Make connections with my academics and gain valuable experience as a research assistant in the Centre for Data Analytics. This has already led to multiple job opportunities and given me a head start in my career.

My advice to high school students is...

Talk to an expert! Whether it's speaking with a current student, taking a campus tour or meeting academics directly, there are so many people at Bond who are willing to introduce you to the University and help you make your decision.

See what Thomas learnt today

Bachelor of Actuarial Science

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 083205M	90/32	Jan, May, Sep	6 semesters (2 years)	\$17,040

Use your love of crunching numbers to evaluate financial risk and create practical solutions for real-world problems with Bond's Bachelor of Actuarial Science.

The diverse skillset acquired in this program will equip you with the tools to analyse risk and develop techniques for the management of risk to influence business decision-making skills that can be transferred across numerous industries and disciplines.

The demand for data science skills has continued to increase broadly across all sectors as organisations realise the benefits that they can gain from analysing big data, particularly in applications of data mining and machine learning. This program provides Part I (Foundation Program) accreditation by the Actuaries Institute. Bond is one of seven universities in Australia, and the only university in Queensland, to be accredited by the Actuaries Institute.

Key features

- Bond is one of seven universities in Australia and the only university in Queensland to be Accredited by the Actuaries Institute.
- Gain internationally-recognised Bloomberg certification used in the finance and banking sectors.

Majors / specialisations

- Accounting
- Data Analytics
- Economics
- Entrepreneurship and Innovation
- Finance
- International Business
- Management
- Marketing Communication
- Marketing
- Tourism and Hotel Management

Degree combinations

- Bachelor of Actuarial Science / Bachelor of Laws (CRICOS 093910C)

Professional outcomes

- Actuarial consultancy
- Risk assessment and analysis
- Data science and analysis
- Business efficiency consulting

Bachelor of Actuarial Science (Honours)

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 086364E	See below ^	Jan, May	2 semesters (8 months)	\$21,760

The amount of data available to corporations is expanding rapidly and requires trained professionals to conduct analysis and provide business insights. The Bachelor of Actuarial Science (Honours) will develop your data crunching skills and equip you to create practical solutions for real-world problems.

In this honours program, you will complete all the Part II (Actuary Program) subjects necessary to get accredited as an actuary by the Actuaries Institute. Part II accreditation requires the completion of two subjects delivered by the Actuaries Institute online. To become an accredited actuary, you must complete the honours program rather than just the Bachelor of Actuarial Science. An integral part of this degree is the development of research skills and actuarial judgement through the Actuarial Control Cycle subjects and the Actuarial Research Thesis subjects.

Key features

- Bond is one of seven universities in Australia and the only university in Queensland to be Accredited by the Actuaries Institute.
- Gain internationally-recognised Bloomberg certification used in the finance and banking sectors.

^ To be considered for entry, students should achieve an average minimum score of Credit in a relevant undergraduate degree.

Bachelor of Business Data Analytics

	Selection rank ATAR / IB*	Starting	Duration	Fees per semester**
CRICOS course code 0101005	80/28	Jan, May, Sep	6 semesters (2 years)	\$17,040

Technological change is happening faster than ever before, transforming business model norms. Experts who can gather information, crunch numbers, and use data-driven insights to improve business decision making are highly sought-after. The Bachelor of Business Data Analytics is focused on understanding how data analytics techniques can be used to inform business operations, and make and refine business decisions. It is a quantitative program, combining elements of statistics, computing, big data, and machine learning.

In this program, we teach students to understand the importance of data to modern businesses. The challenges of data analytics centre on the need for multiple disciplines to produce employable graduates who understand data analysis, capture, curation, search, sharing, storage, transfer, visualisation, and privacy.

Majors / specialisations

- Accounting
- Economics
- Entrepreneurship and Innovation
- Finance
- Management
- Marketing
- Tourism and Hotel Management

Professional outcomes

- Data analysis
- Data science
- Statistics

* Entrance scores provided are indicative only for 2025 admission and are subject to change.

** Fees per semester are based on an average calculation from 2024, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

Architecture

For the design makers and skyline shapers. For those who want to create the future with their very own hands.

Madelyne Orrock

DESIGN AND ARCHITECTURE BUFF. GOLD COAST LOCAL. NATURE LOVER.

I chose to study at Bond because...

The small class sizes, studio environment, and practical, hands-on approach really stood out to me. The access Bond students have to machines and cutting-edge technology, such as 3D printers, laser cutters, robots and CNC routing machines, is unparalleled and can only be found at a handful of architecture schools around the world.

In five years, I hope to be...

Travelling the world and networking with other architects to further my knowledge and refine my skills.

At Bond, I have been able to...

Think, design, and create effectively and efficiently due to the University's fast-paced, three-semester-per-year timetable.

Bachelor of Design in Architecture

Architects are responsible for envisioning and creating the world around us, from the smallest of dwellings through to complex megacities. The Bachelor of Design in Architecture provides a broad education in design, planning, construction, technology, and communication, in a creative studio-based environment. Students are encouraged to grow their design skills through a hands-on approach to the curriculum and access to state-of-the-art digital tools. This program provides the foundation for a career in a range of design and creative practice fields, with a specialisation in the discipline of architecture.

Key features

- Experience state-of-the-art technology including 3D printers, laser cutters, CNC routers, and industrial robots.
- Enjoy learning in small classes and a dedicated studio environment.
- Learn from industry-leading architects through tutorials, critiques, competitions, and the Architecture Lecture Series.
- Participate in our annual Design Charrette.
- Embark on international study tours.
- Gain theoretical and practical experience in design, problem solving, construction, and communication that can be applied to a wide range of careers.

Further study

- Graduate Diploma in Architecture (CRICOS 0101412)
- Master of Architecture (CRICOS 078184J)

To become a registered architect, you are required to complete both an undergraduate and postgraduate qualification as well as requisite work experience. Successful completion of the Bachelor of Design in Architecture will enable you to progress to the Master of Architecture (CRICOS 078184J).

Professional outcomes

A Bachelor of Design in Architecture could prepare you for:

- Building design
- Urban planning
- Interior and spatial design
- Architectural drafting
- Project architecture

Professor Paul Loh

INTERNATIONALLY RECOGNISED ARCHITECT, RESEARCHER, AND INNOVATOR. HEAD OF THE ABEDIAN SCHOOL OF ARCHITECTURE.

“Our open-plan studio-based culture emulates a real-world contemporary architecture office environment where students are encouraged to collaborate, experiment, test, and prototype ideas, integrating technical skills with critical thinking and disciplinary knowledge. The ethos of learning-through-making is core to our teaching. In this setting, we educate and nurture the future generation of architects, designers, and practitioners who will lead and shape our profession and impact our built environment.”

RMIT University and Architectural Association graduate

University of Melbourne Research Impact and Industry Collaboration and Innovation Award recipient

Multiplex Research Program Award winner

Wakeford Hall Competition first prize winner

START-UP FOUNDER. SPORTS FANATIC.
FUTURE ATHLETE TALENT MANAGER.

I chose to study at Bond because of...

The University's small class sizes which provide the opportunity to be known within the classroom and build personal relationships with your lecturers.

At Bond, I have been able to...

Form great friendships, as well as strong connections with organisations, through Bond's close-knit community.

In my spare time outside of my studies, I like to...

Work on my start-up business using some of the valuable knowledge I have gained in the classroom.

Bachelor of Business

\$17,040

Prepare yourself for leadership roles in today's global businesses with Bond's Bachelor of Business. Gain a comprehensive, multidisciplinary foundation that will prepare you to work as a business professional in varied business environments. Bond's three-semester-per-year study schedule means you will complete your qualification in just two years and emerge ready to tackle your industry of choice.

During your studies, you will design and run an actual business by applying the critical entrepreneurial, leadership, and teamwork skills you develop across your subjects. This exercise is fundamental in preparing you for the world of business, whether you strive to own your own business or play a major part in helping an established one succeed.

Key features

- Personal mentorship through the Bond Business Mentoring program, where you will be supported by a network of academic staff, senior students, and alumni.
- Unrivalled access to state-of-the-art learning resources including the Bond FinTech Hub, Commercialisation Centre, Centre for Data Analytics, and Transformer.
- Learn from experienced academics and industry practitioners from a diverse range of business backgrounds.
- Gain internationally-recognised Bloomberg certification used in the finance and banking sectors.

Further study

- Doctor of Philosophy (CRICOS 063150J)
- Master of Accounting (CRICOS 063115A)
- Master of Actuarial Science (CRICOS 108628M)
- Master of Business (CRICOS 063119G)

- Master of Business Administration (CRICOS 108627A)
- Master of Business Data Analytics (CRICOS 098313F)
- Master of Finance (CRICOS 063125K)
- Master of Financial Management (CRICOS 077990J)
- Master of International Hotel and Tourism Management (CRICOS 102620A)
- Master of Management (CRICOS 108626B)
- Master of Sport Management (CRICOS 096559M)

Majors / specialisations

- Entrepreneurship and Innovation
- International Business
- Management
- Marketing
- Marketing Communication
- Tourism and Hotel Management

Degree combinations

- Bachelor of Business / Bachelor of Commerce (CRICOS 088305M)

Bond's Bachelor of Commerce develops business analytics and data-driven decision-making skills, as well as leadership and management skills. In a global context that is increasingly uncertain and ambiguous, you will learn to solve complex problems, think creatively and critically, communicate professionally, work collaboratively, and make ethical and effective business decisions. Through experiential learning and authentic assessment tasks, you will develop practical, real-world skills to adapt and add value in today's dynamic and competitive business environment. Graduates often pursue roles in specialist fields such as accounting, financial planning, economics, investments, banking, stockbroking, research, and more. Commerce students have unparalleled access to facilities including the Bond FinTech Hub which houses 40 Bloomberg terminals, the most of any university in Australia.

Key features

- Gain a Bloomberg certification during your studies. Recognised in industry, a Bloomberg certification denotes a high level of competency using Bloomberg terminals and understanding core frameworks necessary to succeed in finance and banking.
- Complete an optional business internship as an elective subject.

Majors / specialisations

- Accounting
- Actuarial Science
- Data Analytics
- Economics
- Finance
- Entrepreneurship and Innovation
- International Business
- Management
- Marketing
- Marketing Communication
- Tourism and Hotel Management

Degree combinations

- Bachelor of Business / Bachelor of Commerce (CRICOS 088305M)
- Bachelor of Commerce / Bachelor of Laws (CRICOS 093908G)

Professional outcomes

Bachelor of Commerce graduates will be equipped to pursue careers in:

- Accountancy
- Financial planning
- Stockbroking

* Entrance scores provided are indicative only for 2025 admission and are subject to change.

** Fees per semester are based on an average calculation from 2024, and may differ depending on the subjects and majors you take in each semester. Jan, May, Sep

6 semesters

\$17,040

Entrepreneurialism is the skill of the future – the world of business is craving creative, innovative, and progressive approaches to traditional industry problems. With an emphasis on agility and a deep understanding of today's business needs, the Bachelor of Entrepreneurial Transformation builds these attributes from the ground up. The program is for anyone wanting to take the reins in their chosen industry and drive tangible change.

Throughout this program, students will build the knowledge and skills required to design transformative solutions to diverse global challenges. This program consists of discipline studies in entrepreneurial transformation, combined with transdisciplinary studies in design thinking, law, technology, and global citizenship as well as two personalised industry immersions and two tailor-made major projects.

Key features

- Apply skills, knowledge, and language to entrepreneurial mindsets across multiple sectors in the face of rapid and persistent technological change.
- Confidently lead and manage transdisciplinary teams and projects with industry partners.

- Use design thinking to solve problems, harness information, and facilitate informed decision making.
- Apply sound moral reasoning and appropriate legal and ethical judgment in diverse situations.

Degree combinations

- Bachelor of Entrepreneurial Transformation / Bachelor of Global Studies (Sustainability) (CRICOS 111522F)
- Bachelor of Entrepreneurial Transformation / Bachelor of Laws (CRICOS 111665B)

Professional outcomes

- App or platform development
- Business development consulting
- Business transformation
- Digital or social media marketing
- Industry disruption and innovation
- Intrapreneurship
- Program, project or partnerships management
- Start-up entrepreneurship

With more than 12 million visitors annually, there is no better place to study Hotel and Tourism Management than the Gold Coast – the tourism capital of Australia.

Bond's Bachelor of International Hotel and Tourism Management will prepare you for professional and managerial roles in the global tourism and hotel industries. You will develop the knowledge and skills required by managers in modern hospitality and tourism businesses with special emphasis on hotel, tourism and event operations, sustainable tourism, tourism industry analysis, revenue management, and human resource management.

Benefit from working in small supportive groups with dedicated teachers who bring a wealth of international academic and industry experience to the classroom.

In this degree there is an emphasis placed on practical and experiential learning through field trips, industry experience, internships which can be taken concurrently during your studies, and real-life case studies.

Key features

- Undertake industry projects and internships throughout your studies through our connections with international tourism organisations like Marriott, Accor, Hilton, InterContinental, and Wyndham.
- Personal mentorship through the Bond Business Mentoring program, where you will be supported by a network of academic staff, senior students, and alumni. Undertake an Industry Experience Placement or an Employment Activity as part of the Beyond Bond program.

- Unrivalled access to state-of-the-art learning resources including the Bond FinTech Hub, Commercialisation Centre, Centre for Data Analytics, and Transformer.
- Learn from experienced academics and industry practitioners from a diverse range of business backgrounds.

Majors / specialisations

- Entrepreneurship and Innovation
- International Business
- Management
- Marketing
- Marketing Communication

Professional outcomes

- Tourism
- Event management
- Venue and facilities management
- Guest experience management

Whether you're an elite athlete, a casual competitor, or a keen spectator, you can turn your love of sport into a dream career with Bond's sport-focused degrees. This is the perfect chance to position yourself for a role at the 2032 Brisbane Olympic Games!

A Bachelor of Sport Management combines the core business fundamentals of management, marketing, negotiation, and human resources, with sports-specific skills in event management, sponsorship, public relations, governance, and sport law.

Studying Sport Management at Bond Business School is a dynamic, hands-on experience, working in small, personalised classes with teachers who know the business of sport from the inside. They don't like being confined to the classroom any more than you do and will have you working on events, with local and national sport organisations, with high performance athletes and professional sporting teams.

You will get the best of both worlds as a Bond Business School student, with access to the Centre for Data Analytics, the Bond Business Mentoring Program and Transformer.

Key features

- Personal mentorship through the Bond Business Mentoring program, where you will be supported by a network of academic staff, senior students, and alumni.

- Practical experience on and off-campus through internships, work placements and event volunteering. Gain exposure to national and international sport organisations such as Australian rules football, the rugby codes, WSL and a variety of Olympic and other sports based on the Gold Coast.
- Unrivalled access to state-of-the-art learning resources including the Bond FinTech Hub, Commercialisation Centre, Centre for Data Analytics, and Transformer. Learn from experienced academics and industry practitioners from a diverse range of sporting and business backgrounds.

Professional outcomes

Bachelor of Sport Management graduate may choose to pursue careers in:

- Commercial partnerships
- Sport development
- Sport marketing
- Community sports

Diploma of Business

Communication, film and creative media

For the creative souls, storytellers, and deep thinkers. For the digitally minded, the ones who always have an idea to share.

Mischa Rowson

COMMUNICATION STUDENT. PERTH RESIDENT. FUTURE PR GUN.

I chose to study communication because...

I wanted to study something that allowed me to be hands-on and develop my creativity.

During my studies I have been able to...

Work with real clients and briefs. The experience I have gained and the connections I have made with friends, academics and professionals have exceeded all my expectations.

If you're considering moving interstate for university, my advice is...

Don't let anything hold you back! Even though it may seem scary, moving interstate to study at Bond is one of the best things I've ever done.

See what Mischa learnt today

The Bachelor of Creative Arts is an innovative program that tailors its offerings to your unique ambitions and interests. The personalised nature of the program empowers you to identify your own ambitions, then equips you with the skills, theory, and practice to navigate existing pathways – or design your own. Bachelor of Creative Arts students will begin with a creative writing foundation to develop a range of skills in creative thinking and narrative. You will also select a specialist creative major. Within the creative specialisation, you will learn through a hands-on, project-based approach, where you are encouraged to develop industry relationships, undertake creative internships and practice, and publish within your chosen creative niches. The ultimate flexibility of the Bachelor of Creative Arts enables students to ground their creative endeavours within an additional major from humanities or business. In the final stages of your degree, you will have the opportunity to develop a capstone creative work project, knitting your three selected content areas together into a major portfolio piece that showcases your skills and talents.

Creative major options

- Advertising
- Communication
- Corporate Storytelling
- Digital Media
- Film and Television

The Bachelor of Film and Television is a profoundly interactive and project-based degree which blurs the boundaries between education and industry. Designed in a way that balances practical filmmaking production experience with creative practice theory, it encourages students to explore and develop their individual creativity and artistic voice. This comprehensive filmmaking program is focused on visual storytelling through the key creative areas of producing, screenwriting, directing, cinematography, editing, sound design, production design, and television broadcasting. Our academics boast extensive professional careers in the film, television and screen-based industries.

Students acquire skills in modern production techniques, using professional filmmaking equipment and technologies. They develop strong visual aesthetics and storytelling capabilities, and receive insight into the business and industrial aspects of the international film, television, and screen industries.

Subjects

- Sound Production & Design
- Screenwriting Short Fiction
- Image, Photography & Visual Design
- Screen Style & Storytelling
- Live Television Broadcasting
- Screen Business – Producing Screen Content
- Directing Actors
- Cinematography Style & Design
- Screen Editing
- Short Screen Project & Industry Protocol

- Advanced Screenwriting
- Advanced Cinematic Storytelling
- Advanced Screen Business (Project Development)
- Factual & Documentary Production
- Graduation Screen Project

Specialisations

- Filmmaker (Fiction)
- Directing (Fiction)
- Directing (Non-Fiction)

The greatest evolution of the past few decades is the digital landscape, which has accelerated at breakneck speed. From robotics and artificial intelligence to blockchain and big data, there is so much to be mastered within the digital space. Graduates of Bond's Bachelor of Digital Transformation will be uniquely prepared to face the challenges of almost any industry head-on, equipped with the skills and attributes required to create effective change.

This program fosters digitally literate graduates with technical and non-technical capabilities, readying them to advise on, manage, and lead largescale projects. It combines discipline studies in digital transformation with transdisciplinary studies in design thinking, law, technology, and global citizenship, as well as two personalised industry immersions and two tailor-made major projects.

Key features

- Design digital transformation programs using design thinking principles.
- Identify opportunities, challenges, and tactics for improving digital workplaces.

- Explore professional development and certification in the growing digital industry.
- Demonstrate increased personal and organisational digital maturity across more than 50 digital capabilities.

The Bachelor of Journalism is driven by a digital-first ethos and is grounded in the core journalistic traditions and values of truth, fairness, and accuracy. This approach empowers students to harness and exploit established and emerging technologies to create career opportunities and new pathways. Students learn to conceptualise and create original, compelling content across platforms and are encouraged to use digital storytelling to engage with social issues and advocate for change. Throughout their degree, students build a substantial portfolio of practical work aligned with industry standards, in the process defining themselves as specialised professionals via a choice of majors and minors. Students have access to world-class facilities and opportunities to report for local, national, and international media outlets. We offer journalism and digital media internships in Australia and abroad in cities including New York, Washington, Beijing, and London.

Key features

- Access tailored study opportunities with a choice of 20 specialist majors.
- Learn practical and relevant skills from experienced industry professionals.
- Enjoy an enhanced learning experience through small classes and accelerated degree options.

Dr James Birt

ASSOCIATE DEAN OF EXTERNAL ENGAGEMENT. DIGITAL EXPERT. LINKEDIN INFLUENCER. ESPORTS ENTHUSIAST.

"Something that makes Bond's communication, film and creative media programs unique is our focus on student-led passion and holistic learning. We challenge students with authentic, industry-driven projects that incorporate not just the theory, but the deep, applied vocation that supports students' goals - employment, networking, and lifelong learning. I enjoy the opportunity to be a mentor and shift the classroom dynamic from student-teacher to cworking colleagues, embracing innovation and communication together."

2019 and 2014 Universities Australia citation recipient

International Organization for Standardization (ISO) and Standards Australia Committee working group for Augmented and Virtual Reality member

Member of the editorial board of Springer Educational Technology Research and Development

SUBJECT IN THE SPOTLIGHT

Gold Coast Surf, Culture, and Storytelling

Learn to surf, visit the headquarters of the World Surf League, gain cultural awareness, meet world-famous surfers, and use your smartphone underwater for surf photography and videography in this one of the many innovative, experiential subjects offered at Bond.

Construction, Property & Planning

For the creators and city makers.
For those who want to shape the
future of our homes,
communities, and cities.

Lachlan Creese

PROPERTY STUDENT. ASPIRING ENTREPRENEUR.
TRANSFORMER LAUNCHPAD COMPETITION WINNER.

My favourite thing about studying property is...

The diversity of all that I get to learn, and the high-quality lecturers that I have. I am taught much more than just the basic textbook knowledge; I get to gain industry experience first-hand.

At Bond I have...

Learned that just because I have come from a small town does not mean that I need to have small dreams. I now dream big and recognise that the sky isn't even the limit.

As part of the Transformer program I have...

Had the support to start my business, The Grounded Company, which originally started as an idea to turn used coffee grounds into new products and increase their lifecycle. I have also assisted a local business to turn coffee grounds and other by-product waste into compost. I am helping them to establish their brand and bring their product to market through my business. The business is now evolving into an eCommerce platform for other small businesses to sell their products.

Bachelor of Construction Management and Quantity Surveying

CRICOS course code 078183K

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

65 / 24

Jan, May, Sep

6 semesters
(2 years)

\$17,040

The Bachelor of Construction Management and Quantity Surveying covers a comprehensive range of subjects, focusing on the management and delivery of complex construction projects. The curriculum addresses a range of topics including construction technology, construction techniques, plant and equipment management, site management, contract administration, building measurement, planning processes, and risks. The practical experience shared in this program ensures graduates are able to apply innovative and adaptable solutions within complex environments – skill sets that are highly sought-after by the construction industry.

Key features

- Learn in the University's Sustainable Development Precinct, which promotes the sustainable practices of tomorrow.
- Graduate with a professionally recognised qualification.
- Apply theoretical knowledge learnt in the classroom to practical settings.

Professional recognition

Graduates are internationally recognised by the Royal Institution of Chartered Surveyors (RICS) and the Chartered Institute of Building (CIOB). This program is nationally accredited with the Australian Institute of Quantity Surveyors (AIQS), and meets the educational requirements set by the Queensland Building Construction Commission (QBCC) for the granting of an Open Builders Licence.

Further study

- Master of Project Management (CRICOS 078813G)
- Master of Building Information Modelling and Integrated Project Delivery (CRICOS 099719J)
- Master of Building Surveying (CRICOS 071287C)

Professional outcomes

- Construction management
- Estimation
- Quantity surveying
- Property development
- Contract administration
- Building services

The Bachelor of Property covers a comprehensive range of subjects within the property development and management industry, including construction practices, feasibility studies, finance, investment and valuation, property markets, sustainable development, and urban development. This program also provides students with the opportunity to specialise in property valuation.

Key features

- Gain professional accreditation from some of the property industry's leading professional bodies.
- Learn from nationally and internationally recognised industry professionals.
- Graduate sooner with Bond's accelerated degrees and kickstart your career.

Professional recognition

The Royal Institution of Chartered Surveyors (RICS) and the Australian Property Institute (API) recognise graduates as academically qualified. Graduates are then eligible to apply to be

professionally recognised by RICS and by the API as Registered Valuers and as Certified Practising Valuers (CPV) respectively, after a relevant professional practice period. These qualifications enable application for valuer registration by the Valuers' Registration Board of Queensland.

Further study

- Master of Project Management (CRICOS 078813G)

Professional outcomes

- Certified property valuation
- Property research and development
- Development management
- Portfolio management

* Entrance scores provided are indicative only for 2025 admission and are subject to change.

Jan, May, Sep

2 semesters
(8 months)

\$17,040

The Diploma of Built Environment provides a foundation for a career in various property sectors. This program enables you to specialise in either property or construction management and quantity surveying.

Key features

- Complete your diploma in just eight months.
- Integrate into the Bond University environment from day one.
- Enjoy the support of extra tutorials just for diploma students.
- Articulate into a corresponding Bond undergraduate program^.

Further study

The Diploma of Built Environment is a two-semester program that allows you to complete a qualification in just eight months. Upon successful completion of the diploma, you can pathway into the third semester of a Bond University undergraduate degree with a potential 80 credit points.

Professor Alan Patching

PROJECT DIRECTOR OF SYDNEY OLYMPIC STADIUM. PASSIONATE MENTOR. DIRECTOR OF INDUSTRY ENGAGEMENT.

"It's hard to imagine a better time to pursue a career in the construction, property and planning fields. The market is currently very strong, and with the Brisbane Olympics less than 10 years away, I strongly suspect these sectors will continue with vigour, and that will translate to ongoing opportunity for employment and rewarding careers. Bond's programs are delivered by experienced academics, many with substantial practical experience, which means students can be assured of cutting-edge information based on the very latest research and industry findings."

* Entrance scores provided are indicative only for 2025 admission and are subject to change.

** Fees per semester are based on an average calculation from 2024, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees.

Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

Biomedical science is the interface between science and medicine. It is the science of how the body works, what happens when it goes wrong – and why – and is the backbone of scientific developments and advances in medicine and healthcare.

The Bachelor of Biomedical Science offers a pathway to medicine, allied health and scientific research degrees. You will develop an understanding of the molecular, cellular, anatomical, and physiological processes that occur in the human body.

Working in laboratories from your first week, you will analyse case studies and apply problem-solving techniques in a variety of clinical, research and allied healthcare settings. You will also develop important health communication skills.

Our small classes allow unrivalled access to the latest research equipment, learning under the supervision of our dedicated laboratory and research staff.

Bond's Bachelor of Biomedical Science is the fastest pathway to a career in medicine, physiotherapy, nutrition and dietetics, occupational therapy, healthcare innovations and medical research. With Bond's three-semester-per-year timetable, you can complete this degree in just two years and progress seamlessly into our postgraduate health sciences programs.

Key features

- Undertake the fastest pathway to a postgraduate qualification in physiotherapy, occupational therapy, nutrition and dietetics, healthcare innovations, or medical research.
- Receive unrivalled access to laboratories and personal support from dedicated laboratory staff.
- Learn in a dynamic and interactive environment using virtual reality and augmented reality technologies.

Entry requirements

- English
- Either Mathematical Methods or Physics or equivalent

Majors / specialisations

- Laboratory / Research
- Pre-Health Professional

Further Study

Bachelor of Biomedical Science graduates who meet the necessary entry requirements, may apply for the following Bond University programs:

- Doctor of Physiotherapy (CRICOS 111801K)
- Master of Nutrition and Dietetic Practice (CRICOS 105326E)
- Master of Occupational Therapy (CRICOS 106625H)
- Master of Healthcare Innovations (CRICOS 099578F)

Domestic and international students eligible to graduate from the Bond University Bachelor of Biomedical Science (in the Pre-Health Professional major) who meet the GPA requirements will be eligible to be considered for lateral entry into Year 2 of the Bachelor of Medical Studies (CRICOS 0101292) at Bond.

High-achieving students may qualify to complete one of our two Honours programs: The Bachelor of Health Sciences (Honours) (CRICOS 063044M) or Bachelor of Health Sciences (Honours, Intensive) (CRICOS 108815H). Completing one of these Honours programs is a prerequisite for entry into Higher Degree by Research programs.

Professional outcomes

- Laboratory technician
- Clinical researcher
- Research scientist
- Pathology services
- Pathways to other health professions
- Medical research

This program is based primarily at Bond's Varsity Lakes campus, with some subjects taught at the Bond Institute of Health & Sport at Robina.

Bachelor of Exercise and Sports Performance

If you are a keen sportsperson, exercise fanatic, or interested in human movement, a degree in Exercise and Sports Performance can put this passion into practice.

Bond's Bachelor of Exercise and Sports Performance lays the foundations for a fast-paced career in sport, athletic performance, exercise, or health science. You will be exposed to real-world learning through small group work and active learning.

Drawing on the faculty expertise from the Health Sciences and Medicine, Society and Design and Bond Business School, this degree combines the anatomical sciences and physiology of sports performance with the flexibility to tailor your studies to your interests in areas such as entrepreneurship and innovation, sport management or tourism and events management.

The program is taught across the Bond Institute of Health & Sport, where you will gain exceptional practical experience in our award-winning high-performance gym, health science laboratories and sport research laboratories, and the University's Varsity Lakes campus.

Gain career-ready experiences and complete the Bachelor of Exercise and Sports Performance in just two years, with the opportunity to pathway into physiotherapy, occupational therapy and nutrition and dietetics.

Entry requirements

- English
- General Mathematics (or higher) or equivalent
- One (1) of Chemistry, Physical Education, Physics or Biology

Further study

Bachelor of Exercise and Sports Performance graduates who meet the necessary entry requirements, may apply for the following Bond University programs:

- Doctor of Physiotherapy (CRICOS 111801K)
- Master of Nutrition and Dietetic Practice (CRICOS 105326E)
- Master of Occupational Therapy (CRICOS 106625H)
- Master of Healthcare Innovations (CRICOS 099578F)
- You may also opt to undertake higher degree qualifications in areas such as strength and conditioning through research-based honours studies, leading to a PhD.

Professional outcomes

- Community or corporate settings (disability, aged care, workplace wellness)
- Sport and fitness
- Education
- Research

* Entrance scores provided are indicative only for 2025 admission and are subject to change.

** Fees per semester are based on an average calculation from 2024, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

Combine your interest in sport with the knowledge and understanding of how cells, organ systems and the body, respond to exercise and nutrition through a degree in exercise and sports science.

Bond's Bachelor of Exercise and Sports Science looks at the science of human movement and how it relates to performance and sport at the highest levels.

From day one, you will dive deep into human anatomy, exercise and sport physiology, exercise biochemistry and molecular biology, biomechanics, motor learning and control, and exercise and sport psychology.

Engage with and deliver a wide range of athlete testing, performance analysis, exercise prescription and delivery for healthy individuals and non-athletes, as well as strength and conditioning programs for elite athletes.

The program is delivered across the Bond Institute of Health & Sport, where there is the potential to observe and work with elite athletes and professional state, national and international teams who come to use the Institute's High-Performance Training Centre and the University's Varsity Lakes campus.

Adding to the hands-on nature of your learning experience, you will complete a minimum of 140 hours of placements in a variety of national and international sport, exercise, fitness, and healthcare environments, providing you with valuable work experience before commencing your career.

Complete the Bachelor of Exercise and Sports Science in just two years, with the opportunity to pathway into physiotherapy, occupational therapy and nutrition and dietetics.

Entry requirements

- English
- General Mathematics (or higher) or equivalent
- One (1) of Chemistry, Physical Education, Physics or Biology

Further study

Students who complete the Bachelor of Exercise and Sports Science, and meet the necessary entry requirements, may apply for the following Bond University programs:

- Doctor of Physiotherapy (CRICOS 111801K)
- Master of Nutrition and Dietetic Practice (CRICOS 105326E)
- Master of Occupational Therapy (CRICOS 106625H)
- Master of Healthcare Innovations (CRICOS 099578F)
- You may also opt to undertake higher degree qualifications in areas such as strength and conditioning through research-based honours studies, leading to a PhD.

Professional outcomes

- Accredited Exercise Scientist (AES)
- Private or public sector (health policy / program planning)
- Education

Bond's Bachelor of Health Sciences is a broad-based degree covering a wide variety of disciplines within the health sciences field, while offering plenty of flexibility to tailor your studies to suit your interests.

You will be equipped with the fundamentals of applied sciences, including the anatomical, molecular, physiological, and psychological processes of the human body and have the opportunity to dive deeper into specific interests by choosing electives in fields such as sport and exercise science, psychology, nutrition, biomedical science, and healthcare informatics.

Develop and fine-tune your technical scientific and research skills with hands-on practical work through real world situations and case studies. With unrivalled access to our state-of-the-art health science and human movement laboratories, you will graduate prepared for career opportunities in the healthcare sector. If you are data-driven and tech-savvy, you may wish to major (or minor) in Healthcare Informatics; the science of how to use data, information, and knowledge in an innovative way to improve human health and the delivery of healthcare systems.

Complete the Bachelor of Health Sciences in just two years and progress into our postgraduate health sciences programs in occupational therapy, nutrition and dietetics, healthcare innovations or medical research.

Degree combinations

- Bachelor of Health Transformation / Bachelor of Health Sciences (CRICOS 107261A)

Further study

Students who complete the Bachelor of Health Sciences, and meet the necessary entry requirements, may apply for the following Bond University programs:

- Doctor of Physiotherapy (CRICOS 111801K)
- Master of Nutrition and Dietetic Practice (CRICOS 105326E)
- Master of Occupational Therapy (CRICOS 106625H)
- Master of Healthcare Innovations (CRICOS 099578F)

High-achieving students may qualify to complete one of our two Honours programs: The Bachelor of Health Sciences (Honours) (CRICOS 063044M) or Bachelor of Health Sciences (Honours, Intensive) (CRICOS 108815H). More than ever before, the contemporary healthcare system needs professionals who can provide leadership, manage change, and bring entrepreneurial thinking to public, private or community-based settings.

This new healthcare landscape incorporates the latest technologies, sophisticated practice management systems and platform integration across multiple tiers of service providers, government departments and not-for-profit organisations.

Bond's Bachelor of Health Transformation is designed to create professionals who have the leadership, communication and management skills required to support the delivery of modern healthcare services.

Throughout this program, students will build the knowledge and skills required to design transformative solutions to diverse global health challenges. The program consists of discipline studies in health sciences, combined with transdisciplinary studies in design thinking, law, technology and global citizenship, as well as two personalised industry immersions and two tailor-made major projects.

Key features

- Lead and manage transdisciplinary teams and projects.
- Design, propose and apply innovative solutions to real healthcare challenges.
- Think critically about the changing demands that society will place on health systems in the future.
- Innovate beyond traditional modes of healthcare delivery by linking consumer expectations, public needs, and health sector outcomes.
- Apply collaborative and adaptive approaches to transcultural, ethical, and sustainable changes in healthcare.
- Apply principles of advocacy and social entrepreneurship to address healthcare issues.

Degree combinations

- Bachelor of Health Transformation / Bachelor of Health Sciences (CRICOS 107261A)

Professional outcomes

- Clinical informatics specialist
- Digital health educator
- Health campaign manager
- Health sector consultant
- Healthcare communications specialist

Whether you're looking for a pathway to an undergraduate degree or contemplating a career change, Bond University College's Diploma programs are the ideal steppingstone to university studies.

To help you manage your transition to study, our flexible program allows you to customise your subject load – starting with one or two subjects part-time and building to full-time as your confidence grows. Alternatively, you can complete the diploma in just eight months studying full-time and start your chosen bachelor's degree at the third semester mark.

The Diploma of Health Sciences has two pathways a) Biomedical Science (Pre-Health) and b) Exercise and Sports Science, with subjects credited towards your preferred Bond University program. The Diploma of Health Sciences is a direct pathway into undergraduate studies in health sciences, biomedical science, exercise and sports science, and exercise and sports performance. It offers a broad foundation in biological and chemical sciences where you will develop an understanding of the anatomical, molecular, and physiological processes of human health and function.

One of the key benefits of opting to start your university studies with a Diploma is the extra support Bond University College offers. You'll be well prepared for academic study in your first few weeks with an intensive skills program that covers essay writing, critical reading, study techniques, time management and more; there's more

face-to-face teaching time in small group classes; and you'll have access to one-on-one tutoring, workshops and targeted study help through the Academic Skills Centre.

Key features

- Complete your diploma in just eight months.
- Integrate into the Bond University environment from day one.
- Enjoy the support of small, personalised classes as well as access to our Academic Skills Centre, one-on-one tutoring, and workshops.

Further study

Successful completion of the Diploma of Health Sciences guarantees students a place in Bond's Bachelor of Health Sciences (CRICOS 063068C), Bachelor of Biomedical Science (CRICOS 063085B), Bachelor of Exercise and Sports Science (CRICOS 080641D) or the Bachelor of Exercise and Sports Performance (CRICOS 0100510) with subjects credited towards their degree.

The Diploma of Health Sciences is also a pathway into other bachelor's degrees with varying credit available.

Professional outcomes

This pathway can pave the way to a future career in health, sport & nutrition, medicine, movement and rehabilitation.

Neil Chapman

ACCREDITED EXERCISE PHYSIOLOGIST AND
ACCREDITED EXERCISE SCIENTIST. ASSISTANT
PROFESSOR. RESEARCHER.

“One of the things I love about teaching sports and exercise science at Bond is the fact that due to our boutique program, I get to know each of my students throughout their degree. Seeing all of my students grow as individuals is very rewarding. I enjoy the hands-on and practical nature of face-to-face classes and, of course, the use of world-class facilities at the Bond Institute of Health & Sport.”

* Entrance scores provided are indicative only for 2025 admission and are subject to change.

** Fees per semester are based on an average calculation from 2024, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

International Relations, Politics & Arts

For the globally minded; the citizens of the world. For those who want to create a better, more connected, and understanding world.

Ella Kirk

INTERNATIONAL RELATIONS / LAW STUDENT.
AVID TRAVELLER. GLOBAL CITIZEN.

During my time at Bond I have...

Participated in so many extra-curricular activities! From international Model United Nations conferences in Japan, to international moots, and getting involved in various student associations – I've taken every opportunity that has come my way. Involving myself in these activities has helped me to make lifelong friends, develop organisation and communication skills, and make valuable professional connections.

My advice to high school students considering their university options is...

Think about what you want to get out of your education. If you value close relationships with other students and academics, personalised learning, practical skills development opportunities and an excellent campus environment, Bond would be a great choice for you.

You should choose a program that...

You are passionate about and can see yourself working in. But remember that your degree doesn't lock you in to a particular industry or position. Study something you will enjoy and be able to dedicate time and energy to. There's nothing worse than studying a degree that does not excite you.

Bachelor of Arts

The Bachelor of Global Studies (Sustainability) is a unique interdisciplinary degree that will equip you with the knowledge and skills to tackle the challenges of globalisation and contribute to the development of sustainable societies. The program structure looks at a broad range of issues related to world megatrends including climate change, sustainable development, global health and disease, and transnational business. The program also aims to develop the global dialogue needed for the security of globalised communities, with required competencies in international relations, diplomacy, and intercultural partnerships.

Key features

- Tailor your degree to your interests with a specialist major.
- Gain practical experience and industry contacts with a for-credit internship or capstone project.
- Explore career prospects in diverse areas such as agriculture, community development, or international diplomacy and trade.

Subjects

- Introduction to International Relations OR Geopolitics
- Diplomacy: Theory and Practice
- World Languages
- International Business
- Climate Change and the Future World
- Sustainable Development and Society
- Contemporary Globalisations
- Land Use and Infrastructure Development OR Land Economy and the Environment OR Walkable and Bikeable Healthy Lifestyle Cities
- Terrorism
- Global Health Issues

- Capstone or Internship
- World Literature

Majors / specialisations

- International Relations
- Cyber Security
- Digital Media
- Global Business
- Australian Studies[^]
- Language and Culture[^] (choice of either Chinese, French, Japanese, or Spanish)

Degree combinations

- Bachelor of Entrepreneurial Transformation / Bachelor of Global Studies (Sustainability) [CRICOS 111522F]

Further study

- Graduate Certificate in International Relations (CRICOS 107662F)
- Graduate Certificate in Environmental Consulting ~
- Master of International Relations (CRICOS 078661G)
- Master of Arts (Coursework) [CRICOS 078662F]

Professional outcomes

The Bachelor of Global Studies (Sustainability) increases understanding of critical sustainability issues in both local and global contexts. Graduates of this program can expect to find employment opportunities across a range of fields including government, public service, politics, conservation, community development, agricultural and fisheries enterprises, environmental impact assessment, ethical supply chain management, defence, diplomacy, and trade.

Bachelor of International Relations

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 063074E

65 / 24

Jan, May, Sep

6 semesters

\$17,040

The Bachelor of International Relations will prepare you for a fascinating career in a globalised world. Global and regional interdependence means that no state is unaffected by developments beyond its borders, and prosperity and security are based on international orientations. This program explores a rich variety of interconnected global issues and the factors that shape them, including war and peace on our planet, human security, diplomacy, governance, and the influence of climate change on the future world. You will gain insight into politics, economics, and diplomacy both in Australia and other regions.

Key features

- Complete your Bachelor degree in just two years, or a Bachelor and Master in three.
- Gain an insight into geopolitics, economics, and diplomacy in key geographic regions.
- Participate in simulation-based learning.
- Develop global connections by participating in the international Model UN program and undertaking global internships and industry placements.
- Learn in small classes, mentored by globally experienced academics and experts.

Subjects

Students select 12 subjects from the following list:

- Climate Change and the Future World
- Introduction to International Relations
- Geopolitics
- Hacking, Networks and Security
- Public Policy
- The United Nations
- Public Diplomacy and Social Media
- Political Economy
- Peace and War
- The Americas
- Terrorism
- International Model United Nations and Study Tour^
- China's Defence Policy
- Eurasia
- Australia and the Asia-Pacific
- Diplomacy: Theory and Practice
- Contemporary Globalisations
- The New Europe
- Africa and the Middle East
- Asia's Rising Powers
- World Languages
- Political Philosophy: Freedom, Justice and the State

Majors / specialisations

- Diplomacy
- People & Culture
- Regional Studies
- Global Studies (Sustainability)
- Cyber Security
- Communication
- Journalism

Degree combinations

- Bachelor of International Relations / Bachelor of Business (CRICOS 088310C)
- Bachelor of International Relations / Bachelor of Laws (CRICOS 093916G)

Further study

- Graduate Certificate in International Relations (CRICOS 107662F)
- Master of International Relations (CRICOS 078661G)
- Master of International Relations / Master of Project Management (CRICOS 088317G)

Professional outcomes

The Bachelor of International Relations allows students to develop a global outlook and balance diplomatic experiences with international relations theory, allowing for the exploration of the modern international environment. Graduates of this program can seek employment opportunities in a range of sectors including defence, diplomacy, tourism, trade, international business, media, humanitarian agencies, and the United Nations.

Bachelor of Policy, Philosophy and Economics

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 0101956

70 / 25

Jan, May, Sep

6 semesters

\$17,040

The Bachelor of Policy, Philosophy and Economics is designed for those who want to make a meaningful contribution to society through public governance, public leadership, and ultimately, public influence. Encompassing subjects from the Faculty of Law, Bond Business School and the Faculty of Society & Design, this truly multi-disciplinary program will prepare you for the fast-paced global demands of the 21st century. You will study the global challenges faced by changing institutional and geopolitical structures, search for practical solutions, and draw on theory and history from economics, law, and international relations, all set within the context of dynamic and multicultural value systems.

Key features

- Study in a multi-disciplinary program encompassing subjects from the Faculty of Law, Bond Business School, and the Faculty of Society & Design.
- Gain a broad perspective on policy, philosophy, and economic issues.
- Learn the skillset required to adapt to the changing world and bring great value to a workplace.
- Access state-of-the-art resources.
- Enjoy the flexibility of choosing up to five elective subjects.

Subjects

- Accounting Principles
- Principles of Economics
- Macroeconomics
- International Trade
- Introduction to International Relations
- Public Policy

- Public Diplomacy and Social Media
- Political Economy
- Legal Foundations A
- Legal Foundations B
- Contemporary Issues in Law and Society
- Australian Government and Politics
- Introduction to Philosophy
- Understanding East Asian Cultures
- Ethics and the Good Life
- Political Philosophy: Freedom, Justice and the State

Degree combinations

- Bachelor of Policy, Philosophy and Economics / Bachelor of Laws (CRICOS 107260B)

Further study

- Graduate Certificate in International Relations (CRICOS 107662F)
- Master of International Relations (CRICOS 078661G)
- Master of International Relations / Master of Project Management (CRICOS 088317G)

Professional outcomes

Designed for students who want to help create a more just, peaceful, and prosperous world. Graduates of this program will be equipped for future roles in the public sector, including career opportunities in the public service, politics, public policy institutes, advocacy groups, and the not-for-profit sector.

Diploma of Arts

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 0101729

50

Jan, May, Sep

2 semesters

\$17,040

The Diploma of Arts opens up a wide range of career opportunities and further undergraduate study in disciplines including communication, creative arts, film and television, global studies (sustainability), humanities, international relations, journalism, psychological science, and social science. The Diploma of Arts will teach you core skills to enhance your career prospects, whether you are fresh out of school or are seeking to upgrade your qualifications.

Key features

- Transition directly into the third semester of more than a dozen undergraduate degrees offered by the Faculty of Society & Design.
- Benefit from the extensive support of our Academic Skills Centre, including one-on-one tutoring and workshops.
- Ease into study by starting with a part-time study load.
- Enjoy access to all University facilities including one of the largest film and TV production facilities in South-East Queensland, and labs equipped with VR, AR, and 3D printing facilities.
- Ask questions and get all the help you need in our small, personalised classes.

Subjects

- Introduction to Communication
- World Languages
- Introduction to International Relations
- Foundations of Content Creation
- Personal Development Portfolio
- Critical Thinking and Communication
- Responsibility, Integrity and Civic Discourse
- Collaboration for Global Change

Further study

Successful completion of the Diploma of Arts guarantees students a place in most undergraduate degrees at Bond University, with a possible 80 credit points credited towards their new program. Students are advised to check their chosen degree's study structure online to confirm which subjects they may receive credit for.

Professional outcomes

Equips students with a broad set of foundational skills, which are essential to all professions in both creative and corporate environments. By pairing this program with further undergraduate study, graduates can pursue career opportunities in communications, film, creative media, international relations, politics, and arts.

* Entrance scores provided are indicative only for 2025 admission and are subject to change.

** Fees per semester are based on an average calculation from 2024, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

- Climate and Environment Law
- Communication & Society
- Communication
- Health and Sustainability
- Digital Media
- Global Studies (Sustainability)
- International Relations
- Journalism
- Project Management
- Public Relations
- Sustainable Architectural Design

Sustainable Action Capstone

- Capstone Project and/or Internship Placement

Further study

- Graduate Certificate in Environmental Consulting~
- Master of International Relations (CRICOS 078661G)
- Master of Project Management (CRICOS 078813G)

Professional outcomes

- Sustainability manager
- Climate policy analyst
- Climate change consultant
- Renewable energy advisor
- Climate communications manager
- Sustainable business strategist

Dr Mark Dinnen

ASSISTANT PROFESSOR. INTERNATIONAL RELATIONS EXPERT. MODEL UN ADVOCATE.

“Studying international relations at Bond is much more than just learning from textbooks - it’s an opportunity for students to embrace the world around them! There are so many opportunities at Bond designed to reinforce classroom learning with global experiences. Which country would you like to visit on exchange? What kind of international internship could accelerate your career? How can our model UN program enable you to travel the world and engage in multicultural, collaborative learning? Instead of just reading about IR topics and principles at Bond, you’ll experience them firsthand through simulations and real-world applications.”

Bond University alumnus

Leads Bond University’s multi-award-winning Model UN team

Winner of the 2018 Vice Chancellor’s Award for Outstanding Contribution to Student Learning Through Sustained Innovation

Recipient of a 2018 Award for Teaching Excellence Citation from the Australian Awards for University Teaching

2020 Vice Chancellor’s Early Career Teaching Excellence Award

SPOTLIGHT ON:

The Bond University High School Model United Nations (BUHMUN)

The Bond University High School Model United Nations (BUHMUN) is a two-day conference where high school students embrace the role of a modern diplomat. During the immersive experience, students will represent a country's position in simulated international debates addressing the world's most pressing issues.

BUHMUN was Australia's first university-run model united nations for high school students, and has been running since 2017.

When: Tuesday, 7 and Wednesday, 8 May

Topic: BUHMUN 2024 will focus on two United Nations Sustainable Development Goals (SDGs): 10 - reduced inequalities, and 13 - climate action.

Where: Bond University

Law

For the argument winners and critical thinkers. For those who value the truth and want to see justice in action.

Cameron Vele

ARTS AND LAW STUDENT. TOUCH FOOTBALLER. BONDY.

My experience at Bond has been...

Personalised, practical, and hands on. I have never been in a tutorial or forum where my professor didn't know who I was. Before starting at Bond, I didn't realise exactly how much being able to chat with your academic, or ask questions after class, actually helps with your academic performance. Bond has provided me with a student experience and network like no other.

In my opinion, Bondies are...

Friendly and welcoming, with an unwavering commitment to reaching their goals. I haven't yet encountered a Bond student who hasn't achieved their goals or isn't actively fulfilling their dreams.

My advice to high school students considering studying law is...

Tackle everything that is thrown at you head on, and don't let any opportunity pass you by. Bond provides so many opportunities for high school students that set you up for tertiary education – seize them all and have no regrets. And, enjoy your final year of high school and try to find that balance between studying hard and spending quality time with your mates.

Bachelor of Laws

Bond's Bachelor of Laws program is designed to prepare you for a career in the legal profession, corporate sector, or government sector in Australia. The combination of excellent teaching, small class sizes, and an extensive legal skills program provides an exciting learning experience that both challenges you academically and prepares you practically for a legal career.

Our unique Integrated Skills and Professionalism Program is embedded in the Bachelor of Laws and focuses on core legal skills essential to the practice of law. These skills include:

- Dispute resolution and collaboration
- Legal ethics and professionalism
- Legal research and reasoning
- Legal writing and drafting
- Oral communication and advocacy

Key features

- Integrated Skills and Professionalism Program embedded throughout the degree.
- Specialisations and majors available including Climate Law and Legal Transformation.
- Legal work experience opportunities available through the Bond Legal Clinics Program.
- Opportunities to participate in an outstanding Mooting program.

Majors / specialisations

- Canadian Law and Practice
- Climate Law
- Contemporary Legal Issues
- Corporate and Commercial Law
- International and Comparative Law
- Legal Practice
- Legal Transformation

Major / double major

- Climate Law
- Legal Transformation

Degree combinations

- Bachelor of Actuarial Science / Bachelor of Laws (CRICOS 093910C)
- Bachelor of Arts / Bachelor of Laws (CRICOS 093912A)
- Bachelor of Biomedical Science / Bachelor of Laws (CRICOS 093911B)
- Bachelor of Business / Bachelor of Laws (CRICOS 093909G)
- Bachelor of Commerce / Bachelor of Laws (CRICOS 093908G)
- Bachelor of Communication / Bachelor of Laws (CRICOS 093915J)
- Bachelor of Communication (Business) / Bachelor of Laws (CRICOS 093914K)
- Bachelor of International Relations / Bachelor of Laws (CRICOS 093916G)
- Bachelor of Journalism / Bachelor of Laws (CRICOS 093918F)
- Bachelor of Psychological Science / Bachelor of Laws (CRICOS 093921M)
- Bachelor of Policy, Philosophy and Economics / Bachelor of Laws (CRICOS 107260B)
- Bachelor of Entrepreneurial Transformation/ Bachelor of Laws (CRICOS 111665B)
- Bachelor of Digital Transformation / Bachelor of Laws (CRICOS 111521G)

Further study

The Graduate Diploma in Legal Practice (ONLINE), also known as practical legal training (PLT), is the link between your law degree and becoming a practising lawyer. Throughout this program, the Career Development Centre is available to support students in sourcing legal placements.

Professional outcomes

Potential career outcomes and paths include:

- Law (lawyer, barrister)
- In-house legal counsel
- Government
- Business leadership

The Bachelor of Laws is an approved degree for the purposes of admission to legal practice in Australia. To become a legal practitioner, you will need to complete a Graduate Diploma in Legal Practice (ONLINE) or a traineeship in addition to the Bachelor of Laws. The Bachelor of Laws may also be used to apply for admission internationally. You are, however, advised to confirm admission requirements in the particular jurisdiction in which you wish to practise.

* Entrance scores provided are indicative only for 2025 admission and are subject to change.

** Fees per semester are based on an average calculation from 2024, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

Bachelor of Business Law

CRICOS course code 063057F

Selection rank
ATAR / IB*

80 / 28

Starting

Jan, May, Sep

Duration

6 semesters (2
years)

Fees per
semester**

\$17,040

This degree provides an opportunity to combine legal subjects of particular interest with study in related disciplines.

Key features

- A program combining the essentials of law and business.
- Tailor your studies to suit your career aspirations and interests.
- Develop high-level skills in legal reasoning, writing, communications and advocacy.
- Opportunities to participate in an outstanding Mooting program.

Majors / specialisations

Business Majors include Accounting, Economics, Event Management and Finance.

Professional recognition

Unlike the Bachelor of Laws, the Bachelor of Business Law is not designed to qualify graduates for the professional practice of law. If you wish to practise law, you must complete a Bachelor of Laws (CRICOS 093922K) or Juris Doctor (CRICOS 093923J) degree and a Graduate Diploma in Legal Practice (ONLINE).

Professional outcomes

Bond's flexible degree structure permits various combinations of law and non-law subjects. This flexibility enables you to design your program to meet a variety of career interests. Law is increasingly regarded as an excellent preparation for a wide range of careers and is an important source of liberal education within business and management.

Bachelor of Jurisprudence

CRICOS course code 063078A

Selection rank
ATAR / IB*

80 / 28

Starting

Jan, May, Sep

Duration

6 semesters (2
years)

Fees per
semester**

\$17,040

This degree provides an opportunity to combine legal subjects of particular interest with study in related disciplines such as international relations, criminology, languages, and communication.

Key features

- An opportunity to combine legal studies with study in a related discipline that aligns with your interests.
- A personalised learning environment with small class and access to your instructors.

Professional recognition

Unlike the Bachelor of Laws, the Bachelor of Jurisprudence is not designed to qualify graduates for the professional practice of law. If you wish to practise law, you must complete a Bachelor of Laws (CRICOS 093922K) or Juris Doctor (CRICOS 093923J) degree and a Graduate Diploma in Legal Practice (ONLINE).

Professional outcomes

- Court clerkship
- Trust administration
- Legal support
- Policy advice

Bachelor of Legal Transformation

CRICOS course code 107661G

Selection rank
ATAR / IB*

65 / 24

Starting

Jan, May, Sep

Duration

6 semesters (2
years)

Fees per
semester**

\$17,040

The legal profession isn't immune to change – in fact, it's evolving faster than ever before. With this constant disruption comes a need for nimble professionals who have the skills to not just ride the waves, but turn the tide. The Bachelor of Legal Transformation is committed to producing graduates who fit the bill – not lawyers, but rather industry changemakers who blend legal knowledge with lateral thinking and the problem-solving skills of the future.

The Bachelor of Legal Transformation consists of discipline studies in legal studies, combined with transdisciplinary studies in design thinking, entrepreneurship, technology, and global citizenship, as well as two personalised industry immersions and two tailor-made major projects.

Key features

- Understand contemporary legal problems and design ethical, practical, and creative solutions.
- Apply legal skills, knowledge, and language to deliver legal services in the face of rapid and persistent technological change.
- Confidently lead and manage transdisciplinary teams and projects.
- Think critically about the law and technology in social and commercial settings and culturally diverse contexts.

Professional outcomes

- Legal entrepreneurship
- Legal operations
- Legal project management
- Legal solutions architecture
- Legal technology design
- Paralegal practice

Diploma of Legal Studies

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 080298C

65 / 24

Jan, May, Sep

2 semesters
(8 months)

\$17,040

The Diploma of Legal Studies provides students with a basic grounding in Australia's legal system, the principles of business law, and the contemporary legal issues confronting Australian society. This program offers a supported preparation and pathway for further undergraduate study in law. You will also learn communication and problem-solving skills, engage in individual and group decision making, and develop an understanding of ethics, morals, and cultural beliefs.

Key features

- Complete your diploma in just eight months.
- Integrate into the Bond University environment from day one.
- Enjoy the support of extra tutorials just for diploma students.
- Articulate into the third semester of an approved Bond undergraduate degree.

Further study

Successful completion of the Diploma of Legal Studies guarantees students a place in Bond's Bachelor of Laws (CRICOS 093922K) or Bachelor of Legal Transformation (CRICOS 107661G) with 80 credit points. The Diploma of Legal Studies is also a pathway into other bachelor's degrees with varying credit available.

Dr Umair Ghori

ASSOCIATE PROFESSOR. RESEARCHER IN INTERNATIONAL TRADE LAW. HISTORY BUFF.

"Studying law not only enables you to enter the legal profession, but also provides a pathway into diverse fields such as law enforcement, national security, border control, politics, and business. Bond law programs are delivered by passionate legal educators who focus on both theoretical concepts and the development of hands-on skills. As a result, students emerge ready for the workforce, which is apparent when they enter industry with the knowledge and skills to provide solutions and really make a name for themselves."

2019 LexisNexis Stanley Shaw Prize for Teaching Excellence winner

University of London and University of New South Wales graduate

** Fees per semester are based on an average calculation from 2024, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

Medicine

For the empathetic and the caring.
For those who want to work on the
frontline, making a difference
in the lives of others.

Madeleine Condren

MEDICAL STUDENT. ELITE SWIMMER. ASPIRING
ORTHOPAEDIC SURGEON.

The best thing about studying medicine at Bond is...

The early exposure to hands-on clinical learning and placements, as well as the opportunity to participate in life-like ED simulations. Our small cohorts mean we get more 1-on-1 time with senior clinicians, which makes for a more immersive placement experience. There are also so many speciality societies running events that enable you to network and find what niche area you're really passionate about.

At Bond, I have been able to...

Have a more intimate placement experience across both public and private hospitals, as smaller cohorts mean fewer students fighting for the attention of the consultant. I've been able to assist in neurosurgery, cardiothoracic surgery, and manage my own patients on the wards (under supervision of course). Bond also offers some incredible international placements, including South Africa, Italy, and Solomon Islands.

If I could go back and give my high school-self advice, it would be...

One suboptimal result will not prevent you from becoming a doctor. Use those disappointments to fuel your passion because if medicine is what you really want to do, you'll find a way to get there.

Medical Program	Starting	Duration	Fees per semester**
Bachelor of Medical Studies (BMedSt) (CRICOS 0101292)	May, Sep	8 semesters (2 years 8 months)	\$31,370
Doctor of Medicine (MD) (CRICOS 111520H)		6 semesters (2 years)	\$31,370
Total 14 semesters (4 years 8 months)			

The Medical Program^

In today's complex healthcare environment, Bond's Medical Program^ will equip you with the fundamental knowledge, skills and attributes required to practice medicine safely and effectively. You'll graduate with the clinical, interpersonal, teamwork, and leadership skills required to deliver high-quality healthcare outcomes as well as an engrained commitment to care for yourself, your colleagues, and all community groups.

The Medical Program^ comprises two sequential degrees. You'll first be required to complete the Bachelor of Medical Studies (BMedSt) (CRICOS 0101292) where you will be immersed in small group learning, simulation activities, community and clinical placements, and a cultural immersion experience.

You'll then complete the Doctor of Medicine (MD) (CRICOS 111520H) to be eligible to practice medicine. You'll engage in evidence-based medicine and integrated placements within clinical sites and will gain extended exposure to areas such as child health, medicine, mental health, surgery, and women's health during your placement.

Graduate with the advantage of entering the workforce as a doctor in 4 years, 8 months.

Professional accreditation and recognition

The Medical Program^ is accredited by the Australian Medical Council (AMC) ensuring that they meet or exceed the agreed national guidelines for medical education. Upon successful completion of the Medical Program^, graduates are eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand.

Further study

Graduates of the Medical Program^ will have the appropriate knowledge, attitudes and skills to work effectively as interns in Australian and New Zealand hospitals and will be ideally positioned to undergo further training in any of the Australasian specialty colleges.

Professional outcomes

- General Practitioner
- Medical specialists

Dr Nicolene Lottering

ASSOCIATE DEAN OF LEARNING AND TEACHING. AWARD-WINNING FORENSIC SCIENTIST. ANATOMIST IN THE MEDICAL PROGRAM.

"Embarking on a career in medicine is more than just a profession; it's a lifelong commitment to learning, compassion and service. Bond's Medical Program stands out due to its emphasis on hands-on experience, early clinical exposure, and fostering critical thinking through small-group learning. In this program, it's not just about absorbing information but about developing a mindset – a way of thinking that extends beyond textbooks."

Recipient of the 2015 Forensic Sciences Emerging Forensic Scientist Award, awarded by the American Academy of Forensic Sciences (AAFS)

Recipient of 2018 National Teaching Award - AAUT Citation for Outstanding Contributions to Student Learning

Recipient of the 2022 International Osmosis (Elsevier) Raise the Line Faculty Award - Anatomy and Physiology Grand Prize

* Entrance scores provided are indicative only for 2025 admission and are subject to change.

** Fees per semester are based on an average calculation from 2024, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

^ The Medical Program comprises two sequential degrees – the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). Applications for Medical Program must be lodged through QTAC. All students selected for entry into the Medical Program will have to complete both the BMedSt and MD to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5.

Project Management & Innovation

For the organised and innovative.
For those who want to lead the
change, and know
there's a better way to do it.

Filmon Tesfazion

ERITREAN NATIONAL. FUTURE
PROJECT MANAGER. SOCIAL IMPACT
CHAMPION.

I chose to study project management because

It gives me a foundation to pursue my passion
for developing projects that have a positive
social impact.

I decided to study at Bond because of...

The renowned collaborative classroom
experience, which develops the soft skills
necessary to succeed in project management.

If I could go back and give 15-year- old me some advice about studying at Bond, it would be...

Take a holistic approach when making
decisions. It was through analysing my hobbies
that I found project management was the right
area of study for me.

Bachelor of Project Management

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 0101294

65 / 24

Jan, May, Sep

6 semesters
(2 years)

\$17,040

The Bachelor of Project Management prepares you to manage projects and programs, lead a team, and problem solve across a wide range of different industry sectors. It begins with three foundation semesters comprising business acumen, project framework, process analysis, and core skill development, before building on this knowledge with three practice semesters comprising technical, tactical, and strategic decision making. The program includes comprehensive coverage of project schedules, cost, resourcing, scope, quality, procurement, communications, risk, and stakeholder management. It also offers two elective choices and concludes with a capstone subject on project integration management.

Key features

- Program endorsed by the Australian Institute of Project Management (AIPM) and structured around the PMBOK® Guide, the international standard for project management.
- A direct career pathway from high school to professional certification as a project manager.
- Learn how to deliver projects on time, within budget, as specified, and with no surprises.
- Become an effective decision maker.
- Gain critical leadership skills.
- Choose electives from across the university based on your career ambitions or interests.

Subjects

- Accounting Principles
- Responsible and Sustainable Organisations
- Building Digital Literacy and Fluency
- Business Law
- Sustainable Development and Society
- Managing Projects Sustainably
- Professional Practice and Standards
- Socialising Process Change
- Project Schedule Management

- Project Cost Management
- Project Resource Management
- Project Scope Management
- Project Quality Management
- Project Procurement Management
- Project Communications Management
- Project Risk Management
- Project Stakeholder Management
- Project Integration Management
- Process Reengineering

Professional recognition

Bond University's Bachelor of Project Management is fully accredited by the Australian Institute of Project Management with international accreditation currently being pursued.

Further study

Master of Project Innovation (CRICOS 0100041)

Graduates can also undertake postgraduate study across a wide range of specialised study areas such as construction practice, city planning, valuation and property development, and building information modelling and integrated project delivery.

Professional outcomes

Project management is a global profession, with over one million certified practitioners in the Project Management Institute (PMI) alone. Graduates of the Bachelor of Project Management will have the specialist skills to find employment in government, community, or private business sectors such as construction, business, engineering, manufacturing, mining, healthcare, property development, information technology, and disaster management.

Greg Skulmoski

ASSOCIATE PROFESSOR. PROJECT INNOVATION AND MANAGEMENT EXPERT. CYBERSECURITY LEADER.

"When exposed to Bond's flexible learning style, our project management students become more engaged, produce higher quality work, and learn to a higher standard. For their projects of choice, we have seen an array of interesting concepts, such as developing tiny homes, setting up a taco truck, transporting an elephant between zoos, planning a wedding in the Canadian Rockies, and renovating an apartment building. I love seeing the enthusiasm that our students bring to their assignments."

* Entrance scores provided are indicative only for 2025 admission and are subject to change.

** Fees per semester are based on an average calculation from 2024, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees. Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

Psychology, Criminology & Social Sciences

For the 'people people'. For those who want to help others, no matter their circumstances, and make meaningful personal and societal change.

Clara Wilson

BOND ALUMNA. REGISTERED PSYCHOLOGIST. PRACTICE OWNER.

I chose to study psychology at Bond because...

I am fascinated by psychology and love to understand the human mind and human behaviour. I was drawn to Bond because of the excellent reputation, world-class academics, and the beautiful campus.

At Bond I have been able to...

Learn from academics who are the best in their field, and use my knowledge in real-world settings in placements.

My advice to high school students is...

Follow your interests. And it's okay to change your mind.

Bachelor of Arts

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

65 / 24

Jan, May, Sep

6 semesters
(2 years)

\$17,040

The Bachelor of Arts allows you to select combinations of subjects and subject areas to best suit your interests and aspirations. It is a generalist program, offering you flexibility in your choice of majors with the opportunity to either specialise in a particular area of study or to select complementary majors.

Key features

- Customise your study interests to match your career goals.
- Choose from over 20 major options.
- Broaden your knowledge or specialise your skillset.

Majors / specialisations

- Advertising
- Advertising Design and Production (double major)
- Australian Studies[^]
- Chinese Language and Culture[^]
- Cinema Journalism (double major)
- Communication
- Corporate Storytelling
- Counselling Interventions
- Criminology
- Cyber Security
- Digital Media
- Film and Television (double major options available)
- French Language and Culture[^]
- Global Studies (Sustainability)
- International Relations
- Japanese Language and Culture[^]

- Journalism
- Language and Culture[^]
- Media Studies
- Philosophy
- Psychology (double major options available)
- Public Relations
- Social Media
- Spanish Language and Culture[^]

Degree combinations

- Bachelor of Arts / Bachelor of Laws (CRICOS 093912A)

Further study

- Master of Arts (Coursework) (CRICOS 078662F)
- Master of Criminology (CRICOS 078659A)
- Master of Criminology / Master of Project Management (CRICOS 088316G)

Professional outcomes

The Bachelor of Arts program provides you with a strong and broad set of skills essential to all professions no matter your chosen career. Graduates of this program can expect to find a wide range of employment opportunities in the creative industries and various corporate environments, depending on their majors.

Bachelor of Criminal Justice and Criminology

CRICOS course code 107663E

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

65 / 24

Jan, May, Sep

6 semesters
(2 years)

\$17,040

The Bachelor of Criminal Justice and Criminology equips you with multidisciplinary knowledge and skills from foundational criminology and law subjects, plus a further seven criminology discipline options. Subjects include criminal justice, cybercrime, criminal law, explanations for crime, miscarriages of justice, and crime prevention. You can also choose to specialise in either psychology or law as an elective to complement your studies.

Key features

- Tailor your specialisation in line with your career goals - justice, criminology, psychology, or law.
- Acquire critical skills via case analyses, research, and evaluations of justice policies and programs.
- Problem-solve recent crime-related issues and innovations in justice procedures.
- Gain integrated perspectives from the multidisciplinary approach.
- Build your industry connections through career events, field trips, and internships.

Required subjects

- Introduction to Crime and Justice
- Criminal Justice Systems and Procedures
- Explaining Crime
- Criminal Investigations

- Legal Foundations A
- Legal Foundations B
- Foundations of Public and Criminal Law
- Criminal Law

Further study

- Graduate Certificate in Criminology (CRICOS 083525F)
- Master of Criminology (CRICOS 078659A)
- Master of Criminology / Master of Project Management (CRICOS 088316G)
- Juris Doctor (CRICOS 093923J)

Professional outcomes

The Bachelor of Criminal Justice and Criminology equips graduates with the skills and knowledge to pursue a wide range of justice-related careers with private, government, and not-for-profit agencies. This includes, but is not limited to, careers in policing, corrections, court support, youth justice, public safety and security, victim advocacy and support, intelligence agencies, anti-corruption agencies, intervention planning, probation and parole, and rehabilitation programs.

* Entrance scores provided are indicative only for 2025 admission and are subject to change.

** Fees per semester are based on an average calculation from 2024, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees.

^ Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

^ Major options are under review at the time of publication.

The Bachelor of Psychological Science will provide you with a scientific understanding of normal psychological processes such as perception, memory, learning, motivation, psychobiology, personality, emotion, developmental psychology, and social relationships, as well as training in abnormal psychology. A basic understanding of these topics is acquired across the two introductory subjects before a greater depth of coverage is undertaken within the advanced second and third-level subjects.

You will also participate in laboratory work and be introduced to the Australian Psychological Society Code of Ethics. To underpin the scientific nature of the discipline, you will receive training in a range of data analytics techniques and research methods used by psychologists. This program is designed to equip you with the basic scientific grounding and theoretical understanding required for advanced-level studies.

Key features

- Develop a strong foundation in the science of psychology and human behaviour.
- Choose electives in specialised areas such as neuropsychology, organisational psychology, and positive well-being.
- Participate in practical research in the Cognitive Research Labs.
- Network with professional psychologists and counsellors at events run by the Bond Psychological Society.
- Learn from internationally recognised psychologists, in small, personalised classes.

Required subjects

- Foundations of Psychology: Biology and Personality
- Foundations of Psychology: Development, Learning and Social
- Statistics and Data Analysis 1
- Statistics and Data Analysis 2
- Biological Psychology
- Cross-Cultural Psychology
- Learning and Behaviour
- Developmental Psychology
- Social Psychology
- Cognitive Psychology
- Personality, Assessment and Individual Differences
- Research Methods in Psychology
- Psychopathology
- Motivation and Emotion
- Statistics and Data Analysis 3

Elective options*

- Love, Sex and Relationships
- Positive Well-Being
- Psychology at Work
- Counselling Psychology
- Drugs and Behaviour
- Music and Mind
- Forensic Psychology
- Neuropsychology

*Subject to availability.

Degree combinations

- Bachelor of Psychological Science / Bachelor of Laws (CRICOS 093921M)

Further study

- Bachelor of Psychological Science (Honours) (CRICOS 063047G)
- Graduate Diploma of Psychological Science (CRICOS 063195G)
- Master of Professional Psychology (CRICOS 096695C)
- Master of Psychological (Clinical) (CRICOS 063429E)

Professional recognition

The Bachelor of Psychological Science is fully accredited by the Australian Psychology Accreditation Council (APAC) as the equivalent of three years of university education on the pathway to becoming a registered psychologist in Australia. Graduates are required to complete six years of education and training to be eligible for registration.

Alternative pathway

The Graduate Diploma in Psychology (Bridging) allows students to fast-track a qualification equivalent to a three-year undergraduate sequence in the discipline of psychology. It is designed for students who have completed an undergraduate program in a discipline other than psychology and are looking to transition to the pathway required for registration, or for students who have completed an undergraduate psychology qualification but have not met the entry threshold to progress to fourth-year studies. This program is not available to international students who intend to apply for a student visa to undertake this program.

Professional outcomes

The Bachelor of Psychological Science opens the door to a wide range of rewarding careers. With a strong emphasis on critical thinking, communication, and analysis, the skills and knowledge developed in this program can be applied to a number of careers in private enterprise, government, and community sectors. Graduates can pursue employment opportunities in research, education (counselling and behaviour management), business (change management and organisational psychology), human resources, career guidance, criminal justice and child protection, sport, exercise and athlete performance, and rehabilitation counselling.

Bachelor of Psychological Science (Honours)

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 063047G

Jan, May, Sep

2 semesters
(8 months)

\$18,935

The Bachelor of Psychological Science (Honours) is the second step on the pathway to becoming a registered psychologist. It enables you to build on the knowledge gained thus far, and apply it to a specified research project. Under the guidance of your supervisor, you will be fully trained in research methods, psychometrics, statistics, and data analytics. All applied material is based on the scientist-practitioner model, and evidence-based approaches to psychological intervention are emphasised.

Key features

- Access a dedicated lab space with data analysis software, and the Cognitive Research Labs to perform face-to-face research.
- Discover how the science and practice of psychology is influenced by social, historical, professional, and cultural contexts.
- Gain a theoretical understanding of some of the most widely used cognitive and personality assessments, as well as evidence-based approaches to psychological intervention.
- Develop your research and analytical skills working on your thesis.

Required subjects

- Principles of Psychological Assessment
- Multivariate Research Methods
- Human Experimental Psychology
- Professional Psychology
- Honours Thesis 2
- Honours Thesis 1: Research Seminar and Ethics

Elective options*

- Clinical Psychology
- Community and Health Psychology
- Forensic Psychology
- Neuropsychology
- Psychology at Work

*Subject to availability.

Further study

- Master of Professional Psychology (CRICOS 096695C)
- Master of Psychological (Clinical) (CRICOS 063429E)

Professional recognition

This program is fully accredited by the Australian Psychology Accreditation Council (APAC) as the equivalent to the fourth year of university training required to become a fully registered psychologist in Australia.

After completing the Bachelor of Psychological Science (Honours) graduates will be eligible to apply for provisional registration, in preparation for the practicum placements required for the final two years of education and training. Entry to one of the two offered masters programs will be based on academic performance, an interview process, and a successful offer.

Professional outcomes

The Bachelor of Psychological Science (Honours) is a stepping stone to further studies leading to registration as a practising psychologist. Graduates who do not wish to seek registration as a psychologist can apply their skills to a wide range of careers in private enterprise, government, and community industry sectors. These fields include, but are not limited to, education, business, human resources and career guidance, policy making, criminal justice, athlete performance and sport management, rehabilitation, community action, marketing and communications, mental health counselling and support, and research.

Bachelor of Social Science

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 063082E

65 / 24

Jan, May, Sep

6 semesters
(2 years)

\$17,040

The Bachelor of Social Science is a highly flexible study program, where you can personalise your subject selection to align with your interests. You will nominate two key areas of study (majors) from the social sciences discipline (psychology, counselling interventions, or criminology) to form the foundation of your degree. You can then tailor the program to your personal interests or career ambitions with a further nine electives chosen from any Faculty within the University.

Key features

- Tailor your degree based on personal career goals and interests.
- Gain practical experience and industry contacts through work experience and for-credit internships.
- Be mentored by industry experts in small, interactive classes.
- Opportunity to live and study overseas for a semester through our International Student Exchange program (subject to availability).

Majors / specialisations

- Criminology and Psychology
- Criminology and Counselling Interventions
- Psychology and Counselling Interventions

Degree combinations

- Bachelor of Business / Bachelor of Social Science (CRICOS 088309G)

Further study

- Master of Criminology (CRICOS 078659A)
- Master of Criminology / Master of Project Management (CRICOS 088316G)

Professional outcomes

The Bachelor of Social Science equips graduates with the knowledge and skills required for a wide range of career opportunities in welfare, government work, disability services, education and training, case work, client support, advocacy, probation and parole, corrective and youth justice services, crime prevention, behavioural management, and with the National Disability Insurance Scheme (NDIS).

* Entrance scores provided are indicative only for 2025 admission and are subject to change.

** Fees per semester are based on an average calculation from 2024, and may differ depending on the subjects and majors you take in each semester. Tuition fees are subject to change on an annual basis and will be charged at the appropriate fee for the current enrolment year. For more information on current fees, visit bond.edu.au/fees.

^ Fees are not inclusive of additional program specific costs and others such as Student Services and Amenities Fee, accommodation, textbooks, study tours and living costs.

^ Major options are under review at the time of publication.

Diploma of Arts

Selection rank
ATAR / IB*

Starting

Duration

Fees per
semester**

CRICOS course code 0101729

50

Jan, May, Sep

2 semesters
(8 months)

\$17,040

The Diploma of Arts opens up a wide range of career opportunities and further undergraduate study in disciplines including communication, creative arts, film and television, global studies (sustainability), humanities, international relations, journalism, psychological science, and social science. The Diploma of Arts will teach you core skills to enhance your career prospects, whether you are fresh out of school or are seeking to upgrade your qualifications.

Key features

- Transition directly into the third semester of more than a dozen undergraduate degrees offered by the Faculty of Society & Design.
- Benefit from the extensive support of our Academic Skills Centre, including one-on-one tutoring and workshops.
- Ease into study by starting with a part-time study load.
- Enjoy access to all University facilities including one of the largest film and TV production facilities in South-East Queensland, and labs equipped with VR, AR, and 3D printing facilities.
- Ask questions and get all the help you need in our small, personalised classes.

Subjects

- Introduction to Communication
- World Languages
- Introduction to International Relations
- Foundations of Content Creation
- Personal Development Portfolio
- Critical Thinking and Communication
- Responsibility, Integrity and Civic Discourse
- Collaboration for Global Change

Further study

Successful completion of the Diploma of Arts guarantees students a place in most undergraduate degrees at Bond University, with a possible 80 credit points credited towards their new program. Students are advised to check their chosen degree's study structure online to confirm which subjects they may receive credit for.

Professional outcomes

The Diploma of Arts equips students with a broad set of foundational skills which are essential to all professions in both creative and corporate environments. By pairing this program with further undergraduate study, graduates can pursue career opportunities in communications, film, creative media, international relations, politics, and arts.

Stephanie White

ASPIRING PSYCHOLOGIST. DEDICATED VOLUNTEER. SOCIAL NETBALLER.

I chose to study at Bond because of...

The support offered to every student. I love that Bond has a maximum of 12 people per tutorial as it allows students to get the most out of their classes by asking questions and interacting with staff and their peers.

At Bond I have been able to...

Develop a passion for supporting children with disabilities by volunteering at the Bond Children's Holiday Camp.

If I could go back and give 15-year-old me some advice about studying at Bond, it would be...

Be courageous! Take the risk and move interstate – home will always be there but the opportunity to study at Bond is so unique and exciting that it's worth it.

* Entrance scores provided are indicative only for 2025 admission and are subject to change.

CHAPTER 4:

Your future

Your journey to Bond starts now. In the final part of this Guide, you'll find all the details on your next steps: experiencing Bond for yourself through our unique, personalised learning experiences, understanding the admissions process, and applying for a program. Remember – we're here to help, so reach out if you have any questions.

Financing your degree

Bond University is a fully independent, not-for-profit institution that invests 100 per cent of your tuition fees into providing a five-star educational experience, state-of-the-art facilities, and a truly personalised student framework.

While our tuition fees are not subsidised by the Australian Government, they can be financed through a number of options including government assistance packages.

FEE-HELP

FEE-HELP is an interest-free student loan program funded by the Australian Government for all Australian citizens and others who meet the eligibility requirements. Similar to HECS-HELP, FEE-HELP allows eligible students to defer their tuition fees until after they graduate, when they can then be paid off in regular instalments.

From 1 January, 2020, a combined HELP loan limit replaced the FEE-HELP limit and includes FEE-HELP, VET Student Loans, VET FEE-HELP, and HECS-HELP. Only HECS-HELP borrowing from 1 January, 2020 onwards counts towards a person's HELP limit. Any existing FEE-HELP, VET FEE-HELP or VET Student Loans that counted towards your FEE-HELP limit will count towards the combined HELP limit.

In 2024, the combined HELP loan limit is \$121,844 for most students. The limit for students in the Medical Program is \$174,998. Repayments are made through the taxation system at a minimum rate of 1 per cent per annum when your annual income reaches \$48,361. The rate of repayment increases as annual income increases. You can apply for FEE-HELP online once you have received an offer from Bond University with your Student Identification Number.

studyassist.gov.au

Loyalty discounts

Bond offers a number of loyalty discounts to students who have a direct family member attending an eligible program at Bond or who have completed an eligible program here. These loyalty programs may provide a reduction of up to 10 per cent on tuition fees.

Other government assistance

Most Australian students who receive some form of government income support are on either Youth Allowance or AUSTUDY / ABSTUDY. Contact Centrelink for more information on eligibility.

Student Opportunity Fund

As a Bond student, you will have access to a range of experiences and activities to enhance your learning. The Student Opportunity Fund can help to finance those added extras with assistance available up to \$2,000. For more information, visit bond.edu.au/student-opportunity-fund

Living costs

In addition to your university tuition fees, there are a number of other costs to consider when planning your budget.

Estimated weekly living costs*

When considering the costs associated with your university studies, keep in mind that Bond's accelerated schedule means you'll finish your degree sooner. This signifies a substantial reduction in your total accommodation and living costs, as well as a full year of earnings from being out in the workforce earlier.

	On-campus accommodation	Off-campus accommodation	Homestay / boarding
Rent	\$195-\$305	\$200-\$450**	\$270
Food	\$147-\$183	\$80-\$200	Included
Utilities	Included	\$50-\$90	Included
Transport	N/A (on campus)	\$15-\$30	\$15-\$30
Entertainment	\$30-\$90	\$30-\$90	\$30-\$90
Miscellaneous - photocopying, stationery, hobbies	\$25-\$50	\$25-\$50	\$25-\$50
Approximate total cost per week	\$422-\$653	\$400-\$790	\$350-\$450
Total estimated living cost per semester	\$5,908-\$9,142	\$5,600-\$11,060	\$4,900- \$6,300

* Prices are approximate and will vary depending on budget and lifestyle.

** In shared accommodation.

Accommodation

Bond is located in a landscaped residential neighbourhood with a range of on-campus and off-campus accommodation available for our students. There are many accommodation options within easy walking distance of all University study and recreational facilities.

Living on campus

On-campus housing offers your choice of air-conditioned single or shared rooms. Residents benefit from one-on-one academic and personal support from the live-in team of Senior Resident Fellows, Student Resident Fellows, and Tutor Fellows.

Meal plans

For students living on campus, it is compulsory to have a dining plan. These flexible prepaid plans can be used to purchase meals on campus at Lakeside Restaurant, Papyrus Café, Pulse Café, Don's Tavern, the Coffee Cart, Bond Express, and the University Club.

Applying for on-campus accommodation

Our on-campus rooms are in high demand, so we recommend you complete your application as soon as the accommodation booking period opens.

[Learn more and view room types](#)

Homestay

Homestay accommodation offers students a fully supported living experience with a local host family. Bond University's homestay program is professionally managed by the Australian Homestay Network. Homestay accommodation is recommended for all students under the age of 18 years old.

View homestay options: homestaynetwork.org

Living off campus

There is a range of rental accommodation surrounding the University if you would like to live off campus. Options include houses or apartments on a single or shared basis with weekly rent varying depending on size, location, and the number of bedrooms. You will also need to budget for a security deposit (rental bond), food, electricity, telephone, internet, and cleaning.

Bond's accommodation team can provide information relating to accommodation within close proximity to campus. For suggestions email housingsupport@bond.edu.au or to view off-campus options, please visit bond.edu.au/off-campus

Share accommodation

Students regularly advertise for flatmates in a variety of units, townhouses, and larger homes located in suburbs adjacent to the campus (Varsity Lakes, Robina) and further afield.

Popular website: flatmates.com.au

Couple and family accommodation

There is a variety of rental accommodation available across the Gold Coast, ranging from beachside apartments to suburban family homes near schools, business precincts, and retail centres.

Popular websites: realestate.com.au
domain.com.au

Scholarships

One of the ways Bond University identifies future leaders is through our scholarship program.

Full and part-tuition scholarships are awarded to applicants who have demonstrated outstanding academic ability, community involvement, sporting achievements and strong leadership skills.

Vice Chancellor's Elite Scholarships

Our prestigious Vice Chancellor's Elite Scholarships are awarded each year to a small group of outstanding applicants. These students are selected on the basis of their exceptional academic achievements, proven leadership abilities and strong personal character. Applicants will be required to provide a school reference to demonstrate their ability to meet the characteristics and traits of Vice Chancellor's Elite Scholars. Shortlisted applicants will also be required to attend a scholarship selection weekend.

Successful applicants receive full tuition remission for any undergraduate degree combination (with the exception of the Bond Medical Program). Every Vice Chancellor's Elite Scholar is also invited to participate in the Vice Chancellor's Mentoring Program where they will be teamed with a leader in their field for one-on-one professional and personal guidance.

Excellence Scholarships

Excellence Scholarships offer up to 50 per cent tuition remission for any undergraduate degree combination (excluding the Bond Medical Program) and are awarded annually to a number of outstanding applicants who have demonstrated high academic achievement, proven leadership skills and extensive community involvement.

Leadership Scholarships

Leadership Scholarships aim to recognise current Year 12 students who have outstanding leadership experience and community involvement with a 25 per cent tuition remission scholarship for any undergraduate degree combination (excluding the Bond Medical Program).

Indigenous scholarships

Bond is strongly committed to closing the gap for Indigenous Australians. Through the generous support of corporate sponsors, alumni and community donations, we offer a number of scholarships to Aboriginal and Torres Strait Islander students who have demonstrated extracurricular involvement, leadership potential and academic achievements. These scholarships are valued at up to 50 per cent of tuition fees for any single undergraduate degree (excluding the Bond Medical Program) or 100 per cent tuition for any diploma program.

Sporting scholarships

Through key corporate partnerships, Bond is proud to offer sports scholarships to students with exceptional sporting achievements. Visit sport.bond.edu.au/programs/sport-scholarships for further details on sporting scholarships available.

How to apply

Scholarship applications can be made online via the Scholarship Application Form after you have completed and submitted a Bond University Study Application Form.

Review scholarship application opening and closing dates at bond.edu.au/scholarships.

Simply use the same login details as used for your study application and enter 'scholarship' in the keyword field on the Start an Application tab.

Hannah Schmidt

VICE CHANCELLOR'S ELITE SCHOLARSHIP
RECIPIENT. BACHELOR OF EXERCISE AND SPORTS
SCIENCE ALUMNA.

Our prestigious Vice Chancellor's Elite Scholarships are awarded to a small group of outstanding applicants, like Hannah, every year. These students are selected on the basis of their exceptional academic achievements, proven leadership abilities, and strong personal character. Applicants are required to provide a school reference and to attend a scholarship selection weekend.

Successful applicants receive full tuition remission for any undergraduate degree combination (with the exception of the Bond Medical Program).

"Beyond the classroom, one of the biggest things I've gained at Bond is the network I've developed with my classmates and academics - I feel like I'm genuinely known, respected and understood here; which is pretty unique," says Hannah.

Your Bond journey starts now

We'd love to get to know you before you leave school – and we're sure you'd like to know more about us.

There are lots of ways to engage with Bond in your last few years at school – from coming along to our annual Open Day experiences or one of our Experience Days, through to completing a full university subject while you're still in Year 10, 11 or 12. We also host a number of prestigious national competitions for high school students, some of which even present scholarship opportunities for high achievers.

Learn more:
bond.edu.au/your-future

Be a Student for a Semester

Do you have what it takes to become a Bondy while you're still in high school?

Through Bond's Student for a Semester program, you'll have the unique opportunity to launch your tertiary studies ahead of your peers by undertaking a university subject while still in high school.

Challenge yourself to achieve all that's possible and put yourself at a huge future advantage. You'll be rewarded with an unforgettable experience, a global network of friends, and the chance to gain credit towards your university studies. As a Student for a Semester, you'll enrol in a Bond subject, get your own student ID card, and attend a weekly forum and tutorial.

The Student for a Semester program is open to Year 11 and 12 students from the Gold Coast, Brisbane and Northern NSW regions with available subjects covering a range of topics such as architecture, law, marketing, screenwriting, and health.

We accept applications in each of our three semesters: January, May, and September. Student for a Semester subjects are offered at the exclusive rate of \$250 per subject.

Applicants must be in the top 30 per cent of their year level and have the support of their school to participate. Your school's career advisor will be asked to verify this during the application process.

[Find out more and apply](#)

Why join the program?

As a participant in the Student for a Semester program, you will receive the following benefits:

- Your very own Student for a Semester mentor – a current Bondy, who you can call upon any time throughout the semester.
- An exclusive invitation to a career counselling session, hosted by the Bond University Career Development Centre.
- Full use of all University facilities including the Sports Centre, libraries and Multimedia Learning Centre.
- Access to all support services such as the Academic Skills Centre, student counselling services and Faculty teaching staff.
- An extended census date for withdrawal from the program without any financial or academic penalty.
- A celebration of participation in the program at the Student for a Semester Awards Ceremony.
- Students who successfully pass their subject may be eligible to use the credit towards their chosen Bond University undergraduate degree*.

* Direct subject credit will depend upon your chosen degree program and may not be applied toward the Bachelor of Design in Architecture or the Bond Medical Program, due to the structure of these programs. Please check with Bond University prior to enrolment.

Participate in learn for credit experiences

Take a deep dive into an area of interest and earn credit towards a university subject with Bond's unique learn for credit courses. Designed for Year 11 and 12 students, learn for credit courses combine on-campus workshops with online modules you can complete at your own pace.

Bond runs a calendar of learn for credit courses offered throughout the year in Brisbane and the Gold Coast, with topics including climate law, creative writing, business and more.

If you complete five learn for credit courses, you can apply for credit towards Bond University subjects and obtain two points towards the Queensland Certificate of Education.

Pathways to Bond University

If you don't meet the entry requirements for your chosen degree, Bond offers a range of pathways through Bond University College to help you achieve the academic requirements you need.

Our pathway programs are delivered on campus by Bond University College, where you will benefit from extra hours of face-to-face teaching in a small class, mentored environment. The College provides a personalised service via a strengths-based model of educational support. Located in the heart of the Bond campus, you will have access to all of the University resources and facilities, and will be welcomed as a member of the Bond community from the day you arrive.

Successful completion of a Bond University College program gives you the opportunity to gain entry to a Bond University undergraduate degree, with varying credit. The time to completion from a diploma program to a bachelor's program is essentially the same. Once you successfully complete your diploma, you will enter your bachelor's program in Semester 3*, enabling you to still graduate ahead of your peers at standard universities. Learn more at bond.edu.au/entry-to-bond/entry-requirements/domestic-entry-requirements/pathways-into-bond-domestic

* Not applicable to all bachelor level programs.

Admission pathways

Diploma Preparation Program

CRICOS course code 0101445

Duration: 4 months (1 semester)

Starting: January, May, September

The Diploma Preparation Program has been specifically designed for students to pathway into Bond University Diploma programs. You will develop the core skills necessary for academic success, delivered by experienced and supportive teachers in small, personalised classes. The three subjects covered in this one semester program are:

- Culture and Communication 1
- Culture and Communication 2
- Digital Solutions

Key features

- Prepare yourself for a Bond University Higher Education Diploma program.
- Gain the academic skills required to succeed in your further studies.
- Transition into your diploma program seamlessly with our dedicated teachers and supportive environment.

Higher Education Diplomas

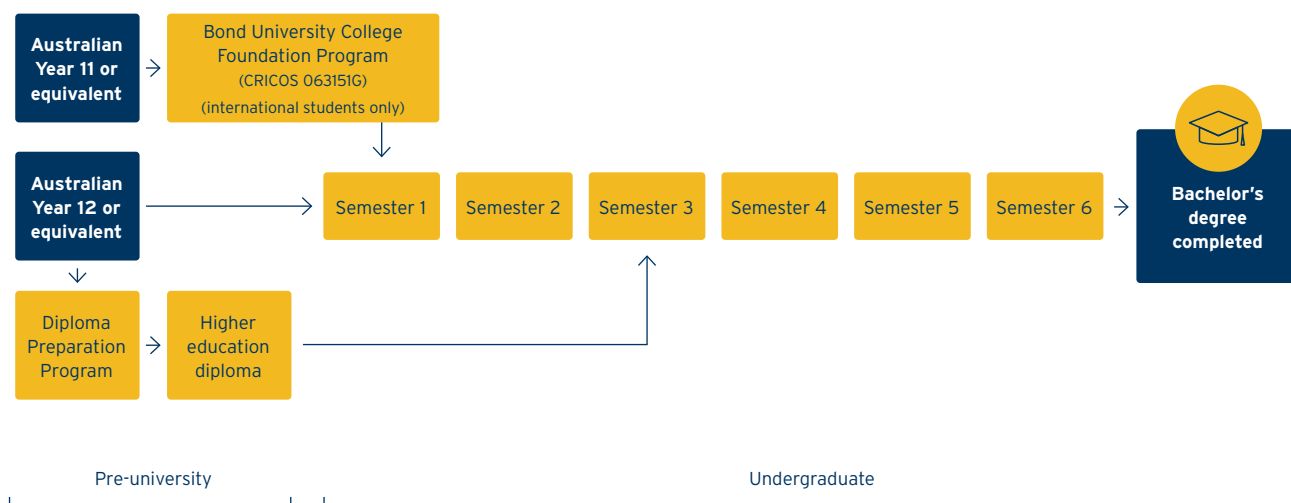

Duration: 8 months (2 semesters)

Starting: January, May, September

Our diploma level studies provide a pathway for students who do not meet the academic or English language requirements for direct entry into their chosen bachelor's degree, or who would prefer to start their university journey in a more supported environment. Successful completion of your diploma qualifies you for entry into a Bond bachelor's degree, with varying credit.

- Diploma of Arts (CRICOS 0101729)
- Diploma of Built Environment (CRICOS 098537A)
- Diploma of Business (CRICOS 078663E)
- Diploma of Creative Design (CRICOS 105412G) [Duration: 1 year (3 semesters)]
- Diploma of Health Sciences (CRICOS 093260K)
- Diploma of Legal Studies (CRICOS 080298C)

Pathways to Bond University

The average Bond University undergraduate program can be completed in two years, but this may be longer in some areas of study.

Admission pathways

Vocational Education and Training (VET) study

Can I use a VET qualification for entry?

For 2025 admission, Bond University will continue to accept VET Certificate IV, Diploma or Advanced Diploma qualifications for entry with the following assigned ranks. Please note that the assigned selection rank is provided as a guide only. You must still meet prerequisites and any additional requirements for the program. Learn more at bond.edu.au/entry-to-bond/entry-requirements/undergraduate-admissions-criteria

VET qualification*	Assigned selection rank	Bond entry point
Completed AQF Certificate III	40	Diploma Preparation Program
Completed AQF Certificate IV	74	Diploma and bachelor's programs
Completed AQF Diploma	78	Bachelor's programs
Completed AQF Advanced Diploma	91	Bachelor's programs

* Graded VET qualifications will be assigned a rank based on the grades attained. For more information, please speak with your Domestic Regional Manager about our Bond University College diploma pathways

For admission to Bond University from 2021 onwards, ungraded VET qualifications will no longer be accepted for direct entry into the following programs:

- Bachelor of Actuarial Science (CRICOS 083205M)
- Bachelor of Biomedical Science (CRICOS 063085B)
- Bachelor of Business Law (CRICOS 063057F)
- Bachelor of Jurisprudence (CRICOS 063078A)
- Bachelor of Laws (CRICOS 093922K)
- Bond Medical Program[^]

Any combined program that includes a program mentioned above

Have you completed an in-school VET qualification?

If you complete a VET qualification in school and successfully complete Year 12 (with or without an ATAR), Bond will assess your VET qualification for admission. You may be required to demonstrate English language proficiency by passing the English subject with a grade of C or better, or by undertaking an English proficiency test and achieving the required scores for entry.

If you have also obtained an ATAR, then Bond University will consider the higher ranked of the two qualifications (ATAR or VET) for admission.

Prior higher education study

To have prior higher education recognised for admission into Bond University, you must have completed at least one semester of full-time undergraduate study (Australian Qualifications Framework Level 7 or above) at a recognised university.

Your application will be assessed based on the subjects you have completed or attempted to complete at another institution. Your GPA will be assessed, and you will be assigned a selection rank. For more information and the selection rank framework, please visit: bond.edu.au/entry-to-bond/entry-requirements/domestic-entry-requirements

Work and life experience

Another way to gain entry to Bond University is by demonstrating relevant work and life experience. Professional experience and / or qualifications, including employment experience, will be considered on a case-by-case basis.

Special Tertiary Admissions Test (STAT)

Sitting the STAT is intended for applicants without other university entrance qualifications and is administered by QTAC. Your STAT score will be converted to an equivalent university entry score and used in the assessment of your application. For more information, please visit: bond.edu.au/entry-to-bond/entry-requirements/undergraduate-admissions-criteria

High school completion without ATAR

Bond University considers non-ATAR students for admission into the following diploma programs:

- Diploma of Arts (CRICOS 0101729)
- Diploma of Built Environment (CRICOS 098537A)
- Diploma of Business (CRICOS 078663E)
- Diploma of Creative Design (CRICOS 105412G)

The Diploma of Health Sciences and Diploma of Legal Studies are not eligible for an entry pathway as a non-ATAR student. To be considered for non-ATAR entry, you must have:

- Completed Year 12 and obtained a Queensland Certificate of Education (QCE) or equivalent
- Received a pass mark or higher in a minimum of three General or Applied subject (with a grade of C or better in Units 3 and 4).

For more information, please visit: bond.edu.au/entry-to-bond/entry-requirements/undergraduate-admissions-criteria

[^] The Medical Program comprises two sequential degrees - the Bachelor of Medical Studies (BMedSt) and the Doctor of Medicine (MD). Applications for Medical Program must be lodged through QTAC. All students selected for entry into the Medical Program will have to complete both the BMedSt and MD to be eligible for registration as a medical practitioner in any state or territory in Australia or New Zealand. Both degrees are awarded at the completion of Year 5.

How will I be assessed?

I am a 2024 Year 12 student

- Secondary academic results and / or rank.
- If you are a non-ATAR student but have received a Senior Statement, Admissions will use your final subject results to calculate an entry rank.

I finished school before 2021

- Secondary academic results and / or rank.
- Resumé of work and life experience may be required. It may be possible to use your work skill level and history to allocate an entry rank.
- Special Tertiary Admissions Test (STAT)*.
- Any complete or incomplete prior study such as AQF, Certificate IV or higher from a recognised provider.

I did not complete school / have no other qualifications

There are a number of alternative means of gaining admission besides formal study. Bond will calculate an entry rank based on any one of the following:

- Resumé of work and life experience. It may be possible to use your documented work skill level and history to allocate an entry rank.
- Special Tertiary Admissions Test (STAT)*. Any complete or incomplete prior study such as AQF Certificate IV or higher from a recognised provider.
- Past school results

Learn more about admissions pathways

Please contact your Domestic Regional Manager at bond.edu.au/regional-managers to have a conversation about admission.

* The Special Tertiary Admissions Test (STAT) will allow you to demonstrate your potential for university study. Refer to QTAC for more information.

How to apply to Bond

1

Pick your program

Deciding on a degree or program is a personal choice. It's about choosing the right program for you – your interests, your future. Remember, our Future Students team is also available to discuss your study options and answer all your questions.

bond.edu.au/search-program

2

Start your application

Applying to study at Bond is easy! Applications for most Bond programs can be lodged online at any time directly to us. Just make sure you check the entry requirements for your chosen program. You are not required to go through the Queensland Tertiary Admissions Centre (QTAC)*, and there are no fees to apply.

bond.edu.au/apply

* Applications for the Medical Program^ are only open to domestic students and must be lodged through QTAC at qtac.edu.au.

3

Receive an early offer

If you are a current Year 12 student commencing university studies in 2025, Bond will assess your application based on your high school results. You may then receive an early offer* before you receive your ATAR. Any Bond applications submitted once ATAR are released will be assessed under the program's standard entry requirements. If you are not currently a Year 12 student, your application will be assessed as per Bond's usual application process.

* Excluding Bond's Medical Program.

4

Upload the required documents

Make sure that you complete all fields in your application form including uploading required documentation.

This documentation may include academic transcripts including your Year 11 and Year 12 results at time of submission, photo identification, and any other documents required for specific programs, such as certificates or awards.

bond.edu.au/application-tips

5

Submit your application

Agree to the application declaration and click 'submit'. You'll receive an email from Bond University to confirm your application was successfully submitted.

6

Track your application progress

The application review process will normally take two weeks, provided all supporting documentation has been submitted. Our Future Students team will be in touch with you if they require any further information, so keep an eye on your email inbox. You can also track your online application on our online application service with the same login details.

7

Receive your letter of offer

As a successful applicant, you will receive an email from us offering you to officially become a Bond student. This email includes a formal Letter of Offer from Bond University and information about fee payment options and accommodation.

8

Accept your offer

You are two steps away from confirming your place at Bond! To accept your offer all you need to do is log in to our online application service and follow the instructions, complete the FEE-HELP form online or pay the required fees as listed on your offer. If you are a current Year 12 student, once you receive your ATAR results, take a photo of your results and SMS them to your Domestic Regional Manager. Visit bond.edu.au/contact for your Regional Manager's contact details.

9

Get ready for Orientation

Your first introduction to university life! Orientation is the perfect time to make new friends, find your way around campus and complete your enrolment at Bond. The Orientation experience features an exciting program of social activities where you can relax and meet people, and there are lots of information hubs to help you get ready for university life. Orientation information will be sent to you in the lead up to your first semester.

When it comes to your future, the sky is the limit.

Explore all the possibilities inside the pages of Bond's Undergraduate Guide, from stories of study success to boundless industry opportunities and invaluable work experiences. And, if you want to dive even deeper into the story, get in touch – remember, we exist to help you stand out.
